Preparing the Front Line to Respond to the Opioid Crisis

The Department of Behavioral Health and Developmental Disabilities, Office of Addictive Diseases in collaboration with the Behavioral Health Regional Services Administrators are excited to host a **FREE** online training for you.

Training Topics:

Addiction as a Brain Disease - An overview of the “anti-reward brain system” and the reason that a substance use disorder causes a detaching effect on human bonding will be included in this seminar.

Administration of Naloxone - training and education for the use of Naloxone and promote overdose reversal.

Culture of Recovery – Provides a platform for individuals and organizations to better understand the impacts of stigma, discrimination on the ways they work, and to learn appropriate recovery language that is welcoming to all.

(POST Credits will be available for those who qualify)

(Approved EMS workers will be eligible to receive CEs for these training courses)

Date

August 31, 2020 — September 18, 2020

Timeframe

There will be a 3 week window to complete all 3 courses

Location

The training courses will be held online
