SERVICES

SERVICES	
1. Work incentives planning	Rating
All consumers are offered assistance in obtaining comprehensive, individualized work incentives	4
planning before starting a new job and assistance accessing work incentives planning thereafter when	
making decisions about changes in work hours and pay. Work incentives' planning includes SSA	
benefits, medical benefits, medication subsidies, housing subsidies, food stamps, spouse and dependent	
children benefits, past job retirement benefits and any other source of income. Consumers are	
provided information and assistance about reporting earnings to SSA, housing programs, VA programs,	
etc., depending on the person's benefits.	
2. Disclosure	Rating
Employment specialists provide consumers with accurate information and assist with evaluating their	5
choices to make an informed decision regarding what is revealed to the employer about having a	
disability.	
o Employment specialists do not require all consumers to disclose their psychiatric disability at	
the work site in order to receive services.	
 Employment specialists offer to discuss with consumers the possible costs and benefits (pros 	
and cons) of disclosure at the work site in advance of consumers disclosing at the work site.	
Employment specialists describe how disclosure relates to requesting accommodations and the	
employment specialist's role communicating with the employer.	
 Employment specialists discuss specific information to be disclosed (e.g., disclose receiving 	
mental health treatment, or presence of a psychiatric disability, or difficulty with anxiety, etc.)	
and offer examples of what could be said to employers.	
 Employment specialists discuss disclosure on more than one occasion (e.g., if consumers have 	
not found employment after two months or if consumers reports difficulties on the job).	
3. Ongoing, work-based vocational assessment	Rating
Initial vocational profile/assessment occurs over 2-3 sessions and is updated with information from	3
work experiences in competitive jobs. A vocational profile form that includes information about	
preferences, experiences, skills, current adjustment, strengths, personal contacts, etc., is updated with	
each new job experience. Aims at problem solving using environmental assessments and consideration	
of reasonable accommodations. Sources of information include the consumer, MH treatment team,	
clinical records, and with the consumer's permission, from family members and previous employers.	
4. Rapid search for competitive job	Rating
Initial employment assessment and face-to-face employer contact by the consumer or the employment	4
specialist about a competitive job occurs within 30 days after program entry.	
5. Individualized job search	Rating
Employment specialists make employer contacts aimed at making a good job match based on	3
consumers' preferences and needs rather than the job market (i.e. those jobs that are readily available).	
An individualized job search plan is developed and updated with information from the vocational	
assessment/profile form and new job/educational experiences.
