### **Recovery Presentation**

Chair Lasa Joiner invited guest speaker Ms. Jen Banathy, the organizational Developmental Coordinator for the Respect Institute of Georgia to the podium to introduce the recovery speaker for the day. Mr. Jerry Smiley approached the podium and expressed how grateful he is for the opportunity to share his recovery journey with the

Board members. He began by explaining that his childhood was extremely traumatic, because he was exposed to drugs, guns, and violence, at such an early age in life and how that had a negative effect on him and his childhood. He also shared that he was incarcerated in one of the most violent youth prisons and spoke about how that experience impacted his childhood as well. After his release, he made the decision to turn his life around, but opportunities to change his circumstances were simply not within reach for him. Lastly, Mr. Smiley spoke about how he is clean and has been able to embrace the many opportunities for growth from organizations like the Georgia Mental Health Consumer Network. Mr. Smiley thanked everyone for the opportunity to speak and left the podium.

Chair Lasa Joiner thanked Mr. Smiley for sharing his story with the Board and introduced two agenda items requiring the Board's action.

Commissioner Tanner then invited Ansley Poythress, LCSW, the Transitional Services Manager at the Department of Behavioral Health and Developmental Disabilities to the podium to give an update on the Community Residential Alternative Transitional Homes. Ms. Poythress highlighted the difference in the behavior-focused community residential alternatives, intensive community residential services and the specialized transitional community residential alternatives for this population. She also shared a brief update on the specialized transitional community residential alternative homes located in Augusta, GA and shared the average length of stay and how many people we have served in those homes. Lastly, Ms. Poythress covered how effective these homes are within our

community. Ms. Poythress presented data showing that the use of the specialized transitional homes decreased the number of days individuals spent in local hospitals.

Commissioner Tanner then invited Rachael Holloman, Director of the Office of Federal Grant Programs and Suicide Prevention and Alesha Cooke Henderson, Youth Suicide Prevention Specialist for the Department of Behavioral Health and Developmental Disabilities to the podium to provide an update on the Office of Prevention. Ms. Holloman highlighted the primary purpose of presenting at the Pediatric Suicide Prevention Virtual Summit was to inform pediatric primary care providers, pediatric nurses and other clinical and non-clinical staff about how to look for warning signs and how effective it is to start prevention early to change the trajectory of the youth's future. The Pediatric Suicide Prevention Virtual Summit focused on enhancing the suicide specific continuum of care, with the goal of reducing the number and rate of suicide deaths and number of non-fatal suicide attempts among children and adolescents. The team also highlighted the Pediatric Zero Suicide Webinar Series. Ms. Cooke Henderson informed the Board that Suicide Prevention Day 2025 at the Capitol was a success. Over 400 people attended and student representation came from each region of the state. Ms. Cooke Henderson also informed the Board about Mental Health First Aid trainings for adults and youth and expressed that they will be training more staff soon. Commissioner Tanner informed the Board that if any Board member would like to get certified, to please reach out to Ms. Holloman and Ms. Nabritt to coordinate the dates.
