

Let's stay
Healthy!

There are germs called Corona Virus that can make people sick.

We can all keep healthy by:

washing our hands

covering our mouth when
we cough

covering our mouth when
we sneeze

Wearing a face mask

Right now I might need to wear a mask.

Wearing a mask might feel uncomfortable or make me sad. The mask can keep me safe from germs

People at my house might need to wear a mask.

Masks may seem scary. But it is OK.
Masks keep us healthy.

We need to wash our hands a lot to stay healthy.

We need to count to 20 or sing Happy Birthday while we wash our hands.

Happy Birthday!

Let's all help keep each other healthy!
