1. Residential sites are required to have an on-site residential manager/supervisor. The Residential Manager/Supervisor is required to be on-site at the CRR II site at least three times per week to provide oversight and supervision to the staff who provide direct daily services and supports.
  - a. Residential Managers/Supervisors may be persons with at least 2 years' experience providing MH or AD services and at least a high school diploma; however, this person must be directly supervised by a licensed staff member (including LMSW, LMFT, APC, or 4-year RN).
2. Residential supportive services may be delivered by trained professionals with at least high school diploma, GED or higher, who have completed the paraprofessional training required for DBHDD contracted organizations and who are operating under the supervision of a Residential Manager.
3. Providers should make adjustments for increased staffing as appropriate based on the needs of the individuals within the residential program.
4. There is not a requirement for 24/7 awake staff but there must be availability of 24/7/365 support, which means a staff person must be on-site and reachable.

### Clinical Operations

1. Individuals must be assisted with the below items within the first 7 days of admission and every 90 days until discharge to determine appropriateness for this level of residential support:
  - a. A Comprehensive Needs Assessment that includes the activities below:

## Residential: Community Residential Rehabilitation II (Semi-Intensive / Level 2) – EFFECTIVE DATE TBD

- i. Applying for and obtaining vital records.
    - ii. Submitting/monitoring appropriate benefit/entitlement applications to assist with the financial demands of independent living.
    - iii. Identification of natural supports (i.e. family, friends, and support groups) and ways to strengthen/utilize them while living in the community.
    - iv. Linkage to adult mental health and/or substance use disorder services, as well as primary care providers and/or specialty services as applicable. Services can be provided by a Core or private psychiatrist, and individual choice/preference should always be considered. Individuals served shall not lose this residential support as a result of his/her choice to opt out of other behavioral health support/medical treatment services (unless these services are otherwise required by a federal program/fund source supporting a specific individual).
  - b. A Housing Goal that clearly states the desire of the individual, identifies available housing opportunities, resources, and supports (i.e. housing types, costs, and locations), and promotes opportunities for continued growth, independence, and community integration.
  - c. A Primary and Secondary/Contingency Transition Plan that clearly identifies the steps needed to achieve the desired Housing Goal and address any barriers to transition.
  - d. A Residential Crisis Response Plan that guides the residential provider's response to an individual's crisis episode while receiving residential services that diverts the loss of housing and promotes housing stability. This plan shall be developed in partnership with the individual and offer 24/7 access to a residential services specialist in the event of a crisis.
  - e. A Residential Functional Assessment.
2. CRR II provides a minimum of (5) hours of weekly residential rehabilitation services to an individual who requires an intensive level of structured support to achieve/enhance their recovery and increase self-sufficiency. These services can be conducted in a group setting; however, no more than half of the required hours can be group. Individuals must have some dedicated hours of individualized services catered especially to their specific needs. Also, these services can only be provided by residential staff and must be focused on independent living skills necessary for the individual to live in a lesser structured setting. Examples of Residential Rehabilitative Services include:
  - a. **Rehabilitative Skill Building** which includes:
    - i. Activities for daily living, especially those involving maintaining personal hygiene and proper grooming/dress.
    - ii. Health and Safety interventions aimed at assisting individuals with access to behavioral health, substance use, and medical treatment services, as well as continuous engagement and adherence to these services; symptom identification and wellness management that promotes appropriate behaviors and safety in the community, and self-administration of medication.
    - iii. Home Management, to include meal planning, preparation, and cooking, laundry, and housekeeping.
    - iv. Financial Management that promotes the ability to manage personal finances and entitlements.
    - v. Personal Growth that allows an individual to express housing choice and preference, develop better communication and social skills using coping skills and positive peer interactions.
  - b. **Community Integration Activities** which allow for opportunities to seek employment and work in competitive integrated settings; attend institutions for higher learning; engage in community life; learn the skills necessary to utilize natural supports in the community. These are meaningful daily activities that are tailored to the needs and preferences of the individual.
  - c. **Rehabilitative Supervision** that requires staff to monitor the individual's response to treatment interventions and make adjustments to the IRP as indicated.
  - d. **Personal Services**
    - i. Monitoring or providing individual assistance with basic daily healthy maintenance activities, meal preparation, and light housekeeping;
    - ii. Limited assistance with bathing, self-grooming, and hygiene;
    - iii. Assistance with self-medication; self-administration of medications, medical and health care adherence, symptom identification and management.
3. Attendance of a day treatment program does not satisfy the rehabilitative services requirement. Additionally, attendance of a day treatment program cannot be required as a condition of admission or residence.

|                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                            | <p>4. Attempted contacts to conduct weekly residential rehabilitative services will not be counted towards overall service hours. It is the expectation that these services are the primary purpose/need for admission to CRR services. Staff must make every effort to provide these services to their residents, even if services must be provided during non-traditional hours. If an individual refuses to participate in services, or misses two (2) consecutive weeks, a clinical review of the individual's IRP should be conducted, determining the clinical appropriateness of services, while identifying and accounting for any special or individualized needs/accommodations. If an individual has self-identified that they do not require rehabilitative services and refuses to participate for four (4) consecutive weeks despite education and coaching provided by Residential staff and if necessary, the Regional Field Office, then he/she may be discharged from the residential program.</p> <p>5. Providers will facilitate Quarterly Team Meetings with the Central Office, Regional Field Office, and individual to report findings of quarterly Residential Functional Assessments, review Housing Goal, and discharge transition plan. Where appropriate, specialty services (such as ACT, CST, ICM, and SE) should also be included in these quarterly meetings. Documentation of this meeting must be entered into the Electronic Medical Record as a non-billable Progress Note.</p> <p><b><u>Treatment, Transition, and Housing Planning</u></b></p> <p>6. Services must be delivered to individuals in accordance with their Individualized Recovery Plan.</p> <p>7. CRR II is a transitional residential setting and is NOT intended to provide a long-term residential placement, nor permanent housing. As such, discharge planning begins upon admission and should reinforce the therapeutic nature of residential supports to ensure individual stability before discharge.</p> <p>8. Any individual enrolled in this service for whom acute stabilization services are necessary (e.g., inpatient hospitalization, crisis stabilization unit, emergency department intervention, BHCC, etc.), the provider must conduct a clinical review of the individual's relevant clinical information (e.g. discharge plan/summary, risk assessments, treatment recommendations, etc.) and modify the individual's IRP as necessary, in accordance with Part II, Section III: Documentation Requirements of this manual, item # 5. Individualized Recovery/Resiliency Planning, sub-item E.</p> <p>9. As a part of the planning for when an individual will move to housing of his/her own choice, the Housing Choice and Needs Evaluation <a href="https://dbhddapps.dbhdd.ga.gov/NSH/">https://dbhddapps.dbhdd.ga.gov/NSH/</a> must be completed at admission and annually for every individual, as indicated on their IRP. The only exception to this expectation is when an individual chooses to opt out due to stable housing, personal choice, etc.</p> <p>10. Because DBHDD is committed to providing choices for housing (based on complete information, including the individual's needs, preferences, and the appropriate, available housing options), the residential staff affiliated with this program shall introduce concepts of independent living and promote activities towards the goals of successful, individualized, community-integrated housing during the ongoing residential support provided within this service.</p> <p>11. When an individual begins to substantially meet IRP goals and objectives, final transition arrangements to the appropriate level of residential care shall begin within the next 7 to 14 days (ASO reserves the right to authorize transition days accordingly).</p> |
| Service Accessibility      | <p>1. Provider must have a documented process to receive referrals during normal business hours (i.e. an email or fax number that is available to receive referrals).</p> <p>2. Providers must have a documented process to accept individuals into service and admission to the residence during normal business hours, Monday through Friday, from 8:00 AM until 5:00 PM.</p> <p>3. Providers of residential services and operators of a Level-II site must utilize referral management systems and associated processes as determined by DBHDD to streamline access and ensure effective coordination of care.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Documentation Requirements | <p>1. The organization must develop and maintain sufficient written documentation to support the Residential Service for which billing is made. This documentation, at a minimum, must confirm that the individual for whom billing is requested was a resident of the Residential Service on the date of service.</p> <p>2. The individual's record must contain the following types of progress notes:</p> <ol style="list-style-type: none"> <li>Individual's Daily Progress Note that includes: <ol style="list-style-type: none"> <li>Any new issues presented during the day (i.e., changes in medical condition, mental health/behavioral symptoms, independent functioning, etc.); and</li> <li>When therapeutic interventions are provided, to include crisis intervention, rehabilitative skill building activities, and/or case management activities (i.e., assisting individual with obtaining vital records, applying for benefits, linkage to other community support services, and items addressed below in #3), the following must be provided:</li> </ol> </li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Residential: Community Residential Rehabilitation II (Semi-Intensive / Level 2) – EFFECTIVE DATE TBD

|                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| Service Description                                                        | Community Residential Rehabilitation Level 3 (CRR III) is a service that provides residential rehabilitation services to individuals who require a moderate and periodic level of structured support to achieve and enhance their recovery and wellness, increase self-sufficiency and independence, and maintain community integration. Service interventions are individualized, and include goal directed skills-training and supports intended to restore an individual to the highest level of baseline functioning in the least restrictive and appropriate environment. Interventions include rehabilitative skill-building in a variety of areas (such as activities of daily living, |       |       |       |       |       |                                                                       |

## Residential: Community Residential Rehabilitation III (Semi-Independent / Level 3)

health and safety, home and financial management, and personal growth), community integration activities, rehabilitative supervision, and/or personal services. These individualized supportive interventions promote individual initiative, preference, and independence in making life choices (including their services and supports).

While the service design is intended to promote increased independence and community integration, it is not always transitional in nature and some individuals may have a clinical necessity to continue receiving support while living in the community. Where possible, individuals should be supported in transitioning to the least restrictive environment available where they can maintain stability and housing.

Individuals receiving Community Residential Rehabilitation should experience decreased symptomology (or a decrease in debilitating effects of symptoms), improved social integration and functionality, and increased movement toward self-directed recovery as evidenced by:

1. Reduction in hospitalizations;
2. Reduction in incarcerations;
3. Maintenance of housing stability;
4. Participation in education, vocational training or gainful employment, if this is a goal in the Individualized Recovery Plan;
5. Participation in activities that promote recovery and community integration such as community meetings and other social and recreational activities.

### Admission Criteria

Adults aged 18 or older with a primary diagnosis of Serious and Persistent Mental Illness (SPMI) with functional limitations that severely impair their ability to live in a community-based setting without a high level of residential support and supervision. Individual does not demonstrate complete independence with regard to the basic skills needed to live in accordance with their desired housing preference, as evidenced by the required criteria below:

1. There is a need for access to 24/7 staff support that is not required to be on site at all times to support and ensure safety/harm reduction to self and others as evidenced by the following:
  - a. There is significant functional impairment, and assistance is needed in two (2) or more of the following areas:
    - i. maintaining hygiene,
    - ii. meeting nutritional needs,
    - iii. caring for personal business affairs,
    - iv. avoiding common dangers or hazards to self and possessions,
    - v. performing daily tasks with minimal assistance,
    - vi. carrying out household responsibilities; **and**
  - b. Lacks the ability to live in an independent setting without residential supports and services, as evidenced by demonstrated challenges with health and safety related self-care in two (2) or more of the following areas:
    - i. selecting proper clothing,
    - ii. engaging in medical and dental care,
    - iii. following medical recommendations related to a primary health condition in a home setting,
    - iv. self-administering medications as prescribed,
    - v. experiencing significant social isolation, poverty, homelessness, lack of family support, substance use/co-occurring disorders;
- AND**
2. Individual has two or more of the following indicators of continuous high service needs:
  - i. high use of hospital and/or CSU;
  - ii. persistent symptoms that place individual at risk of harm to self or others;
  - iii. co-occurring substance use of significant duration and/or
  - iv. chronic homelessness,

## Residential: Community Residential Rehabilitation III (Semi-Independent / Level 3)

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

|                          | <p>Priority will be given to individuals who have recently discharged from a state psychiatric hospital or CSU, or who are transitioning from a higher level of residential care.</p> <p>NOTE: Forensic Apartments are a comparable level of care where individuals are court ordered to this level of care with a referral from the State Office of Forensic Services and cannot be moved without court approval. As a result, Forensic Apartments are exempt from utilization review and authorization requests will be automatically approved.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Continuing Stay Criteria | <ol style="list-style-type: none"> <li>1. Individual continues to meet admission criteria as described above; <b>AND</b></li> <li>2. Individual continues to benefit from and require moderate residential supports, as evidenced by the Comprehensive Needs Assessment, Housing Goal, and Residential Functional Assessment.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Discharge Criteria       | <p>Discharge can take place when:</p> <ol style="list-style-type: none"> <li>1. An individual or legal representative/guardian withdraws consent or requests discharge from this service (Refusal to participate in treatment services is not solely a reason for discharge. The Provider must actively engage the individual in the benefit of treatment compliance, thus allowing the individual to make a personal choice to re-engage in services); <b>OR</b></li> <li>2. An individual has achieved his/her goals in the IRP and has appropriate living arrangements that are less restrictive; <b>OR</b></li> <li>3. An individual has not achieved his/her goals in the IRP, and based on current functioning a higher level of care is recommended; <b>OR</b></li> <li>4. An individual is experiencing an extended absence from the residential program of thirty (30) days or more.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

No other residential services are allowable in conjunction with this service.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Clinical Exclusions      | <p>Individuals with the following conditions are excluded from admission unless there is documented evidence of psychiatric condition: Developmental Disability, Autism, Neurocognitive Disorder, or Traumatic Brain Injury. Individual can be effectively and safely supported without 24/7 staff support.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Required Components      | <ol style="list-style-type: none"> <li>1. CRR III seeks to provide temporary transitional supports, with an encouraged length of stay between 12-18 months. Continued residency in a Level III setting is acceptable when individual circumstance prevents their ability to transition. <ol style="list-style-type: none"> <li>a. If an individual is expected to overstay the recommended length of stay, written approval must be received from the Regional Field Office with a detailed explanation of why the individual could not be transitioned to another setting.</li> </ol> </li> <li>2. Residential settings must not exceed 16 beds.</li> <li>3. The residential program must provide a structured and supported living environment 24 hours a day, 7 days a week, with a minimum of 36 hours of on-site staff. <ol style="list-style-type: none"> <li>a. The Enhanced CRR III component must have a minimum of 56 hours of on-site staff.</li> </ol> </li> </ol> <p><b><u>Licensing and Accreditation Requirements</u></b></p> <ol style="list-style-type: none"> <li>4. The agency providing this service must be either CARF or Joint Commission accredited.</li> <li>5. The service site must be licensed by the Georgia HFR as a PCH or CLA facility which can provide support to those with behavioral health concerns, in accordance with applicable rules and regulations. However, the configuration of some sites may be such that they do not require licensure.</li> <li>6. The Provider and service site must be trained and knowledgeable regarding Protecting the Rights of its individuals as written in the Rules and Regulations set forth by DCH for a PCH or CLA. The home must operate in a manner that respects the personal dignity of the individual.</li> </ol> <p><b><u>Site Requirements</u></b></p> <ol style="list-style-type: none"> <li>7. Each resident facility must comply with all relevant safety codes. <ol style="list-style-type: none"> <li>a. Each residential site must be arranged and maintained to provide adequate measures for the health, safety, access and well-being of the residents. <ol style="list-style-type: none"> <li>i. All areas of the residential facility must be clean, safe, appropriately equipped, and furnished for the services delivered.</li> </ol> </li> </ol> </li> </ol> |

## Residential: Community Residential Rehabilitation III (Semi-Independent / Level 3)

|                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                       | <ul style="list-style-type: none"> <li>b. The facility must maintain a written evacuation plan to be used in the case of fire or other disaster. An appropriate written certification of compliance must be obtained indicating that all applicable fire and safety code requirements have been satisfied. Periodic fire and other safety drills must be conducted.</li> <li>c. Evacuation routes must be clearly marked by exit signs.</li> </ul> <ol style="list-style-type: none"> <li>8. The facility must comply with the Americans with Disabilities Act. Specifically, the facility must provide access to ground-level units that meet ADA criteria for individuals who have a physical disability.               <ul style="list-style-type: none"> <li>a. Providers must ensure readiness to purchase and install accommodations for individuals who are deaf or hard of hearing who are to be served at the site.</li> </ul> </li> <li>9. The site/facility lease must be in the name of the provider, and not in the individual participant's name, to allow for fluidity of individuals that may be served.</li> <li>10. The site/facility location is integrated within the community and supports access to the greater community.</li> </ol> <p><b><u>Resident Accommodations</u></b></p> <ol style="list-style-type: none"> <li>11. Each individual has privacy in their sleeping or living unit. The common areas should be available to residents.</li> <li>12. Units have lockable entrance doors, with the individual-served and appropriate staff having keys to doors as needed.</li> <li>13. To the greatest extent possible, individuals sharing units should have a choice of roommates.</li> <li>14. For sites in which an individual might have an extended length of stay, individuals have the freedom to decorate their sleeping or living units.</li> <li>15. Individuals have freedom and support to control their schedules and activities and have access to food at any time.</li> <li>16. To the greatest extent possible and with respect to other participants, individuals may have visitors at any time, with the exception of during late night hours and overnight.</li> </ol> |
| Staffing Requirements | <ol style="list-style-type: none"> <li>1. Residential sites are required to have an on-site residential manager/supervisor. Residential Managers/Supervisors may be persons with at least 2 years' experience providing MH or AD services and at least a high school diploma; however, this person must be directly supervised by a licensed staff member (including LMSW, LMFT, APC, or 4-year RN).</li> <li>2. The Residential Manager/Supervisor is required to be on-site at the CRR III site at least 3x/week to provide oversight and supervision to the staff who provide direct daily services and supports.</li> <li>3. Persons with high school diplomas, GEDs or higher, who have completed the paraprofessional training required for DBHDD contracted organizations and under the supervision of a Residential Manager may perform residential services.</li> <li>4. Provider should make adjustments for increased staffing as appropriate based on the clinical needs of the individuals living with the residential program.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Clinical Operations   | <ol style="list-style-type: none"> <li>1. Individuals must be assisted with the below items within the first seven (7) days of admission and every 90 days to determine appropriateness for this level of residential support:               <ul style="list-style-type: none"> <li>a. A Comprehensive Needs Assessment that includes the below activities:                   <ul style="list-style-type: none"> <li>i. Applying for and obtaining vital records. Submitting appropriate benefit/entitlement applications to assist with the financial demands of independent living.</li> <li>iii. Identification of natural supports (i.e. family, friends, and support groups) and ways to strengthen/utilize them while living in the community.</li> <li>iv. Linkage to adult mental health and/or substance use disorder services, as well as primary care providers and/or specialty services as applicable. Services can be provided by a Core or Private Psychiatrist and individual choice/preference should always be considered. Individuals served shall not lose this residential support as a result of his/her choice to opt out of other behavioral health support/medical treatment services (unless these services are otherwise required by a federal program/fund source supporting a specific individual).</li> </ul> </li> <li>b. A Housing Goal that clearly states the desire of the individual, identifies available housing opportunities, resources, and supports (i.e. housing types, costs, and locations), and promotes opportunities for continued growth, independence, and community integration.</li> <li>c. A Primary and Secondary/Contingency Transition Plan that clearly identifies the steps needed to achieve the desired Housing Goal and address any barriers to transition.</li> </ul> </li> </ol>                                                                                                                                                                                                                                                                                                                                                                           |

## Residential: Community Residential Rehabilitation III (Semi-Independent / Level 3)

- d. A Residential Crisis Response Plan that guides the residential provider's response to an individual's crisis episode while receiving residential services that diverts the loss of housing and promotes housing stability. This plan shall be developed in partnership with the individual and offer 24/7 access to a residential services specialist in the event of a crisis.
- e. A Residential Functional Assessment.
- 2. CRR III provides a minimum of (3) hours of weekly residential rehabilitation services to an individual who requires a moderate level of structured support to achieve/enhance their recovery and increase self-sufficiency. These services can be conducted in a group setting; however, no more than half of the required hours can be group. Individuals must have some dedicated hours of individualized services catered especially to their specific needs. Also, these services can only be provided by residential staff and must be focused on independent living skills necessary for the individual to live in a lesser structured setting. NOTE: Sending individuals to a day treatment program will not satisfy this requirement. Additionally, attendance at a day treatment program cannot be required as a condition of admission to this level of care. Examples of Residential Rehabilitative Services include:
  - a. **Rehabilitative Skill Building** which includes:
    - i. Activities for daily living, especially those involving maintaining personal hygiene and proper grooming/dress
    - ii. Health and Safety interventions aimed at assisting individuals with access to behavioral health, substance use, and medical treatment services, as well as continuous engagement and adherence to these services; symptom identification and wellness management that promotes appropriate behaviors and safety in the community, and self-administration of medication.
    - iii. Home Management, to include meal planning, preparation, and cooking; laundry and housekeeping
    - iv. Financial Management that promotes the ability to manage personal finances and entitlements
    - v. Personal Growth that allows an individual to express housing choice and preference, develop better communication and social skills through the use of coping skills and positive peer interactions
  - b. **Community Integration Activities** which allow for opportunities to seek employment and work in competitive integrated settings; attend institutions for higher learning; engage in community life; learn the skills necessary to utilize natural supports in the community. These are meaningful daily activities that are tailored to the needs and preferences of the individual.
  - c. **Rehabilitative Supervision** that requires staff to monitor the individual's response to treatment interventions and make adjustments to the IRP as indicated.
  - d. **Personal Services**
    - i. Monitoring or providing individual assistance with basic daily healthy maintenance activities, meal preparation, and light housekeeping;
    - ii. Limited assistance with bathing, self-grooming, and hygiene;
    - iii. Assistance with self-medication; self-administration of medications, medical and health care adherence, symptom identification and management.
- 3. CRR III Enhanced provides a minimum of four (4) hours of weekly residential rehabilitation services.
- 4. Attempted contacts to conduct weekly residential rehabilitative services will not be counted towards overall service hours. It is the expectation that these services are the primary purpose/need for admission to CRR services. Staff must make every effort to provide these services to their residents, even if services must be provided during non-traditional hours. If an individual refuses to participate in services, or misses two (2) consecutive weeks, a clinical review of the individual's IRP should be conducted, determining the clinical appropriateness of services, while identifying and accounting for any special or individualized needs/accommodations. If an individual has self-identified that they do not require rehabilitative services and refuses to participate for four (4) consecutive weeks despite education and coaching provided by staff and Regional Field Office, then he/she may be discharged from the residential program.
- 5. Providers will organize a quarterly residential team meeting with the individual to report findings of quarterly Residential Functional Assessments, review Housing Goal, and discharge transition plan. Where appropriate, specialty services (such as ACT, CST, ICM, and SE) should also be included in these quarterly meetings. Documentation of this quarterly meeting must be entered into the Electronic Medical Record as a non-billable Progress Note.

### Treatment, Transition, and Housing Planning

- 6. Services must be delivered to individuals according to their IRP.

## Residential: Community Residential Rehabilitation III (Semi-Independent / Level 3)

|                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| Service Description                  | <p>Community Residential Rehabilitation Level 4 (CRR IV) is a service that provides rehabilitative skill building, acquisition and training activities for daily living, home and personal management, community integration and rehabilitative supervision in scattered site residential locations occupied by the individual in their own residence, even if temporary. The service provides limited assistance for individuals with a serious mental illness in an extreme situational crisis that requires a temporary residential support to maintain and retain stable housing, continue with their recovery, and increase self-sufficiency (such as major depressive episode when an individual is not so critical to warrant hospitalization, but is, for instance, unable to get out of bed without encouragement or unable to muster energy/focus to manage a meal for self).</p> <p>This is an intervention that is delivered in order to prevent an extreme crisis that may result in a significant loss of an individual's daily functioning, which could jeopardize their housing due to subsequent destabilization. CRR IV is utilized until an individual can regain basic management of critical daily self-care and/or transition to lower level of support. This service can be used to:</p> <ol style="list-style-type: none"><li>1. Provide services to an individual who requires personal care in their own home (e.g. assistance with house cleaning, trash removal, medication organization); and</li><li>2. Programming should consist of services to restore and develop skills in functional activities; regain or maintain housing and tenancy, supported employment; develop or maintain social relationships.</li></ol> <p>This service allows for the provision of housing supports, which are interventions that support an individual's ability to prepare for and transition to housing, such as:</p> <ol style="list-style-type: none"><li>1. Developing housing support crisis plan and/or coordinating with the individual to review, update and modify their housing support plan and crisis plans as part of their IRP.</li><li>2. Early interventions for behaviors that might jeopardize housing, e.g., late rent payment, lease violations.</li></ol> |       |       |       |       |       |          |                |                                                     |       |       |       |       |      |

## Residential: Community Residential Rehabilitation IV

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|                          | <p>The following personal services interventions are applicable:</p> <ol style="list-style-type: none"> <li>1. Supporting the individual in reclaiming a stable living situation;</li> <li>2. Monitoring or providing individual assistance with basic daily healthy maintenance activities, meal preparation, and light housekeeping;</li> <li>3. Limited assistance with bathing, self-grooming, and hygiene;</li> <li>4. Assistance with self-medication; self-administration of medications, medical and health care adherence, symptom identification and management;</li> <li>5. Assistance for the individual with Meal Planning, Budgeting and Money Management, Laundry, Housekeeping.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Admission Criteria       | <ol style="list-style-type: none"> <li>1. Individuals aged 18 and older with a Serious and Persistent Mental Illness (SPMI) diagnosis and who have functional limitations that require in-home personal care services and support in order to maintain their housing.</li> </ol> <p style="text-align: center;"><b>AND</b></p> <ol style="list-style-type: none"> <li>2. Individuals who utilize this level of service typically have no other viable means of support, have an inability to live independently due to their symptoms, and personal care services have been identified as necessary for their continued recovery/wellness and housing stability.</li> </ol> <p style="text-align: center;"><b>AND</b></p> <ol style="list-style-type: none"> <li>3. Individual needs assistance in three (3) or more of the following areas: <ol style="list-style-type: none"> <li>a. maintaining hygiene,</li> <li>b. meeting nutritional needs,</li> <li>c. caring for personal business affairs,</li> <li>d. avoiding common dangers or hazards to self and possessions,</li> <li>e. performing daily tasks with minimal assistance;</li> <li>f. carrying out household responsibilities.</li> </ol> </li> </ol> <p style="text-align: center;"><b>AND</b></p> <ol style="list-style-type: none"> <li>4. Individuals who are authorized for community-based services such as ACT, ICM, CM, or CST are eligible if the individual meets admission criteria. Supports should be non-duplicative, complementary, and coordinated.</li> </ol> |
| Continuing Stay Criteria | <ol style="list-style-type: none"> <li>1. Individual continues to meet Admission Criteria; <b>and</b></li> <li>2. Individual continues to require personal care services and continues to demonstrate need for assistance in three (3) or more of the following areas: <ol style="list-style-type: none"> <li>a. maintaining hygiene,</li> <li>b. meeting nutritional needs,</li> <li>c. caring for personal business affairs,</li> <li>d. avoiding common dangers or hazards to self and possessions,</li> <li>e. performing daily tasks with minimal assistance;</li> <li>f. carrying out household responsibilities.</li> </ol> </li> <li>3. Individual must have a residential functional assessment at minimum of every 180 days to determine appropriateness for this level of support.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Discharge Criteria       | <ol style="list-style-type: none"> <li>1. Individual can effectively and safely be supported with a more appropriate level of service due to change in individual's level of functioning; and no longer meets admission criteria; <b>or</b></li> <li>2. Individual or appropriate legal representative requests discharge.</li> <li>3. Provider will make significant efforts to reinforce therapeutic and residential supports to ensure client stability before an involuntary discharge occurs.</li> <li>4. Refusal of an individual to participate in treatment services is not solely a reason for discharge. Provider must actively engage with the individual regarding the benefits of treatment participation, thereby allowing the individual to make a personal choice about whether or not to re-engage in services.</li> <li>5. The CRR programs are transitional in nature, intended to support stabilization, promote wellness and recovery and begin to work towards achievement of the individual's longer-term housing goal. As such, discharge planning begins upon admission.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Residential: Community Residential Rehabilitation IV

|                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

Agency staff meeting the staffing requirements may deliver CRR IV as a separate and distinct service from any other community-based or authorized Adult Mental Health service.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Required Components                | <ol style="list-style-type: none"> <li>1. The agency providing this service must be CARF or Joint Commission accredited.</li> <li>2. CRR IV provides supportive services to an individual in their home to maintain stable housing, continue with their recovery, and increase self-sufficiency.</li> <li>3. The service requires a minimum of one (1) in-person face-to-face contact with the individual in their home each week.</li> <li>4. Individuals must receive an average of 10 (ten) 15-minute units per week of skills training, community integration activities, and/or personal services.</li> <li>5. The outcomes will focus on: <ol style="list-style-type: none"> <li>a. Recovery, housing, employment, and meaningful life in the community;</li> <li>b. Maintenance of housing stability; and</li> <li>c. Participation in education, vocational training or gainful employment, if this is a goal in the Individualized Recovery Plan;</li> <li>d. Participation in activities that promote recovery and community integration.</li> </ol> </li> <li>6. In addition to receiving this service, individuals should be linked to adult mental health and/or substance use disorder services, as applicable, including Core or Private psychiatrist and specialty services.</li> <li>7. Individuals served shall not lose this support as a result of their choice to opt out of other behavioral health support/treatment services.</li> <li>8. There must be a written Residential Crisis Response Plan that guides the residential provider's response to an individual's crisis episode while receiving CRR IV, avoids a loss of housing, and promotes housing stability. This plan shall be developed in partnership with the individual and offer 24/7 access to assigned staff in the event of a crisis.</li> <li>9. This service occurs in the following settings: <ol style="list-style-type: none"> <li>a. An individual's permanent housing setting, living in their own individual units with all the tenancy rights therein; and/or</li> <li>b. A government-sponsored rental subsidy program (e.g., GHFA Permanent Supportive Housing, GHVP, HCV, Continuum of Care PSH, HUD 811) providing permanent supportive housing.</li> </ol> </li> <li>10. Staff affiliated with this program shall reinforce concepts of independent living and promote activities towards the goals of successful, individualized, community-integrated housing.</li> </ol> |
| Staffing Requirements              | <ol style="list-style-type: none"> <li>1. The organization must have an executive director or program director charged with the responsibility for day-to-day management of the organization.</li> <li>2. Persons with high school diplomas, GEDs, or higher degrees may provide direct support services under the supervision of a licensed staff member (including LMSW/LCSW, LAPC/LPC, LMFT/LMFT, or licensed psychologist), or a 4-year RN.</li> <li>3. A Community Living Support specialist is at least a Level 5 Practitioner as defined in this Provider Manual.</li> <li>4. A staff person must be available 24/7 to respond to emergency calls within one hour.</li> <li>5. Providers may not exceed a caseload ratio of twenty (20) individuals served per one (1) FTE staff person.</li> <li>6. Direct service staff delivering CRR IV should maintain a minimum productivity level of 65%.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| Documentation Requirements | <ol style="list-style-type: none"> <li>1. The organization must develop and maintain sufficient written documentation to support the services for which billing is submitted. This documentation, at a minimum, must confirm that the individual for whom billing is requested was enrolled in CRR IV on the billing date and that support services are being provided as required.</li> <li>2. Each note must be signed and dated and must include the professional designation of the individual making the entry.</li> <li>3. Documentation must be legible and concise and include the printed name and the signature of the practitioner. The name, title, and credentials of the individual providing the service must reflect the staffing requirements established for the service interventions being delivered.</li> <li>4. Providers are required to have a qualifying verified diagnosis present in the individual's case record prior to the initiation of services.</li> </ol> |

| Service Description      | AD Independent Residential Services provides recovery housing with a supportive and structured living environment for individuals with a Substance Use Disorder. This is a lower level of care with minimal supervision designed to promote independent living in a recovery environment for individuals who have established and maintained some consistent level of sobriety and does not require 24/7 supervision. Residents continue to maintain basic rehabilitation with focus on early recovery skills that include the negative impact of substances use, tools for developing positive support, and relapse prevention skills.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Admission Criteria       | Adults aged 18 or older who meet the following criteria:<br><ol style="list-style-type: none"><li>1. The individual meets the diagnostic criteria for a Substance Use Disorder as defined in the most recent DSM.</li><li>2. The individual has sufficient cognitive ability at this time to benefit from admission to the AD Independent Residential program.</li><li>3. The individual has demonstrated an ability to participate in or be successful with this level of care as indicated by current recovery efforts.</li><li>4. The individual requires support of an AD Independent Residence service that provides an alcohol and drug free environment.</li><li>5. The individual benefits from the peer support of fellow residents to maintain ongoing recovery;</li><li>6. The individual does not require twenty-four hours a day on-site supervision by clinical staff; and</li><li>7. The individual exhibits the skills and strengths necessary to maintain recovery and readapt to independent living in the community while receiving the minimal clinical and peer support provided by the treatment provider.</li></ol> |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Continuing Stay Criteria | <ol style="list-style-type: none"><li>1. The individual continues to meet the criteria of the admission.</li><li>2. The individual is making progress but has not yet achieved the goals in the treatment/service plan or new problems have been identified that are appropriately treated in this level of care.</li><li>3. A timeline for expected implementation and completion is in place but discharge criteria has not been met.</li></ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Discharge Criteria       | <ol style="list-style-type: none"><li>1. The individual has accomplished the goals and objectives of the treatment/service plan. The individual refuses further recovery support/care.</li><li>2. The individual will be referred to other appropriate treatment/services which cannot be provided by this level of care.</li><li>3. The individual has received maximum benefit from this level of care.</li><li>4. The individual's behavior is disruptive to the treatment of others and/or fails to comply with the program rules and therapeutic interventions that have not been successful in resolving the issues.</li></ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Clinical Exclusions      | <ol style="list-style-type: none"><li>1. Individuals with the following conditions are excluded from admission unless there is documented evidence of a substance use condition: Developmental Disability, Autism, Neurocognitive Disorder, or Traumatic Brain Injury;</li><li>2. The individual exhibits behavior dangerous to staff, self, or others;</li></ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |       |       |       |       |       |      |                |                   |       |       |       |       |      |

## Residential: Independent AD Residential Services

|                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| Service Description      | Independent Residential Service (IRS) provides scheduled residential service to an individual who requires a low level of residential structure to maintain stable housing, continue with their recovery, and increase self-sufficiency. This residential placement will reflect individual choice and should be fully integrated in the community in a scattered site individual residence.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Admission Criteria       | 1. Individual must meet target population as indicated above; <b>and</b><br>2. Individual demonstrates ability to live with minimal supports; <b>and</b><br>3. Individual, states a preference to live independently.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Continuing Stay Criteria | Individual continues to benefit from and require minimal community supports.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Discharge Criteria       | 1. Individual, or appropriate legal representative, no longer desires service, <b>or</b><br>2. Individual no longer meets program and/or housing criteria.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Clinical Exclusions      | Individuals with the following conditions are excluded from admission unless there is documented evidence of a psychiatric condition: Developmental Disability, Autism, Neurocognitive Disorder, or Traumatic Brain Injury.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Required Components      | 1. The organization must have an executive director or program director charged with the responsibility for day-to-day management of the organization.<br>2. If applicable, the organization must be licensed by the Department of Community Health, Healthcare Facilities Regulation Division to provide residential services to individuals with a mental health condition and/or substance use disorder diagnosis.<br>3. The Independent Residential Service provides scheduled visits to an individual's apartment or home to assist with residential responsibilities.<br>4. Services must be provided at a time that accommodates individuals' needs, which may include during evenings, weekends, and holidays.<br>5. This service requires a minimum of 1 face-to-face contact with the individual in their home each week (see also D. for an exception).<br>6. Independent Residential Services may only be provided within a supportive housing program or within the individual's own apartment or home.<br>7. There must be a written Residential Crisis Response Plan that guides the residential provider's response to an individual's crisis episode while receiving residential services that diverts the loss of housing and promotes housing stability. This plan shall be developed in partnership with the individual and offer 24/7 access to a residential services specialist in the event of a crisis. |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Staffing Requirements    | 1. Residential Managers may be persons with at least 2 years' experience providing MH or AD services and with at least a high school diploma; however, this person must be supervised by a licensed staff member (including LMSW, AMFT, APC or 4-year RN).<br>2. Persons with high school diplomas, GEDs, or higher degrees may provide direct support services under the supervision of a Residential Manager.<br>3. A staff person must be available 24/7 to respond to emergency calls within one hour.<br>4. A minimum of one staff per 35 individuals may not be exceeded.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Clinical Operations      | 1. The organization must have a written description of the Independent Residential Service offered that includes, at a minimum, the purpose of the service; the intended population to be served; service philosophy/model; level of supervision and oversight provided; and outcome expectations for its residents.<br>2. The focus of service is to view each individual as the director of his/her own recovery; to promote the value of self-help and peer support; to provide information about mental health conditions and coping skills; to promote social skills, community resources, and individual advocacy; to promote employment and education to foster self-determination and career advancement; to support each individual in using community resources to replace the resources of the mental health system no longer needed; to support each individual to fully integrate into scattered site residential placement or in housing of his or her choice; and to provide necessary support and assistance to the individual that furthers recovery goals, including transportation to appointments and community activities that promote recovery.                                                                                                                                                                                                                                                            |       |       |       |       |       |      |                |                   |       |       |       |       |      |

## Residential: Independent MH Residential Services

|                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| Service Description | AD Intensive Residential Service (associated with ASAM Level 3.5) provides a planned regimen of 24-hour observation, monitoring, treatment and recovery supports utilizing a multi-disciplinary staff for individuals who require a supportive and structured environment due to a Substance Use Disorder. This Intensive level of Residential Service maintains a basic rehabilitative focus on early recovery skills; including the negative impact of substances, tools for developing support, and relapse prevention skills. |       |       |       |       |       |      |                |                   |       |       |       |       |      |

## Residential: Intensive AD Residential Services

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Admission Criteria       | <p>Adults aged 18 or older who meet the following criteria:</p> <ol style="list-style-type: none"> <li>1. The individual meets the diagnostic criteria for a Substance Use Disorder as defined in the most recent DSM.</li> <li>2. The individual has sufficient cognitive ability at this time to benefit from admission to a residential treatment program.</li> <li>3. The individual exhibits a pattern of severe substance use/dependency as evidenced by significant impairment in social, family, scholastic or occupational functioning <b>and one or more of the following:</b> <ol style="list-style-type: none"> <li>a. The individual has not demonstrated an ability to participate in or be successful with less intensive levels of care as indicated by a history of prior treatment followed by rapid or severe relapse or demonstrated an inability to complete outpatient treatment.</li> <li>b. Individual does not have or has not demonstrated the ability to utilize the skills needed to prevent continued use, with imminently dangerous consequences.</li> <li>c. The individual is residing in a dangerous, unstable, or otherwise unsuitable environment which would undermine effective rehabilitation treatment at a lower level of care.</li> <li>d. There is clinical evidence that the individual is not likely to respond to a lower level of care.</li> </ol> </li> </ol> |
| Continuing Stay Criteria | <ol style="list-style-type: none"> <li>1. The individual continues to meet the criteria of the admission.</li> <li>2. The individual is making progress but has not yet achieved the goals in the treatment/service plan or new problems have been identified that are appropriately treated with this level of care.</li> <li>3. A timeline for expected implementation and completion is in place but discharge criteria have not been met.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Discharge Criteria       | <ol style="list-style-type: none"> <li>1. The individual has accomplished the goals and objectives of the treatment/service plan; or</li> <li>2. The individual refuses further care; or</li> <li>3. Individual can effectively and safely be transitioned to a lower level of care; or</li> <li>4. The individual will be referred to other appropriate treatment which cannot be provided with this level of care; or</li> <li>5. The individual has received maximum benefit from this level of care; or</li> <li>6. The individual's behavior is disruptive to the treatment of others and/or fails to comply with the program rules and therapeutic interventions that have not been successful in resolving the issues.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Clinical Exclusions      | <ol style="list-style-type: none"> <li>1. Exhibits behavior dangerous to staff, self, or others; or</li> <li>2. The individual is experiencing symptoms which appear to require withdrawal management services.</li> <li>3. The individual meets admission criteria for a lower level of care and can be effectively treated with that level of care.</li> <li>4. Individuals with the following conditions are excluded from admission unless there is documented evidence of psychiatric condition: Developmental Disability, Autism, Neurocognitive Disorder, or Traumatic Brain Injury.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Required Components      | <ol style="list-style-type: none"> <li>1. Facility must be licensed by the Georgia DCH/HFR under the Rules and Regulations for Drug Abuse Treatment Program 290-4-2.</li> <li>2. Individuals receiving services must have a documented verified substance use diagnosis.</li> <li>3. The residential program must provide a structured and supported living environment 24 hours a day, 7 days a week with awake staff on-site at all times.</li> <li>4. Residential programs must offer priority admission as identified in the SAPT Block Grant-Funded Program Requirements.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Staffing Requirements    | <ol style="list-style-type: none"> <li>1. Providers must have a full time Licensed/Certified Director on site whose duties shall include overseeing day to day operations of services.</li> <li>2. Staff facilitating clinical services must be licensed/credential, have cross training in addictive diseases and mental health, working within their scope of practice, and knowledgeable of service interventions.</li> <li>3. One or more staff is trained and experienced in providing case management services.</li> <li>4. The program utilizes a multidisciplinary staff that include a minimum of: <ol style="list-style-type: none"> <li>a. Program Director</li> <li>b. Licensed/Certified Counselors</li> <li>c. Registered Nurse</li> <li>d. Paraprofessionals</li> </ol> </li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Residential: Intensive AD Residential Services

|                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Clinical Operations                | <ol style="list-style-type: none"> <li>1. The organization must have a written description of the Intensive Residential Service offered that includes, at a minimum, the purpose of the service; the intended population to be served; service philosophy/model, level of supervision and oversight provided; and outcome expectations for its residents.</li> <li>2. Providers are required to provide a structured therapeutic environment designed to facilitate the individual's progress toward recovery from substance use disorders.</li> <li>3. AD Intensive Residential Service must provide a minimum of 20 hours per week, (not including weekend activities) of treatment and recovery support clinical programming relevant to the Individual Recovery Plan. Services must be provided on-site at least five (5) days per week. In addition to the required clinical programs, providers must include treatment activities that strengthens living skills and promotes reintegration into the community. These activities include but are not limited to:               <ol style="list-style-type: none"> <li>a. Vocational services;</li> <li>b. Job skills training, and employment readiness training;</li> <li>c. Educational; and</li> <li>d. Social skills training.</li> </ol> </li> <li>4. The service shall maintain a focus on the development and improvement of the skills necessary for recovery.</li> <li>5. Clinical services which include cognitive, behavioral and other therapies are facilitated through identified treatment interventions.</li> <li>6. Providers shall ensure that the individuals are provided the following:               <ol style="list-style-type: none"> <li>a. Individual Counseling.</li> <li>b. Group Counseling (including therapy, psycho-educational, relapse prevention and recovery).</li> <li>c. Family Counseling/Training (including psycho- education) for Family Members.</li> <li>d. Access to self-help and 12 step groups.</li> </ol> </li> <li>7. At least 50% of the required 20 hours of clinical programming must be group counseling. The remaining hours may be comprised of group training, individual counseling, peer support, etc.</li> <li>8. Providers shall ensure that services are integrated with the activities/services and incorporated in the individual's service plan.</li> <li>9. Services and referrals shall be identified in the Individualized Service Plan.</li> <li>10. Random Individual Drug screens must be provided and documented.</li> </ol> |
| Reporting and Billing Requirements | <ol style="list-style-type: none"> <li>1. Each month, the provider must submit a Monthly Residential Service Report developed by DBHDD that identifies the actual utilization of intensive residential services including amount spent, number of units occupied, and number of individuals served.</li> <li>2. All applicable ASO and DBHDD reporting requirements must be met.</li> <li>3. Span billing may occur for this service, meaning the start and end date are not the same on a given service claim line; however, spans cannot cross months (e.g. start date and end date must be within the same month).</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Documentation Requirements         | <ol style="list-style-type: none"> <li>1. The organization must develop and maintain sufficient written documentation to support the Intensive AD Residential Service for which billing is made. This documentation, at a minimum, must confirm that the individual for whom billing is requested was a resident of the Intensive Residential Service on the date of service. The individual's record must also include each week's programming/service schedule in order to document the provision of the required amount of skills training and support activities.</li> <li>2. Weekly progress notes must be entered in the individual's record to enable the monitoring of the individual's progress toward IRP and recovery goals.</li> <li>3. The record should include health issues and how they are being addressed; appointments for psychiatric and medical care that are scheduled for the individual; attendance at other treatments such as addictive diseases counseling that staff may be assisting individual to attend; assistance provided to the individual to help him or her reach recovery goals; and the individual's participation in other recovery activities.</li> <li>4. Each note must be signed and dated and must include the professional designation of the individual making the entry.</li> <li>5. Documentation must be legible and concise and include the printed name and the signature of the service provider. The name, title, and credentials of the individual providing the service must reflect the staffing requirements established for the Intensive AD Residential Service being delivered.</li> <li>6. Providers are required to have a qualifying verified diagnosis present in the individual's case record prior to the initiation of services.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

## Residential: Semi-Independent AD Residential Services

| Service Description      | AD Semi-Independent Residential Services provides or coordinates on-site or off-site treatment services in conjunction with on-site recovery support programming that aligns with a supportive and structured living environment for individuals with a Substance Use Disorder. The residential setting is less restrictive with reduced supervision as individuals begin to strengthen living skills and focus on creating financial, environmental, and social stability to increase the probability of long-term recovery. Residential Care maintains a basic rehabilitation focus on early recovery skills; including the negative impact of substances, tools for developing support, and relapse prevention skills.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Admission Criteria       | Adults aged 18 or older must meet the following criteria:<br><ol style="list-style-type: none"><li>1. The individual meets the diagnostic criteria for a Substance Use Disorder as defined in the most recent DSM.</li><li>2. The individual has sufficient cognitive ability at this time to benefit from admission to a residential treatment program.</li><li>3. The individual exhibits a pattern of significant substance use/dependency as evidenced by significant impairment in social, family, scholastic or occupational functioning <b>and one or more of the following:</b><ol style="list-style-type: none"><li>a. The individual has demonstrated a limited ability to participate in or be successful with less intensive levels of care as indicated by a history or prior treatment episodes, a demonstrated inability to complete outpatient treatment.</li><li>b. Individual has limited recognition of the skills needed to prevent continued use, with imminently dangerous consequences.</li><li>c. The individual is residing in a dangerous environment which would undermine effective rehabilitation treatment at a less-intensive level of care.</li><li>d. There is clinical evidence that the individual is not likely to respond to a lower level of care.</li></ol></li></ol> |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Continuing Stay Criteria | <ol style="list-style-type: none"><li>1. The individual continues to meet admission criteria.</li><li>2. The individual is making progress but has not yet achieved the goals in the treatment/service plan or new problems have been identified that are appropriately treated with this level of care.</li><li>3. A timeline for expected implementation and completion is in place but discharge criteria have not been met.</li></ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Discharge Criteria       | <ol style="list-style-type: none"><li>1. The individual has accomplished the goals and objectives of the treatment/service plan; or</li><li>2. The individual refuses further care; or</li><li>3. The individual can effectively and safely be transitioned to a lower level of care; or</li><li>4. The individual will be referred to other appropriate treatment which cannot be provided with this level of care; or</li><li>5. The individual has received maximum benefit from this level of care; or</li><li>6. The individual's behavior is disruptive to the treatment of others and/or fails to comply with the program rules and therapeutic interventions that have not been successful in resolving the issues.</li></ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Clinical Exclusions      | <ol style="list-style-type: none"><li>1. Individuals with the following conditions are excluded from admission unless there is documented evidence of psychiatric condition: Developmental Disability, Autism, Neurocognitive Disorder, or Traumatic Brain Injury.</li><li>2. Exhibits behavior dangerous to staff, self, or others; or</li><li>3. The individual is experiencing symptoms which appear to require withdrawal management services.</li><li>4. The individual meets admission criteria for a lower level of care and can be effectively treated with that level of care.</li></ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |       |       |       |       |       |      |                |                   |       |       |       |       |      |
| Required Components      | <ol style="list-style-type: none"><li>1. Facility must be licensed by the Georgia DCH/HFR under the Rules and Regulations for Drug Abuse Treatment Program 111-8-19.</li><li>2. Individuals receiving services must have a documented verified substance use diagnosis.</li><li>3. The residential program must provide a structured and supported living environment 24 hours a day, 7 days a week with awake staff on-site at all times. Residential</li></ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |       |       |       |       |       |      |                |                   |       |       |       |       |      |

## Residential: Semi-Independent AD Residential Services

|                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| Staffing Requirements              | <ol style="list-style-type: none"> <li>1. Providers shall have a fulltime minimal Level 4 practitioner with at least 3 years' experience in addiction support responsible for the day to day operations.</li> <li>2. Clinical staff knowledgeable about substance use and mental health disorders with individuals with co-occurring diagnoses.</li> <li>3. Providers shall have a staff person available 24/7 to respond to emergency calls within one (1) hour</li> <li>4. Providers shall have an experienced staff person and supervised staff to ensure that services are available and responsive to the needs of each individual.</li> <li>5. There should be sufficient staff available to all individuals with a minimum ratio of 1:20.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Clinical Operations                | <ol style="list-style-type: none"> <li>1. The organization must have a written description of the Semi-Independent Residential Service offered that includes, at a minimum, the purpose of the service; the intended population to be served; service philosophy/model, level of supervision and oversight provided; and outcome expectations for its residents.</li> <li>2. Providers are required to provide a structured therapeutic environment designed to facilitate the individual's progress toward recovery from substance use disorders.</li> <li>3. On-site Recovery Services: <ol style="list-style-type: none"> <li>a. AD Semi-Independent Residential Services must provide recovery support programming and direct skills training support each week. These activities include: <ol style="list-style-type: none"> <li>i. Vocational service;</li> <li>ii. Job skills training and employment readiness training;</li> <li>iii. Educational; and</li> <li>iv. Skills training to include budgeting, shopping, nutritional/meal planning.</li> <li>v. Personal Support activities such as daily face to face contact with the individual by Residential Service to ensure needs are being met; supportive counseling; crisis intervention as needed; tracking of appointments, assistance with transportation to appointments, shopping, employment, academics, recreational and support activities, and other needed supports as identified in the IRP.</li> <li>vi. Access to self-help and 12 step groups.</li> </ol> </li> <li>b. The service shall maintain a focus on the development and improvement of the skills necessary for recovery.</li> </ol> </li> <li>4. On-site or off-site Treatment Services: <ol style="list-style-type: none"> <li>a. AD Semi-Independent Residential Service must coordinate and ensure that individuals enrolled in this service receives a minimum of 12 hours per week of Treatment services as identified in the Individualized Resiliency Plan. Providers may offer the clinical services on site if licensed appropriately and staffing is consistent with required practitioner levels. Conversely, providers may offer the clinical service off site in the agency's outpatient clinic if licensed appropriately and staffing is consistent with required practitioner levels.</li> <li>b. Clinical services which include cognitive, behavioral and other therapies are facilitated through identified treatment interventions.</li> <li>c. Providers shall ensure that the individuals are provided the following: <ol style="list-style-type: none"> <li>i. Individual Counseling;</li> <li>ii. Group Counseling (including therapy, psychoeducation, relapse prevention and recovery);</li> <li>iii. Family Counseling/Training (including psychoeducation) for family members.</li> </ol> </li> <li>d. At least 50% of the required 12 hours of clinical programming must be group counseling. The remaining hours may be comprised of group counseling, individual counseling, peer support, etc.</li> <li>e. Providers shall ensure that services are integrated with the activities/services and incorporated in the individual's service plan.</li> <li>f. Services and referrals shall be identified in the Individualized Recovery Plan.</li> <li>g. Random drug screens as needed must be provided and documented.</li> </ol> </li> </ol> |
| Reporting and Billing Requirements | <ol style="list-style-type: none"> <li>1. Each month, the provider must submit a Monthly Residential Service Report developed by DBHDD that identifies the actual utilization of semi-independent residential services including amount spent, number of units occupied, and number of individuals served.</li> <li>2. Span billing may occur for this service, meaning the start and end date are not the same on a given service claim line; however, spans cannot cross months (e.g. start date and end date must be within the same month).</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## Residential: Semi-Independent AD Residential Services

|                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|                            | 3. All applicable ASO and DBHDD reporting requirements must be met.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Documentation Requirements | <ol style="list-style-type: none"> <li>1. The organization must develop and maintain sufficient written documentation to support the AD Semi-Independent Residential Service for which billing is made. This documentation, at a minimum, must confirm that the individual for whom billing is requested was a resident of the AD Semi-Independent Residential Service on the date of service. The individual's record must also include each week's programming/service schedule in order to document the provision of service.</li> <li>2. Weekly progress notes must be entered in the individual's record to enable the monitoring of the individual's progress toward IRP and recovery goals.</li> <li>3. The record should include health issues and how they are being addressed; appointments for psychiatric and medical care that are scheduled for the individual; attendance at other treatments such as mental health counseling that staff may be assisting individual to attend; assistance provided to the individual to help him or her reach recovery goals; and the Individual's participation in other recovery activities.</li> <li>4. Each note must be signed and dated and must include the professional designation of the individual making the entry.</li> <li>5. Documentation must be legible and concise and include the printed name and the signature of the service provider. The name, title, and credentials of the individual providing the service must reflect the staffing requirements established for the AD Semi-Independent Residential Service being delivered.</li> <li>6. Providers are required to have qualifying verified diagnosis present in the individual's record prior to the initiation of services.</li> <li>7. Progress notes must be entered in the individual's record to enable the monitoring of progress toward recovery goals and to reflect the Individualized Recovery Plan implementation.</li> </ol> |

## Residential Substance Detoxification

| Service Description                                                                                     | Residential Substance Detoxification is an organized and voluntary service that may be delivered by appropriately trained staff who provide 24-hour per day, 7 days per week supervision, observation and support for individuals during withdrawal management. Residential Withdrawal Management is characterized by its emphasis on medical monitoring and/or on peer/social support and should reflect a range of residential detoxification service intensities from ASAM (American Society of Addiction Medication) Level III.2D to III.7D. These levels provide care for individuals whose intoxication/withdrawal signs and symptoms may only require 24-hour supervision, observation and support by appropriately trained staff with an emphasis on peer/social support that cannot be provided by the individual's natural support system, or that are sufficiently severe enough to require 24-hour medically monitored withdrawal management and support from medical and nursing professionals in a permanent facility with inpatient beds. All programs at these levels rely on established clinical protocols to identify individuals who are in need of medical services beyond the capacity of the facility and to transfer such individuals to more appropriate levels of service. |       |       |       |       |       |         |                |      |       |       |       |       |      |
| Admission Criteria                                                                                      | Adults/Older Adolescent:<br>1. Has a substance use disorder with a DSM diagnosis of either 303.00, 291.81, 291.0, 292.89, 292.0; <b>and</b><br>2. Per (ASAM PPC-2, Dimension-1) is experiencing signs of severe withdrawal, or there is evidence (based on history of substance intake, age, gender, previous withdrawal history, present symptoms, physical condition, and/or emotional/behavioral condition) that severe withdrawal syndrome is imminent; and is assessed as manageable at this level of service; <b>and</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |       |       |       |       |       |         |                |      |       |       |       |       |      |

|                                  | <p>3. There is strong likelihood that the individual will not complete withdrawal management at another level of service and enter into continued treatment or self-help recovery <b>as evidenced by one of the following:</b></p> <ul style="list-style-type: none"> <li>a. Individual requires medication and has recent history of withdrawal management at a less intensive service level, marked by past and current inability to complete withdrawal management and enter continuing addiction treatment; individual continues to lack skills or supports to complete withdrawal management; <b>or</b></li> <li>b. Individual has a recent history of withdrawal management at less intensive levels of service marked by inability to complete withdrawal management or enter into continuing addiction treatment and continues to have insufficient skills to complete withdrawal management; <b>or</b></li> <li>c. Individual has co-morbid physical or emotional/behavioral condition that is manageable in a Level III.7-D setting but which increases the clinical severity of the withdrawal and complicates withdrawal management.</li> </ul> |
| Continuing Stay Criteria         | Individual's withdrawal signs and symptoms are not sufficiently resolved so that the individual can be managed in a less intensive service.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Discharge Criteria               | <ul style="list-style-type: none"> <li>1. An adequate continuing care plan has been established; and one or more of the following:</li> <li>2. Goals of the Individualized Recovery Plan have been substantially met; or</li> <li>3. Individual requests discharge and individual is not in imminent danger of harm to self or others; or</li> <li>4. Individual's signs and symptoms of withdrawal have failed to respond to treatment and have intensified (as confirmed by higher scores on the CIWA-Ar or other comparable standardized scoring system), such that transfer to a Level 4-WM withdrawal management service is indicated.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Service Exclusions               | Nursing Assessment and Medication Administration (Medication administered as a part of Residential Detoxification is not to be billed as Medication Administration).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Clinical Exclusions              | Concomitant medical condition and/or other behavioral health issues warrant inpatient treatment or Crisis Stabilization Unit admission.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Required Components              | <ul style="list-style-type: none"> <li>1. This service must be licensed by DCH/HFR under the Rules and Regulations for Drug Abuse Treatment Programs, 290-4-2.</li> <li>2. A physician's order in the individual's record is required to initiate a withdrawal management regimen.</li> <li>3. Medication administration may be initiated only upon the order of a physician.</li> <li>4. Verbal orders or those initiated by a Physician's Assistant or CNS are acceptable provided they are signed by the physician within 24 hours or the next working day.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Staffing Requirements            | <ul style="list-style-type: none"> <li>1. Services must be provided by a combination of nursing, other licensed medical staff, and other residential support under supervision of a physician.</li> <li>2. In programs that are designed to target older adolescents, staffing patterns must reflect staff expertise in the delivery of services to that age population. In addition, higher staffing ratios would be expected in these programs related to supervision.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Additional Medicaid Requirements | <ul style="list-style-type: none"> <li>1. For Medicaid recipients, certain individual services may be billed to Medicaid if the individual is receiving this service as a part of a Crisis Stabilization Unit (see CSU service description for billable services).</li> <li>2. For those CSUs that bill Medicaid, the program bed capacity is limited to 16 beds.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Billing & Reporting Requirements | Span billing may occur for this service, meaning the start and end date are not the same on a given service claim line; however, spans cannot cross months (e.g. start date and end date must be within the same month).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| Service Description          | An outpatient approach to treatment services for adults eighteen (18) years or older who require structure and support to achieve and sustain recovery, focusing on early recovery skills; including the negative impact of substances, tools for developing support, and relapse prevention skills.<br><br>Through the use of a multi-disciplinary team, medical, therapeutic and recovery supports are provided in a coordinated approach to access and treat individuals with substance use disorders in scheduled sessions, utilizing the identified components of the service guideline. This service can be delivered during the day and evening hours to enable individuals to maintain residence in their community, continue work or go to school. The duration of treatment should vary with the severity of the individual's disorder and response to treatment based on the individualized treatment plan, utilizing the best/evidenced based practices for the service delivery and support.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |       |    |    |  |          |                                     |                                                  |    |    |  |          |
| Admission Criteria           | 1. A DSM diagnosis of substance use disorder, or a substance use disorder with a co-occurring mental health condition and/or I/DD; and<br>2. The individual is able to function in a community environment even with impairments in social, medical, family, or work functioning; and<br>3. The individual is sufficiently motivated to participate in treatment; and<br>4. One or more of the following:<br>a. The substance use is incapacitating, destabilizing or causing the individual anguish or distress and the individual demonstrates a pattern of alcohol and/or drug use that has resulted in a significant impairment of interpersonal, occupational and/or educational functioning; or<br>b. The individual's substance use history after previous treatment indicates that provision of outpatient services alone (without an organized program model) is not likely to result in the individual's ability to maintain sobriety; or<br>c. There is a reasonable expectation that the individual can improve demonstrably within 3-6 months; or<br>d. The individual is assessed as needing ASAM Level 2 or 3.1; or<br>e. The individual has no significant cognitive and/or intellectual impairments that will prevent participation in and benefit from the services offered and has sufficient cognitive capacity to participate in and benefit from the services offered; or<br>f. The individual is not actively suicidal or homicidal, and the individual's crisis, and/or inpatient needs (if any) have been met prior to participation in the program. |       |    |    |  |          |                                     |                                                  |    |    |  |          |
| Continuing Stay Criteria     | 1. The individual's condition continues to meet the admission criteria; or<br>2. Progress notes document progress in reducing use of substances; developing social networks and lifestyle changes; increasing educational, vocational, social and interpersonal skills; understanding addictive disease; and/or establishing a commitment to a recovery and maintenance program, but the overall goals of the recovery plan have not been met; or<br>3. There is a reasonable expectation that the individual can achieve the goals in the necessary reauthorization time frame.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |       |    |    |  |          |                                     |                                                  |    |    |  |          |

## Substance Abuse Intensive Outpatient Program

|                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| Discharge Criteria  | <ol style="list-style-type: none"> <li>1. An adequate continuing care or discharge plan is established, and linkages are in place; <b>and one or more of the following:</b> <ol style="list-style-type: none"> <li>a. Goals of the treatment plan have been substantially met; or</li> <li>b. Individual recognizes severity of his/her drug/alcohol usage and is beginning to apply skills necessary to maintain recovery by accessing appropriate community supports; or</li> <li>c. Clinical staff determines that individual no longer needs ASAM Level 2 and is now eligible for aftercare and/or transitional services; OR</li> </ol> </li> <li>2. Transfer to a higher level of service is warranted by the following: <ol style="list-style-type: none"> <li>a. Change in the individual's condition or nonparticipation; or</li> <li>b. Individual refuses to submit to random drug screens; or</li> <li>c. Individual exhibits symptoms of acute intoxication and/or withdrawal; or</li> <li>d. Individual requires services not available at this level; or</li> <li>e. Individual has consistently failed to achieve essential recovery objectives despite revisions to the individualized treatment plan and advice concerning the consequences; or</li> <li>f. Individual continues alcohol/drug use to such an extent that no further process is likely to occur.</li> </ol> </li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Service Exclusions  | <ol style="list-style-type: none"> <li>1. Services cannot be offered with Psychosocial Rehabilitation-Program.</li> <li>2. When offered with ACT, documentation must indicate efforts to minimize duplication of services and effectively transition the individual to the appropriate services. This combination of services is subject to review by the Administrative Service Organization (ASO).</li> <li>3. Service elements included within SAIOP include counseling, group outpatient services, family outpatient services, community support, and peer support programs. Therefore, it is expected that these services are not generally ordered/authorized/provided outside of SAIOP. Any exception must be clinically justified in the medical record and may be subject to scrutiny by the ASO. Exceptions in offering these services external to SAIOP include scenarios where there are sensitive and targeted clinical issues to be addressed that require a specialized intervention or privacy (e.g., sexual abuse, criminal justice system involvement, etc.). When an exception is clinically justified, services must not duplicate interventions provided by SAIOP.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Required Components | <ol style="list-style-type: none"> <li>1. This service must be licensed by DCH/HFR under the Rules and Regulations for Drug Abuse Treatment Programs, 290-4-2.</li> <li>2. The program provides structured treatment or therapeutic services, utilizing activity schedules as part of its operational method, i.e., plans or schedules of days or times of day for certain activities.</li> <li>3. These services should be scheduled and available at least 5 hours per day, 4 days per week (20 hrs. /week), with no more than 2 consecutive days without service availability for high need individuals (ASAM Level 2.5). For programs that have a lower intensity program Level, it should be at least ASAM Level 2.1 which includes 9 hours of programming per week.</li> <li>4. The program utilizes methods, materials, settings, and outside resources appropriate to the developmental and cognitive levels, capabilities, age, gender, and culture of participants.</li> <li>5. The program utilizes methods, materials, approaches, activities, settings, and outside resources appropriate for and targeted to individuals with co-occurring disorders of mental health conditions and substance use and targeted to individuals with co-occurring developmental disabilities and substance use when such individuals are referred to the program.</li> <li>6. Drug screening/toxicology examinations are required in accordance with HFR requirements but are not billable to DBHDD as components of this service benefit. <ol style="list-style-type: none"> <li>a. Random drug screening occurs and the provider uses the results of these tests for marking participant's progress toward goals and for service planning.</li> </ol> </li> <li>7. The program is provided over a period of several weeks or months and often follows withdrawal management or residential services.</li> <li>8. This service must operate at an established site approved to bill Medicaid for services. However, limited individual or group activities may take place off-site in natural community settings as is appropriate to each individual's treatment plan. (Narcotics Anonymous (NA) and/or Alcoholics Anonymous (AA) meetings offsite may be considered part of these limited individual or group activities for billing purposes only when time limited and only when the purpose of the activity is introduction of the participating individual to available NA and/or AA services, groups or sponsors. NA and AA meetings occurring during the SA Intensive Outpatient package may not be counted as billable hours for any individual outpatient services, nor may billing related to these meetings be counted beyond the basic introduction of an individual to the NA/AA experience.).</li> </ol> |

## Substance Abuse Intensive Outpatient Program

|                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|                       | <ol style="list-style-type: none"> <li>9. This service may operate in the same building as other services; however, there must be a distinct separation between services in staffing, program description, and physical space during the hours the SA Intensive Outpatient Services is in operation.</li> <li>10. Adequate space, equipment, furnishings, supplies, and other resources must be provided in order to effectively provide services and so that the program environment is clean and in good repair. Space, equipment, furnishings, supplies, transportation, and other resources for participating individuals' use within the Substance Abuse Intensive Outpatient program must not be substantially different from that provided for other uses for similar numbers of individuals.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Staffing Requirements | <ol style="list-style-type: none"> <li>1. The program must be under the clinical supervision of an LCSW, LPC, LMFT, MAC, CAADC, GCADC-II/-III, or CAC-II, who is onsite a minimum of 50% of the hours the service is in operation.</li> <li>2. Services must be provided by staff who are: <ol style="list-style-type: none"> <li>a. Level 3: MAC, CAADC, GCADC-II or -III, CAC-II, LCSW, LPC, LMFT</li> <li>b. Level 4: APC, LMSW, LAPC, LAMFT, GCADC-I (with Bachelor's Degree), CAC-I (with Bachelor's Degree), CPS-AD (with Bachelor's Degree), Paraprofessionals (with Bachelor's Degree) and Certified Alcohol and Drug Counselor-Trainee (with Bachelor's Degree and with supervision).</li> <li>c. Level 5: Under the supervision of an LCSW, LPC, or LMFT (for SUD practitioners, an LCSW, LPC, LMFT, MAC, CAADC, GCADC-II/-III, or CAC-II): Paraprofessionals (without Bachelor's Degree), GCADC-I (without Bachelor's Degree), CAC-I (without Bachelor's Degree), CPS-AD (without Bachelor's Degree).</li> </ol> </li> <li>3. Programs must have documentation that there is one Level 4 or above staff (excluding Certified Alcohol and Drug Counselor-Trainees) that is "co-occurring capable." This person's knowledge must go beyond basic understanding and must demonstrate actual staff capabilities in using that knowledge for individuals with co-occurring disorders. Personnel documentation should demonstrate that this staff person has received a minimum of 4 hours of training in co-occurring treatment within the past 2 years.</li> <li>4. There must be at least a Level 4 or above practitioner on-site at all times the service is in operation, regardless of the number of individuals participating.</li> <li>5. The maximum face-to-face ratio cannot be more than 12 individuals to 1 direct program staff based on average daily attendance of individuals in the program.</li> <li>6. The maximum face-to-face ratio cannot be more than 20 individuals to 1 U3 level practitioner based on average daily attendance of individuals in the program.</li> <li>7. A physician and/or a Registered Nurse or a Licensed Practical Nurse with appropriate supervision must be available to the program either by a physician and/or nurse employed by the agency, through a contract with a licensed practitioner, or by written referral or affiliation agreement with another agency or agencies that offer such services. <ol style="list-style-type: none"> <li>a. An appropriate member of the medical staff pursuant to the Medical Practice Act of 2009, Subsection 43-34-23 Delegation of Authority to Nurse and Physician Assistant is responsible for addiction and psychiatric consultation, assessment, and care (including but not limited to ordering medications and/or laboratory testing) as needed.</li> <li>b. The nurse is responsible for nursing assessments, health screening, medication administration, health education, and other nursing duties as needed.</li> </ol> </li> <li>8. LPNs who provide non-nursing SAIOP supports must do so as a Paraprofessional (including completion of the STR for Paraprofessionals) in accordance with item 2c above.</li> <li>9. Level 3 or 4 staff may be shared with other programs as long as they are available as required for supervision and clinical operations and as long as their time is appropriately allocated to staffing ratios for each program.</li> </ol> |
| Clinical Operations   | <ol style="list-style-type: none"> <li>1. It is expected that the transition planning for less intensive service will begin at the onset of these services. Documentation must demonstrate this planning.</li> <li>2. An individual may have variable length of stay. The level of care should be determined as a result of the individuals' multiple assessments. It is recommended that individuals attend at a frequency appropriate to their level of need. Ongoing clinical assessment should be conducted to determine step down in level of care. <ol style="list-style-type: none"> <li>a. Each individual should participate in setting individualized goals for themselves and in assessing their own skills and resources related to sobriety, use, and maintaining recovery. Goals are set by exploring strengths and needs in the individual's living, learning, social, and working environments. Provision of service may take place individually or in groups.</li> <li>b. Each individual must be provided assistance in the development/acquisition of needed skills and resources necessary to achieve sobriety and/or reduction in use and maintenance of recovery.</li> </ol> </li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## Substance Abuse Intensive Outpatient Program

|                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|                       | <ol style="list-style-type: none"> <li>3. The Substance Abuse Intensive Outpatient Program must offer a range of skill-building and recovery activities within the program.</li> <li>4. The Substance Abuse Intensive Outpatient Program activities will include, but are not limited to, the following: <ol style="list-style-type: none"> <li>a. Psycho-educational activities focusing on the disease of addiction prevention, the health consequences of addiction, and recovery</li> <li>b. Therapeutic group treatment and counseling</li> <li>c. Leisure and social skill-building activities without the use of substances</li> <li>d. Linkage to natural supports and self-help opportunities</li> <li>e. Individual counseling</li> <li>f. Individualized treatment, service, and recovery planning</li> <li>g. Linkage to health care</li> <li>h. Family education and engagement</li> <li>i. AD Support Services</li> <li>j. Vocational readiness and support</li> <li>k. Service coordination unless provided through another service provider</li> </ol> </li> <li>5. Assessment, reassessment, and medical services (included in the programmatic model, but billed as discrete services) will include: <ol style="list-style-type: none"> <li>a. Behavioral Health Assessment</li> <li>b. Psychiatric Treatment</li> <li>c. Nursing Assessment</li> <li>d. Diagnostic Assessment</li> <li>e. Medication Administration</li> </ol> </li> <li>6. The program must have a Substance Abuse Intensive Outpatient Services Organizational Plan addressing the following: <ol style="list-style-type: none"> <li>a. The philosophical model of the program and the expected outcomes for program participants (i.e., harm reduction, abstinence, beginning of or maintaining individually defined recovery, employment readiness, relapse prevention, stabilization and treatment of those with co-occurring disorders).</li> <li>b. The schedule of activities and hours of operations.</li> <li>c. Staffing patterns for the program including access medical and evaluation staff as needed including access medical and evaluation staff as needed.</li> <li>d. How the activities listed above in Items 4 and 5 will be offered and/or made available to those individuals who need them, including how that need will be determined.</li> <li>e. How assessments will be conducted.</li> <li>f. How staff will be trained in the administration of addiction services and technologies.</li> <li>g. How staff will be trained in the recognition and treatment of co-occurring mental health conditions &amp; substance use disorders pursuant to the Georgia Best Practices</li> <li>h. How services for individuals with co-occurring disorders will be flexible and will include services and activities addressing both mental health and substance use issues of varying intensities and dosages based on the symptoms, presenting problems, functioning, and capabilities of such individuals.</li> <li>i. How individuals with co-occurring disorders who cannot be served in the regular program activities will be provided and/or referred for time-limited special integrated services that are co-occurring enhanced as reflected in <a href="#">Guiding Principles Regarding Co-Occurring Mental Health and Addictive Diseases Disorders, 04-109</a>.</li> <li>j. How services will be coordinated with the substance use array of services including assuring or arranging for appropriate referrals and transitions.</li> <li>k. How the requirements in these service guidelines will be met.</li> </ol> </li> </ol> |
| Service Accessibility | <ol style="list-style-type: none"> <li>1. Service access to the program is offered at least 5 hours per day at least 4 days per week with no more than 2 consecutive days between offered services, and distinguishes between those individuals needing between 9 and 20 hours per week of structured services per week (ASAM Level 2.1) and those needing 20 hours or more of structured services per week (ASAM Level 2.5 or 3.1) in order to begin recovery and learn skills for recovery maintenance.</li> <li>2. Program hours are to be published and distributed to all individuals served (and updated/redistributed as needed).</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

## Substance Abuse Intensive Outpatient Program

3. To promote access, providers may use telemedicine as a tool to provide direct interventions to individuals enrolled in this service. See [Part II, Community Service Requirements for All Providers, Section I: Policies and Procedures, 1. Guiding Principles, B. Access to Individualized Services, item 16](#) of this Provider Manual for definitions and requirements specific to the provision of telemedicine.

1. The maximum number of units that can be billed a day for SAIOP is 5 units.
2. There are some outpatient services which are required components of SAIOP but because of their frequency of use, are not practical as part of the bundled services. The following are those additional services that are to be billed unbundled as part of the SAIOP program:

| Service                                                                                                                             | Maximum Authorization Units | Daily Maximum Billable Units |
|-------------------------------------------------------------------------------------------------------------------------------------|-----------------------------|------------------------------|
| Behavioral Health Assessment & Service Plan Development                                                                             | 32                          | 24                           |
| Diagnostic Assessment                                                                                                               | 4                           | 2                            |
| Psychiatric Treatment                                                                                                               | 12                          | 1                            |
| Nursing Assessment and Care                                                                                                         | 48                          | 16                           |
| Medication Administration                                                                                                           | 8                           | 8                            |
| Interactive Complexity (as a modifier to Psychiatric Treatment, Diagnostic Assessment, Individual Counseling, and Group Counseling) | 48                          | 4                            |
| Community Transition Planning                                                                                                       | 50                          | 12                           |

### Billing & Reporting Requirements

3. The following services are included in the SAIOP and should not be requested as part of the SAIOP authorization, nor should they be ordered separately outside of the SAIOP authorization except under special circumstances (see Service Exclusions section):
  - a. Family Outpatient Services (Counseling & Training)
  - b. Group Outpatient Services (Counseling & Training)
  - c. Individual Counseling
  - d. Addictive Disease Support Services
  - e. AD Peer Support Program
4. Rounding is applied to the person's cumulative hours/day at the Substance Abuse Intensive Outpatient Program (excluding non-programmatic time). The provider shall follow the guidance in the rounding policy included in this Provider Manual, and, specific to this service, the person served must have participated in at least 50% of the hour in order to bill for one unit of this service. For instance, if an individual participates in the program from 9:00 am -1:15 pm excluding a 30-minute break for lunch, his/her participating hours are 3.75 hours. The rounding policy is applied to the .75 hour and the units billed for that day are 4 units. Practitioner type must still be addressed and so those 4 units must be adequately assigned to either a U3, U4 or U5 practitioner type as reflected in the log for that day's activities.
5. Approved providers of this service may submit claims/encounters for the unbundled services listed in the package, up to the daily maximum amount for each service. Program expectations are that this model follow the content of this Service Guideline as well as the clearly defined service group elements.
6. Services authorized via the SAIOP Type of Care are only billable during the designated programmatic hours. If an individual needs additional service time outside the designated programmatic hours or needs services other than the designated programmatic services, AND the provider is enrolled to provide those services, the services are to be separately ordered and authorized (for example, services through the Non-Intensive Outpatient Type of Care).

### Documentation Requirements

1. Every admission and assessment must be documented.
2. Daily notes must include time in/time out in order to justify units being utilized.
3. Progress notes must include written daily documentation of groups, important occurrences; level of functioning; acquisition of skills necessary for recovery; progress on goals identified in the IRP including acknowledgement of addiction, progress toward recovery, use, reduction and/or abstinence; use of drug screening results by staff; and evaluation of service effectiveness.

## Substance Abuse Intensive Outpatient Program

4. Provider shall only document and bill units in which the individual was actively engaged in services. Meals and breaks must not be included in the reporting of units of service delivered. Should an individual leave the program or receive other services during the range of documented time in/time out for SAIOP hours, the absence should be documented.
5. Daily attendance of each individual participating in the program must be documented showing the number of hours in attendance for billing purposes.
6. Program hours are to be published and updated as needed in the program's administrative record so as to be available to any external reviewers to validate billing and claims.
7. This service may be offered in conjunction with ACT or CSU for a limited time to transition individuals from one service to the more appropriate one.
8. When this service is used in conjunction with ACT or Crisis Residential services, documentation must demonstrate careful planning to maximize the effectiveness of this service as well as an appropriate reduction in service amounts of the service to be discontinued. Utilization of Substance use Day services in conjunction with these services is subject to review by the Administrative Service Organization (ASO).

## Supported Employment

| Unit Value               | 1 month – Weekly documentation via daily attendance or weekly time sheet.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |       |       |       |       |       |          | Fund Source(s) | DBHDD state funds |       |       |       |       |      |
| Service Description      | Supported Employment (SE) services are available to eligible individuals, who express a desire and have a goal for competitive employment in their Individual Recovery Plan (IRP); and who, due to the impact and severity of their mental health condition have recently lost employment, or been underemployed or unemployed on a frequent or long-term basis. Services include supports to access benefits counseling; identify vocational skills and interests; and develop and implement a job search plan to obtain competitive employment in an integrated community setting that is based on the individual's strengths, preferences, abilities, and needs. In accordance with current best practice, this service emphasizes that a rapid job search be prioritized above traditional prevocational training, work adjustment, or transitional employment services. After suitable employment is attained, services include job coaching to teach job-specific skills/tasks required for job performance and ongoing rehabilitative supports to teach the individual illness self-management, communication and interpersonal skills necessary to successfully retain a particular job. If the individual is terminated or desires a different job, services are provided to assist the individual in redefining vocational and long-term career goals and in finding, learning and maintaining new employment aligned with these goals. Employment goals and services are integrated into the Individual Recovery Plan (IRP) and are available until the individual no longer desires or needs Supported Employment Specialty Services to successfully maintain employment. |       |       |       |       |       |          |                |                   |       |       |       |       |      |
| Admission Criteria       | 1. Individuals who meet the target population criteria:<br>a. Indicate an interest in competitive employment;<br>b. Are unemployed or underemployed due to symptoms associated with chronic and severe mental illness;<br>c. Have a documented service goal to attain and/or maintain competitive employment; and<br>d. Are able to actively participate in and benefit from these services.<br>2. Priority is given to individuals who meet the ADA Settlement criteria.<br>3. Individuals receiving this service must have a qualifying diagnosis present in the medical record prior to the initiation of services. The diagnosis must be provided by persons identified in O.C.G.A. Practice Acts as qualified to provide a diagnosis.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |       |       |       |       |       |          |                |                   |       |       |       |       |      |
| Continuing Stay Criteria | Individual demonstrates documented progress relative to goals identified in the Individualized Recovery Plan for employment, but employment goals have not yet been achieved and significant support for job search and/or employment is still required.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |       |       |       |       |       |          |                |                   |       |       |       |       |      |
| Discharge Criteria       | 1. Goals of the Individualized Recovery Plan related to employment have been substantially met; or<br>2. Individual requests a discharge from this service; or<br>3. Individual does not currently desire competitive employment; or                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |       |       |       |       |       |          |                |                   |       |       |       |       |      |

## Supported Employment

|                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|                       | <ol style="list-style-type: none"> <li>If after multiple outreach attempts and attempts to explore and resolve barriers to individual's engagement by Employment Specialist and individual's Behavioral Health Provider consistently made over the course of 90 days, the individual does not engage in services for 90 days; unless the individual is hospitalized or in jail, in which case the provider would be expected to continue contact with the individual, his/her service providers (including Vocational Rehabilitation Counselor), his/her employer and to participate in discharge planning; or</li> <li>If after 180 days of steady employment, it has been demonstrated that the individual no longer needs Intensive Supported Employment Specialty Services to maintain employment, and the individual has participated with the Employment Specialist, natural supports and other service providers to create a planned transition from supported employment to extended job supports provided by the individual's natural supports, behavioral health providers (e.g. Psychiatric Rehabilitation-Individual; Peer Support-Individual, etc.) and/or TORS provider. If the individual has or had an open case with the Georgia Vocational Rehabilitation Agency (GVRA) Vocational Rehabilitation (VR) program and received supported employment services paid for in whole or in part by GVRA/VR the extended supports must be provided by the individual's behavioral health provider, which may include, or be the TORS provider.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Clinical Exclusions   | Individuals with the following conditions are excluded from admission unless there is clearly documented evidence of a psychiatric condition co-occurring with one of the following diagnoses: Developmental Disability, Autism, Neurocognitive Disorder.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Staffing Requirements | <ol style="list-style-type: none"> <li>Employment Specialists that do not hold licensure or certification as specified in the Provider Manual must comply with training requirements for paraprofessionals as outlined in the Provider Manual.</li> <li>All Employment Specialists and SE Supervisors must complete at least 16 hours of documented training consistent with the IPS-25 model.</li> <li>Each SE Provider shall employ a minimum of 1 FTE Employment Specialist.</li> <li>All AMH Employment Specialists shall maintain a SE caseload ratio of no greater than 1 FTE Employment Specialist to 20 SE individuals. In accordance with the IPS EBP model, it is required that each AMH Employment Specialist's caseload be 100% comprised only of enrolled persons who meet the adult mental health eligibility criteria for this service. Employment Specialists who deliver TORS to individuals who have been discharged from SE services, should not count these individuals in the SE caseload and must subtract the average number of hours spent delivering TORS from the amount of time dedicated to SE services. For example, if an Employment Specialist works 40 hours a week (1 FTE), provides TORS and Supported Employment services 100% of the time and documents an average of 4 TORS billable hours each week, then 36 hours (90% of 40) would be dedicated to SE services on average each week. The 1:30 SE caseload ratio would be 90% FTE to 18 SE individuals.</li> <li>All Employment Specialists must receive regular supervision from a designated SE Supervisor in accordance with the IPS-25 model.</li> <li>Each SE Provider shall employ 1 FTE SE Supervisor to be dedicated to a maximum of 10 FTE Employment Specialists. Supervisors responsible for fewer than 10 FTE Employment Specialists may spend a percentage of time on other duties on a prorated basis. For example, a Supervisor responsible for 1 FTE Employment Specialist may spend 90% of time on other duties.</li> <li>All SE Supervisors must have a minimum of a bachelor's degree in the social sciences/helping professions and 1-year experience of delivering SE services or certification by a nationally or state recognized evidence-based SE training program. If all the provider's Employment Specialists hold a bachelor's degree or higher in the social sciences/helping professions; or have at least three years' experience in counseling, linking with community resources, special education or instruction, the Bachelor's degree requirement for the SE Supervisor is waived.</li> </ol> |
| Required Components   | <ol style="list-style-type: none"> <li>All delivery of community-based Adult Mental Health Supported Employment services shall be in accordance with the Individual Placement and Supports (IPS) model of Supported Employment.</li> <li>Qualified DBHDD providers of adult mental health Individual Placement and Support (IPS) Supported Employment (SE) are required to be TORS providers.</li> <li>The programmatic goals of this service must be clearly articulated by the provider, utilizing evidence-based practices for supported employment services as described in the IPS-25 Fidelity Scale (<a href="https://ipsworks.org/">https://ipsworks.org/</a>).</li> <li>Employment must be in an integrated community setting in which the majority of employees do not have disabilities, and there is no requirement for the applicant to have a disability. The job must pay minimum wage or equivalent to typical earnings/benefits for the job title and be in compliance with all applicable Department of Labor requirements, including compensation, hours, and benefits.</li> <li>If ACT, CST, Non-Intensive Outpatient, PSR-I, Peer Supports other behavioral health and/or vocational rehabilitation services are provided simultaneously, individual record must show evidence of integrated service coordination and effort to avoid duplication of services.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

A vocational profile, individualized plan of employment and individualized job support plan must be completed according to the individual's strengths and preferences; integrated in the individual's behavioral health service chart; and show evidence of periodic updates. If an individual has an open case with GVRA/VR, all GVRA/VR documentation must be included in the individual's behavioral service record.</li> <li>7. The initial vocational profile must be completed and the individual or employment specialist on behalf of the individual, must make face-to face contact with a potential employer, specific to the individual's plan of employment, on average, within the first 30 days of individual's enrollment in SE services and be documented in the progress notes.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Clinical Operations | <ol style="list-style-type: none"> <li>1. Individuals receiving this service must have competitive employment as a goal in their IRP. Ninety percent (90%) of Individual medical records must demonstrate integration of behavioral health and employment goals and services. Charts of individuals who have open cases in Vocational Rehabilitation services must document fulfillment of Vocational Rehabilitation meeting, reporting and communication requirements.</li> <li>2. Supported Employment Specialists must deliver each of the following six service components: <ol style="list-style-type: none"> <li>a. Pre-Placement <ol style="list-style-type: none"> <li>i. Engage individual, and with permission, his/her behavioral health providers and natural supports in an exploratory discussion about the individual's interest in competitive employment and long-term vocational goals. Provide or coordinate access to information about vocational services offered by GVRA/VR; and according to the individual's desires and GVRA/VR guidelines, assist and support the individual in completion and coordination of the GVRA/VR application process and regular follow-up communication with GVRA/VR staff to determine status of application.</li> <li>ii. Determine if the individual receives SSI, SSDI or other benefits which might be affected by an increase in income and provide or coordinate access to informational resources about work incentives and benefits counseling. Ensure that the individual and with permission, his/her behavioral health providers and natural supports receive and understand individualized and written information about how new or increased wages will impact the individual's eligibility for and receipt of disability benefits, housing and/or other income-determined services and benefits, as well as how to complete any related and required financial reports.</li> <li>iii. Over several sessions, gather information from individual, and with permission, his/her behavioral health providers, Vocational Rehabilitation Counselor, natural supports, former employers, and/or existing records/reports to develop a vocational profile that provides insight to the individual's preferences, experiences, abilities, strengths, supports, resources, limitations and needs. Engage the individual, and if desired, his/her professional and/or natural supports in a discussion about his/her vocational profile to explore, identify and document desirable and suitable job types and work environments. Ensure the Vocational Profile is integrated into the individual's behavioral health service chart.</li> <li>iv. Educate individual about the pros and cons of disclosing aspects of his/her disability and discuss at frequent intervals to support and empower the individual to make informed decisions about what, if any details s/he wants communicated to the employer at any point in time.</li> </ol> </li> <li>b. Service Integration: Provide direct or indirect efforts on behalf of the individual to integrate, coordinate and reduce duplication of the individual's SE service with TORS and other behavioral health and if applicable, Vocational Rehabilitation or other pertinent services, through regular, documented meetings and contact with members of the individual's multidisciplinary treatment team.</li> <li>c. Job Development: Cultivate relationships with potential employers in order to explore and develop competitive employment opportunities based on individual's vocational profiles and employment plans for individuals. Competitive employment refers to a job to which anyone can apply, in an integrated community setting in which the majority of employees are not disabled, and which pays minimum wage or more. Relationships are to be based on an understanding of the potential employer's business needs; the services the Employment Specialist is able to provide to the company; and the employment plans of individuals served. Employer contacts should be documented weekly and reviewed regularly by the SE Supervisor according to IPS-25 model.</li> <li>D. Job Placement <ol style="list-style-type: none"> <li>i. Develop with the individual, and with permission, his/her behavioral health provider, VR Counselor and/or natural supports an individual plan of employment which includes the type of job and environment being sought, the type of supports the individual wants and clear statements about who will do what by when.</li> </ol> </li> </ol> </li> </ol> |

## Supported Employment

|                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|                                    | <ul style="list-style-type: none"> <li>ii. Teach, assist, and support the individual to emphasize strengths and minimize consequences (i.e., criminal history, periods of unemployment, etc.) and functional challenges of mental health conditions in development of resumes, completion of applications and practice for interviews (which may include symptom management and coping skills).</li> <li>iii. Assist the individual in negotiating a mutually acceptable job offer in a competitive, community-integrated job that meets the individual's vocational goals and includes reasonable accommodations and/or adaptations to ensure the individual's success in the work environment.</li> <li>iv. Assist the individual, and his/her behavioral health providers, VR Counselor and/or natural supports to identify skills, resources and supports the individual will need to start a new job; and create and implement a plan to attain these things to ensure a successful transition to employment and first days on the job. The plan may include assistance in symptom management, acquiring appropriate work clothes and transportation to work; as well as planning for meals, medication and other activities and supports needed to maintain wellness and stability at the work site. The individual's chart should contain this plan.</li> <li>v. In the event that the individual desires a different job, quits or is terminated for whatever reason, the vocational profile must be updated and the individual assisted in updating his/her employment plan and resume; finding and applying for another job; and updating his/her job support plan.</li> <li>e. Job Coaching: Provide intensive one-on-one services designed to teach the individual job-specific skills, tasks, responsibilities and behaviors on or off the job site, according to the individual's disclosure preferences. This may include systematic job analysis, environmental assessment, vocational counseling, training and interventions to help the supported employee learn to perform job tasks to the employer's specifications and be accepted as an employee at the worksite. Provide training, consultation and support to the employer at the individual's request.</li> <li>f. Follow-Along Supports <ul style="list-style-type: none"> <li>i. Work in partnership with the individual and his/her behavioral health providers, Vocational Rehabilitation Counselor and/or natural supports to update and implement an individualized job support plan that maximizes the use of natural supports and prepares the individual and his/her interdisciplinary treatment, rehabilitation and recovery teams for transition to extended job supports provided by behavioral health providers and/or natural supports. Provide and coordinate ongoing task-oriented rehabilitation and job-specific training and support for management of symptoms, crises and over-all job performance necessary for long term success, tenure and stability on the job. Per individual's preferences about disclosure, services may include proactive employment advocacy, supportive counseling, coaching, peer support and ancillary support services, at or away from the job site.</li> <li>ii. Employment Specialist must make a minimum of 2 face-to-face visits with supported employee at the worksite each month; or 2 face-to-face visits with employee off site and 1 employer contact monthly.</li> </ul> </li> </ul> |
| Service Accessibility              | <ol style="list-style-type: none"> <li>1. Employment Specialists are expected to spend at least 65% of scheduled work time delivering services to individuals and employers in the community and must be available during daytime, evening and weekend hours to accommodate the needs of individuals and employers.</li> <li>2. To promote access, providers may use telemedicine as a tool to provide direct interventions to individuals enrolled in this service. See <a href="#">Part II. Community Service Requirements for All Providers, Section I: Policies and Procedures, 1. Guiding Principles, B. Access to Individualized Services, item 16</a> of this Provider Manual for definitions and requirements specific to the provision of telemedicine.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Billing and Reporting Requirements | <ol style="list-style-type: none"> <li>1. A monthly, standardized programmatic report is required by the DBHDD to monitor performance and outcomes as well as approve the amount requested via the MIERS.</li> <li>2. SE teams are expected to submit all requisite information in order to establish eligibility for the initial authorization, and if an individual meets eligibility they receive a 180-day authorization for SE services. SE teams are required to submit information that the ASO references as a reauthorization every 90-days for collection of consumer outcome indicators. This data collection is captured from information submitted by SE teams during initial and subsequent authorization periods. There is no clinical review taking place during this 90-day data collection process, the 90-day data collection-reauthorization meets the need of data collection only. At these intervals, the use of the term "reauthorization" is merely a data collection process and not a clinical review for eligibility every 90 days. SE teams are expected to submit all requisite information in order to establish continued eligibility for the concurrent review, and this reauthorization time frame is 180 days.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Supported Employment

|                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| Service Description                   | Task Oriented Rehabilitation Services (TORS) provide the psychiatric rehabilitation interventions to address the barriers created by psychiatric disability that interfere with an individual's ability to develop or regain a meaningful and valued role, including the ability to successfully pursue and maintain satisfying competitive employment. TORS are delivered concurrently with and after discharge from evidence-based supported employment services (IPS-25; <a href="https://ipsworks.org/">https://ipsworks.org/</a> ) in the worksite or community, in accordance with an individual's preferences about disclosure of his/her disability to employers. TORS must be based upon the Individual Recovery Plan (IRP) which identifies a desire and need to acquire the skills, resources and supports the individual needs to self-recognize emotional triggers and to self-manage behaviors related to behavioral health issues that may interfere with employment.<br><br>TORS goals must complement and be closely coordinated with the goals, plans, and activities of supported employment, behavioral health and other services and integrated into the Individualized Recovery Plan (IRP). Interventions may include:<br>1. The use of role-modeling or mentoring of a person working while managing a mental health condition;<br>2. Motivational and educational experiences, exercises, methods and tools to help an individual:<br>a. Develop hope, confidence and motivation related to a meaningful and valued role including employment.<br>b. Identify, articulate and self-advocate for his/her goals, interests, skills, strengths, needs and preferences;<br>c. Identify and engage natural supporters to assist in achieving his/her vocational & recovery goals;<br>d. Identify and develop meaningful roles while living with a mental health condition;<br>e. Identify consequences of increased income, develop and use a plan to manage these consequences in manner that supports the individual's preferences and attainment of recovery, financial and vocational goals; and |       |       |       |       |       |          |                                     |                                                  |       |       |       |       |          |

## Task-Oriented Rehabilitation Services (TORS)

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|                             | <p>day oversight of the program as it operates and is demonstrated by monthly supervision sessions and documentation by the Supervisor. This individual must have at least 3 years of documented experience working with adults with SPMI or co-occurring behavioral health conditions.</p> <p>5. Practitioners delivering this service are expected to maintain knowledge/skills regarding current research trends in best/evidence-based practices in recovery and, at a minimum, must maintain at least 5 hours of continuing education in the area of mental health recovery/year.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Required Components         | <ol style="list-style-type: none"> <li>1. Qualified DBHDD providers of adult mental health Individual Placement and Support (IPS) Supported Employment (SE) are required to be TORS providers.</li> <li>2. TORS providers must provide documentation that the creation of the TORS goals/objectives/interventions involved input from and collaboration with the individual. With permission from the individual, provider will document involvement and collaboration with his/her chosen supporters, including the individual's supported employment, behavioral health and vocational rehabilitation service providers and is based upon knowledge gained from the assessments and service plans of these respective providers, as well as the TORS provider's own assessment process.</li> <li>3. As indicated in the IRP, TORS goals and objectives should be based upon and reflect knowledge gained from the comprehensive assessment, as well as collaboration with the individual's BH, supported employment, vocational rehabilitation and any other pertinent service providers. If an individual does not want other providers, vocational rehabilitation, etc. involved in the TORS goals/objectives/interventions in the IRP, the individual's wishes will be respected and input from others will not be included. Documentation of the individual's wishes and coordination (or no coordination) should be included in assessments and progress notes.</li> <li>4. The TORS component of the overall IRP must state what the individual, as well as the individual's BH, supported employment, vocational rehabilitation, and any other pertinent service providers will do to implement the plan and show evidence of periodic updates as objectives and goals are achieved.</li> <li>5. Development of TORS goals in the IRP must include documented assessment of: <ol style="list-style-type: none"> <li>a. Emotional triggers and behaviors related to behavioral health conditions that may interfere with employment and ongoing engagement in meaningful and satisfying competitive employment.</li> <li>b. The skills, resources, and support an individual need to overcome these identified barriers; and</li> <li>c. The individual's current interests, strengths, skills, resources, and supports that can be used to facilitate his/her achievement of employment goals.</li> </ol> </li> <li>6. All interventions must increase the individual's ability to manage the symptoms, conditions and consequences associated with his/her mental health condition that interfere with his/her ability to pursue and achieve his/her employment goals.</li> <li>7. Face to face contacts should be based on the needs of the individual but should not exceed the maximum of 8 units per day.</li> </ol> |
| Clinical/Service Operations | <ol style="list-style-type: none"> <li>1. The programmatic goals of this service must be clearly articulated by the provider, based on best practices for psychiatric rehabilitation as applied to the pursuit of and long-term engagement in meaningful and satisfying competitive employment.</li> <li>2. The organization must have a TORS Organization Plan that clearly articulates the programmatic goals of this service and addresses: <ol style="list-style-type: none"> <li>a. How the core principles and values of the Psychiatric Rehabilitation Association are utilized to support vocational goals (<a href="http://uspra.ipower.com/Board/Governing_Documents/USPRA_CORE_PRINCIPLES2009.pdf">http://uspra.ipower.com/Board/Governing_Documents/USPRA_CORE_PRINCIPLES2009.pdf</a>);</li> <li>b. The models and types of psychiatric interventions that will be utilized to support individuals in attainment of vocational goals;</li> <li>c. How programmatic oversight or guidance by a CPRP will be provided;</li> <li>d. Protocols to ensure coordination and avoid duplication of services that are provided by the supported employment specialist or other behavioral health and/or vocational rehabilitation providers; and</li> <li>e. When and how TORS will be provided in conjunction with evidence-based (IPS-25) supported employment services and delivered in a manner that supports and is congruent with fidelity to this model (<a href="https://ipsworks.org/">https://ipsworks.org/</a>).</li> </ol> </li> <li>3. Individuals should receive TORS from their current or most recent Supported Employment Provider.</li> <li>4. TORS must complement and be closely coordinated with the goals, plans and activities of supported employment services and integrated into the Individual Recovery Plan (IRP).</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Service Accessibility       | <ol style="list-style-type: none"> <li>1. Providers are expected to deliver TORS 100% of the time in the individual's work site or a community setting according to the individual's preferences about disclosure of mental health condition to employers, family, and friends and the individual's preferences for preferred location of service delivery.</li> <li>2. TORS must be available during daytime, evening and weekend hours to accommodate the needs of the individual served.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

## Task-Oriented Rehabilitation Services (TORS)

|                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| Service Description                        | <p>Temporary observation is a facility-based program that provides a physically secure and medically safe environment during which an individual in crisis is further assessed, stabilized and referred to the next appropriate level of care (generally within 24 hours). Interventions delivered during temporary observation may include any appropriate outpatient service including but not limited to:</p> <ol style="list-style-type: none"> <li>1. Psychiatric Treatment,</li> <li>2. Nursing Assessment,</li> <li>3. Medication Administration,</li> <li>4. Crisis Intervention,</li> <li>5. Psychosocial Rehabilitation-Individual,</li> <li>6. Case Management,</li> <li>7. Peer Support-Individual</li> </ol> <p>Individuals will receive frequent observation, monitoring of objective signs and symptoms of withdrawal, symptom management, discharge and follow-up planning and referral.</p> |                      |                                                                                                                     |       |       |       |      |

## Temporary Observation Services

|                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Admission Criteria    | <p>Adult with a psychiatric condition or substance use disorder that has demonstrated via clinical assessment a degree of instability or disability that needs to be monitored, evaluated, and further assessed to determine the most appropriate level of care. This may include either discharge to community-based services or referral for admission to a higher level of care as needed; <b>Individuals appropriate for temporary observation have demonstrated one or more of the following:</b></p> <ol style="list-style-type: none"> <li>1. Further evaluation is indicated in order to clarify previously incomplete information prior to disposition;</li> <li>2. Further stabilization is indicated prior to disposition;</li> <li>3. There is evidence of an imminent or current psychiatric emergency without clear indication for admission to inpatient or crisis stabilization treatment;</li> <li>4. There are indications that the symptoms are likely to respond to medication, structured environment, or brief withdrawal management resulting in stabilization so that an alternative treatment in a psychiatric inpatient facility or crisis stabilization unit may be initiated;</li> <li>5. Observation and continued care are necessary while awaiting transfer or referral to a higher level of care; and</li> <li>6. There is evidence of a substance withdrawal related crisis, or intoxication, presenting as risk of harm without clear indication for admission to psychiatric inpatient facility or crisis stabilization unit.</li> </ol> |
| Discharge Criteria    | <p>The individual is considered appropriate for discharge when it has been determined that one of the following is clinically appropriate and arrangements for transfer or aftercare have been completed:</p> <ol style="list-style-type: none"> <li>1. A higher level of care, such as a crisis stabilization unit or psychiatric inpatient facility; or</li> <li>2. A lower level of care, such as outpatient care; or, less commonly,</li> <li>3. Home with no recommendation for follow-up.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Service Exclusions    | <p>An individual shall not receive Temporary Observation services while receiving Crisis Stabilization Unit (CSU) services.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Clinical Exclusions   | <ol style="list-style-type: none"> <li>1. The individual can be safely maintained and effectively treated at a less intensive level of care.</li> <li>2. The primary problem is social, economic (i.e., housing, family conflict, etc.), or one of physical health without a concurrent major psychiatric episode meeting the criteria for this level of care.</li> <li>3. Presence of a condition of sufficient severity to require acute psychiatric inpatient, crisis stabilization unit, medical, or surgical care (unless being provided observation and care as described in Item (e) in Admission Criteria section above while awaiting transfer to crisis stabilization unit or inpatient psychiatric facility).</li> <li>4. Admission is being used as an alternative to incarceration and is NOT accompanied by a covered DSM diagnosis of a mental health condition or substance use disorder.</li> <li>5. Methadone Administration must occur in programs operating under 290-9-12, Narcotic Treatment Programs.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Required Components   | <ol style="list-style-type: none"> <li>1. Temporary Observation is operational 24 hours a day, 7 days a week, offering a brief stay (generally less than 24 hours) in a medically monitored, safe environment for individuals requiring additional assessment and care, using licensed professionals.</li> <li>2. Temporary Observation services are not a stand-alone service. Temporary Observation services must be associated with: <ol style="list-style-type: none"> <li>a. A crisis stabilization unit [CSU]; or</li> <li>b. A 24/7 Crisis Service Center.</li> </ol> </li> <li>3. Temporary Observation services may vary in numbers of observation chairs or beds. This will be specified in contracts;</li> <li>4. Temporary Observation services must include service delivery under a physician's order and supervision along with nursing services and medication administration.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Staffing Requirements | <p>Staff must include:</p> <ol style="list-style-type: none"> <li>1. Physician, APRN or PA to provide timely assessment, orders for presenting individuals, and temporary observation (coverage may be shared with a Crisis Service Center or Crisis Stabilization Unit, as long as contract requirements for coverage by specific level of professional are met);</li> <li>2. A Registered Nurse to provide observation and treatment for individuals admitted for Temporary Observation. Note that the RN may float to the Crisis Assessment area, as necessary, but remains the responsible license for the Temporary Observation service;</li> <li>3. A Licensed Practical Nurse or a second Registered Nurse to provide coverage by a licensed professional [and other duties as assigned] when the primary RN floats to the Crisis Service Center area. If the RN floats more than 50% of time during the shift, a second RN should be added for coverage of that shift;</li> <li>4. A properly trained direct care staff member to provide continuous observation and care needs for assigned individuals, minimum of 1 tech per shift; and</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                               |

## Temporary Observation Services

|                                                                                                                   | 5. When a physician (who is not a psychiatrist) is the primary individual used for medical oversight, access to a board-eligible psychiatrist for clinical consultation is required.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |         |                 |                                                         |    |                       |   |                                                                                                                   |   |                     |    |                       |   |                           |    |                           |   |                                          |   |                                    |    |

| Service Description | This is a time-limited, multi-faceted treatment model for adults who are enrolled in a Certified Accountability Court Program and require structure and support to achieve and sustain recovery from behavioral health conditions. These services enable individuals served to maintain residence in their community, continue to work and go to school, and be part of their family life. The service model is comprised of the following unique service elements:<br>1. Behavioral Health Assessment & Service Plan Development<br>2. Psychological Testing - (may contract out)<br>3. Diagnostic Assessment<br>4. Interactive Complexity (as a modifier to Psychiatric Treatment, Diagnostic Assessment, Individual Counseling, and Group Counseling)<br>5. Crisis Intervention<br>6. Psychiatric Treatment (E&M) |      |       |       |       |       |      |             |      |       |       |       |       |      |

## Treatment Court Services- Adult Addictive Diseases

| Admission Criteria       | <p>An individual is referred by an Accountability Court and meets the following:</p> <ol style="list-style-type: none"> <li>1. The individual is assessed as having a DSM diagnosis of a Substance Use Disorder (SUD) that has caused significant functional impairment. Individual may also present with a co-occurring mental health condition or developmental disability; <b>and</b></li> <li>2. The individual's level of risk and support need are assessed using a risk assessment tool supported by the Council of Accountability Court Judges (CACJ), and are found to be appropriately matched to the available level of Accountability Court supervision and program treatment services; <b>and</b></li> <li>3. The individual consents through a written agreement with the court to participate in the Accountability Court program and treatment services; <b>and</b></li> <li>4. The individual signs appropriate confidentiality waivers to allow communication of otherwise HIPAA-protected treatment information between the Accountability Court and treatment provider for the duration of participation in the Accountability Court; <b>and</b></li> <li>5. The individual is able to function in a community environment even with impairments in social, medical, family, or work functioning; <b>and</b></li> <li>6. The individual is sufficiently motivated to participate in treatment planning and recovery work.</li> </ol> |
| Continuing Stay Criteria | <ol style="list-style-type: none"> <li>1. The individual's condition continues to meet the admission criteria; <b>and</b></li> <li>2. Progress notes document progress towards goals identified in the IRP (e.g. developing social networks and lifestyle changes, increasing educational, vocational, social and interpersonal skills, meeting court program requirements, and establishing a commitment to a recovery program), but overall goals have not yet been met; <b>and</b></li> <li>3. There is a reasonable expectation that the individual can achieve their IRP goals in the necessary reauthorization timeframe; <b>and</b></li> <li>4. The individual is still enrolled with a court program.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Discharge Criteria       | <ol style="list-style-type: none"> <li>1. An adequate continuing care or discharge plan is established, linkages are in place, and one or more of the following: <ol style="list-style-type: none"> <li>a. Goals of the IRP have been substantially met; <b>or</b></li> <li>b. Clinical staff determines that the individual no longer needs this LOC; <b>or</b></li> <li>c. Individual has completed or been discharged from the court program.</li> </ol> </li> <li>2. Individuals discharged from the court program may continue with DBHDD community behavioral health services through a DBHDD-approved provider.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Service Exclusions       | When offered with services of a higher intensity, documentation must indicate efforts to minimize duplication of services and effectively transition the individuals to the appropriate services. This combination of services is subject to review by the ASO.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Clinical Exclusions      | Individuals who do not meet the eligibility requirements of each allowable service listed above for which participation is sought.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## Treatment Court Services- Adult Addictive Diseases

### Required Components

1. The program incorporates information from a validated risk and needs assessment (Identified by the Council of Accountability Court Judges [CACJ] and the DBHDD) into the individual's treatment planning process and resulting IRP. If the program administers the risk and needs assessment, versus taking receipt of it from a referring Accountability Court, it will be conducted by appropriately trained and credentialed staff. This may be provided through the Behavioral Health Assessment and/or Service Plan Development services.
2. Program utilizes methods, materials, settings, and outside resources appropriate to the developmental and cognitive levels, capabilities, age, gender, and culture of participants.
3. Program utilizes methods, materials, approaches, activities, settings, and outside resources appropriate for, and targeted to individuals with a substance use disorder, including those with a co-occurring mental health condition and/or developmental disability.
4. Program utilizes methods, materials, approaches, activities, and outside resources appropriate for reducing recidivism rates among individuals with moderate to high criminogenic risk and need levels.
5. Program maintains required staff certification and training standards for evidence-based curricula/practices and provides quality control/model fidelity measures and supervision practices.
6. The program must operate at a site approved to bill DBHDD/Medicaid for services. However, limited individual or group activities may take place off- site in natural community settings as is appropriate to each individual's recovery plan. Program must have in place appropriate accreditation and licenses for all established service sites.
7. The program's treatment level and service frequency are based on the individual's clinical need and risk/support need considerations. However, in all cases, the program must offer a minimum of nine (9) hours per week of programming at the initial phase of an individual's treatment.
8. The program provides individual treatment compliance and status reports prior to court staffing meetings. Any sanctionable offense should be reported to identified court staff as soon as possible, or at least within 24 hours of the incident (sanctionable offenses include but are not limited to missed appointments, inappropriate behavior toward staff or other participants, damage to property, non-compliance with provider policies).
9. The program works collaboratively with the court to implement evidence-based practices identified by the Georgia Council of Accountability Court Judges (CACJ) <https://www.gaaccountabilitycourts.org/> and the National Association of Drug Court Professionals (NADCP; Recommended: Best Practice Standards Vol. I and II <https://www.ndci.org/resources/publications/standards/>).
10. Provide comprehensive Individual Recovery Plans (IRP) for each enrolled individual, including utilizing applicable adult outpatient services, residential supports and housing, employment supports, trauma informed mental health and substance use disorder treatment, whole health planning and implementation, peer support services, and linkage to other related services required to assist individuals in maintaining the behavioral health recovery and avoiding additional criminal justice involvement. Evidence based practices will guide the IRP and treatment process.
11. The program will implement at least one evidence-based treatment practice/model(s), using a manualized curriculum, that has shown to be effective in working with the target population, such as:
  - a. Cognitive Behavioral Intervention – Substance Abuse
  - b. Cognitive Behavioral Treatment (CBT)
  - c. Matrix Model
  - d. Moral Reconation Therapy
  - e. Motivational Interviewing
  - f. Seeking Safety
  - g. Thinking for a Change
  - h. Trauma Recovery and Empowerment Model (TREM)

[NOTE: Not all the services listed in the Service Description section are aligned with these unique EBPs, and therefore, these EBPs may not be applicable to those particular services. The court and providers will discern any specific applicability via their joint MOU.]
12. Provider will develop written agreements, partnerships, and memoranda of understanding (MOU) with key justice, mental health and substance abuse treatment providers, recovery community advocates and support partners, consumer groups on an ongoing basis for cooperative wrap-around services and for developing sustainable activities.

| Service Description   | This is a time-limited, multi-faceted treatment model for adults who are enrolled in a Certified Accountability Court Program and require structure and support to achieve and sustain recovery from behavioral health conditions. These services enable individuals served to maintain residence in their community, continue to work and go to school, and be part of their family life. The service model is comprised of the following unique service elements:<br>1. Behavioral Health Assessment & Service Plan Development<br>2. Psychological Testing- (may contract out)<br>3. Diagnostic Assessment<br>4. Interactive Complexity (as a modifier to Psychiatric Treatment, Diagnostic Assessment, Individual Counseling, and Group Counseling)<br>5. Crisis Intervention<br>6. Psychiatric Treatment (E&M)<br>7. Nursing Services<br>8. Medication Administration<br>9. Case Management<br>10. Individual Outpatient Services<br>11. Group Outpatient Services<br>12. Family Outpatient Services<br>13. Community Transition Planning<br>14. Peer Support- Individual<br>15. Peer Support - Group<br>16. Peer Support Whole Health & Wellness<br>17. Psychosocial Rehabilitation - Individual |      |       |       |       |       |      |                     |                   |       |       |       |       |      |

## Treatment Court Services- Adult Mental Health

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| Admission Criteria       | <p>An individual is referred by an Accountability Court and meets the following:</p> <ol style="list-style-type: none"> <li>1. The individual is assessed as having a DSM psychiatric diagnosis that has caused significant functional impairment. Individual may also present with a co-occurring substance use disorder (SUD) or developmental disability; <b>and</b></li> <li>2. The individual's level of risk and support needs are assessed using a risk assessment tool supported by the Council of Accountability Court Judges (CACJ), and are found to be appropriately matched to the available level of Accountability Court supervision and program treatment services; <b>and</b></li> <li>3. The individual consents through a written agreement with the court to participate in the Accountability Court program and treatment services; <b>and</b></li> <li>4. The individual signs appropriate confidentiality waivers to allow communication of otherwise HIPAA-protected treatment information between the Accountability Court and treatment provider for the duration of participation in the Accountability Court; <b>and</b></li> <li>5. The individual is able to function in a community environment even with impairments in social, medical, family, or work functioning; <b>and</b></li> <li>6. The individual is sufficiently motivated to participate in treatment planning and recovery work.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                              |
| Continuing Stay Criteria | <ol style="list-style-type: none"> <li>1. The individual's condition continues to meet the admission criteria; <b>and</b></li> <li>2. Progress notes document progress towards goals identified in the IRP (e.g., developing social networks and lifestyle changes, increasing educational, vocational, social and interpersonal skills, meeting court program requirements, and establishing a commitment to a recovery program), but overall goals have not yet been met; <b>and</b></li> <li>3. There is a reasonable expectation that the individual can achieve their IRP goals in the necessary reauthorization timeframe; <b>and</b></li> <li>4. The individual is still enrolled with a court program.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Discharge Criteria       | <ol style="list-style-type: none"> <li>1. An adequate continuing care or discharge plan is established, linkages are in place, and one or more of the following: <ol style="list-style-type: none"> <li>a. Goals of the IRP have been substantially met; <b>or</b></li> <li>b. Clinical staff determines that the individual no longer needs this LOC; <b>or</b></li> <li>c. Individual has completed or been discharged from the court program.</li> </ol> </li> <li>2. Individuals discharged from the court program may continue with DBHDD community behavioral health services through a DBHDD-approved provider.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Service Exclusions       | When offered with services with higher intensity, documentation must indicate efforts to minimize duplication of services and effectively transition the individuals to the appropriate services. This combination of services is subject to review of the ASO.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Clinical Exclusions      | Individuals who do not meet the eligibility requirements per service category for each allowable service listed above for which participation is sought.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Required Components      | <ol style="list-style-type: none"> <li>1. The program incorporates information from a validated risk and needs assessment (Identified by the Council of Accountability Court Judges [CACJ] and the DBHDD) into the individual's treatment planning process and resulting IRP. If the program administers the risk and needs assessment, versus taking receipt of it from a referring Accountability Court, it will be conducted by appropriately trained and credentialed staff. This may be provided through the Behavioral Health Assessment and/or Service Plan Development services.</li> <li>2. Program utilizes methods, materials, settings, and outside resources appropriate to the developmental and cognitive levels, capabilities, age, gender, and culture of participants.</li> <li>3. Program utilizes methods, materials, approaches, activities, settings, and outside resources appropriate for, and targeted to individuals with a serious mental illness, including those with a co-occurring substance use disorder and/or developmental disability.</li> <li>4. Program utilizes methods, materials, approaches, activities, and outside resources appropriate for reducing recidivism rates among individuals with moderate to high criminogenic risk and need levels.</li> <li>5. Program maintains required staff certification and training standards for evidence-based curricula/practices and provides quality control/model fidelity measures and supervision practices.</li> <li>6. The program must operate at a site approved to bill DBHDD/Medicaid for services. However, limited individual or group activities may take place off- site in natural community settings as is appropriate to each individual's recovery plan. Program must have in place appropriate accreditation and licenses for all</li> </ol> |

## Treatment Court Services- Adult Mental Health

|                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                       | <p>established service sites.</p> <ol style="list-style-type: none"> <li>7. The program's treatment level and service frequency are based on the individual's clinical need and risk/support needs considerations. However, in all cases, the program must offer a minimum of 9 hours per week of programming at the initial phase of an individual's treatment.</li> <li>8. The program provides individual treatment compliance and status reports as needed prior to and during court staffing/judicial review meetings. Any sanctionable offense should be reported to identified court staff as soon as possible, or at least within 24 hours of the incident (sanctionable offenses include but are not limited to missed appointments, inappropriate behavior toward staff or other participants, damage to property, non-compliance with provider policies).</li> <li>9. The program works collaboratively with the court to implement evidence-based practices identified by the Georgia Council of Accountability Court Judges (CACJ; <a href="http://www.gaaccountabilitycourts.org/">http://www.gaaccountabilitycourts.org/</a>) and the National Association of Drug Court Professionals (NADCP; Recommended: Best Practice Standards Vol. I and II <a href="https://www.ndci.org/resources/publications/standards/">https://www.ndci.org/resources/publications/standards/</a>)</li> <li>10. Provide comprehensive Individual Recovery Plans (IRP) for each enrolled individual, including utilizing applicable adult outpatient services, residential supports and housing, employment supports, trauma informed mental health and substance abuse treatment, whole health planning and implementation, peer support services, and linkage to other related services required to assist individuals in maintaining the behavioral health recovery and avoiding additional criminal justice involvement. Evidence based practices will guide the IRP and treatment process.</li> <li>11. The program will implement at least one evidence-based treatment practice/model(s), using a manualized curriculum, that has shown to be effective in working with the target population, such as: <ol style="list-style-type: none"> <li>a. Cognitive Behavioral Intervention – Substance Abuse</li> <li>b. Cognitive Behavioral Treatment (CBT)</li> <li>c. Matrix Model</li> <li>d. Moral Recognition Therapy</li> <li>e. Motivational Interviewing</li> <li>f. Seeking Safety</li> <li>g. Thinking for a Change</li> <li>h. Trauma Recovery and Empowerment Model (TREM)</li> </ol> </li> </ol> <p>[NOTE: Not all the services listed in the Service Description section are aligned with these unique EBPs, and therefore, these EBPs may not be applicable to those particular services. The court and providers will discern any specific applicability via their joint MOU].</p> <ol style="list-style-type: none"> <li>12. Provider will develop written agreements, partnerships, and memoranda of understanding (MOU) with key justice, mental health and substance abuse treatment providers, recovery community advocates and support partners, consumer groups on an ongoing basis for the purpose of cooperative wrap around services and for developing sustainable activities.</li> </ol> |
| Staffing Requirements | <ol style="list-style-type: none"> <li>1. Staffing patterns must adhere to the requirements for each allowable service listed above.</li> <li>2. Provider shall employ the following staff exclusively dedicated to the Treatment Court - MH service: <ol style="list-style-type: none"> <li>a. One FTE Treatment Coordinator who: <ol style="list-style-type: none"> <li>i. Is a licensed clinician; and</li> <li>ii. Provides all case management/care coordination for participants; and</li> <li>iii. Attends court/staffings/judicial reviews/planning sessions; and</li> <li>iv. Carries a case load of all Treatment Court - MH participants in need of services (not to exceed the caseload size for any of the unbundled services named above in this service guideline); and</li> <li>v. Conducts Behavioral Health Assessments for participants entering services.</li> </ol> </li> <li>b. One FTE Certified Peer Specialist (with credentials as a Forensic Peer Mentor) who: <ol style="list-style-type: none"> <li>i. Has a certification as Peer Specialist-MH or AD; and</li> <li>ii. Is a graduate of Forensic Peer Mentor Training (or completes training within 6 mos. of hire); and</li> </ol> </li> </ol> </li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## Treatment Court Services- Adult Mental Health

|                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

Attends court/staffings/judicial reviews/planning sessions; and</li> <li>v. Supports participants by modeling a recovery-oriented lifestyle, assisting with building natural supports, and promoting hope; and</li> <li>vi. Carries a case load of all Treatment Court – MH participants in need of services.</li> </ul> <ol style="list-style-type: none"> <li>3. Staff should be appropriately certified and trained on evidence-based practices and curricula.</li> <li>4. For Group therapy: Maximum face-to-face ratio cannot be more than 10 individuals to 1 direct service staff based on average group attendance.</li> <li>5. A physician and/or Registered Nurse or Licensed Practical Nurse with appropriate supervision must be available to the program either by employment by the agency, through a contract with a licensed practitioner, or by written referral or affiliation agreement with another agency or agencies that offer such services.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Clinical Operations        | <ol style="list-style-type: none"> <li>1. An individual may have a variable length of stay. The level of care and length of stay should be determined by individual's multiple assessments and progress toward meeting goals of the IRP. It is recommended that the individuals attend at a frequency appropriate to their level of need. Ongoing clinical and risk/need assessment should be conducted to determine step down in level of care.</li> <li>2. Each individual should participate in setting individualized goals for themselves and in assessing their own skills and resources related to recovery. Goals are set by exploring strengths and needs in the individual's living, learning, social, and working environments. Implementation of services may take place individually or in groups.</li> <li>3. Each individual must be provided assistance in the development/acquisition of needed skills and resources necessary to achieve recovery and/or reduction in use of substances and maintenance of recovery.</li> <li>4. Court staffing meeting time may be billable as a collateral contact via Case Management with or without the person being present if the following are considered: <ul style="list-style-type: none"> <li>a. If the Court Staffing Meeting addresses multiple individuals being supported by the Treatment Court Service, the only time which can be billed is the specific discussion and planning related to the individual being served;</li> <li>b. The service must comply with the expectations set forth in the unique Case Management (CM) Service Definition (Assistance to the person and other identified recovery partners in the facilitation and coordination of the Individual Recovery Plan (IRP), identification, with the person, of strengths which may aid him/her in achieving and maintaining recovery from mental health challenges as well as barriers that impede the development of necessary skills, linkage and referral, monitoring and follow-up, etc.). For example, if this service is being billed via CM and the individual served is not participating, the intervention and billing would comply with the Required Components section of the CM service which allow 50% of billable contact to be non-face-to-face.</li> </ul> </li> </ol> |
| Service Accessibility      | <ol style="list-style-type: none"> <li>1. Service are available during the day and evening hours.</li> <li>2. Demographic information collected shall include a preliminary determination of hearing status to determine referral to the Office of Deaf Services.</li> <li>3. To promote access, providers may use telemedicine as a tool to provide direct interventions to individuals enrolled in this service. See <a href="#">Part II. Community Service Requirements for All Providers, Section I: Policies and Procedures, 1. Guiding Principles, B. Access to Individualized Services, item 16</a> of this Provider Manual for definitions and requirements specific to the provision of telemedicine.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Documentation Requirements | <ol style="list-style-type: none"> <li>1. Submission of a monthly standardized programmatic report is required by the DBHDD to monitor performance and outcomes as well and approve the amount requested via the MIERS.</li> <li>2. Every admission and assessment must be documented.</li> <li>3. Daily notes must include time in/time out in order to justify units being utilized.</li> <li>4. Progress notes must include written daily documentation of groups, important occurrences; level of functioning; acquisition of skills necessary for recovery; progress on goals identified in the IRP, progress toward recovery, substance use, reduction and/or abstinence; use of drug screening results by staff; and evaluation of service effectiveness.</li> <li>5. Provider shall only document units in which the individual was actively engaged in services. Meals and breaks must not be included in the reporting of units of service delivered.</li> <li>6. Daily attendance of each individual participating in the program must be documented showing the number of hours in attendance.</li> <li>7. All service contacts with an individual must be documented.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| Service Description      | WTRS Outpatient Services will provide comprehensive gender specific treatment for addictions. These services will encompass ASAM Level 1 Outpatient services and ASAM Level 2.1 Intensive Outpatient Services. ASAM Level 1 outpatient encompasses organized services that may be delivered in a wide variety of settings. Such services are provided in regularly scheduled sessions and follow a defined set of policies and procedures. ASAM Level 2.1 is an intensive outpatient set of services that maybe offered during the day, before or after work, in the evening or on weekends. Such programs provide essential support and treatment services while allowing the individual to apply his/her newly acquired skills in “real world “environments. The WTRS Outpatient Program assumes an average length of stay in outpatient treatment of 4 to 12 months or based on individual clinical need. |      |       |       |       |       |      |                |                   |       |       |       |       |      |
| Admission Criteria       | Individual must:<br>1. Have a substance use disorder; and<br>2. Meet criteria for the DBHDD eligibility (Part I of this manual).<br>3. These contracted slots are for any woman with no other means to pay for services (Corrections, DFCS, court referred, etc.).<br>4. <b>Admissions and Interim Services Policy for Pregnant Consumers:</b> Federal regulations gives priority admissions to certain populations in the following order: Pregnant injecting drug users, other pregnant drug users, other injecting drug users, and then all other users. All addictions providers are required to adhere to the priority admission policy (including pregnant woman that are actively taking an opiate substitute). In the event a woman is unable to continue her medication regimen, the provider must make the appropriate referral and contact the state office within 48 hours.                      |      |       |       |       |       |      |                |                   |       |       |       |       |      |
| Continuing Stay Criteria | 1. The individual's condition continues to meet the admission criteria;<br>2. Documentation reflects continuing progress of the individual’s recovery plan within this level of care;<br>3. There is a reasonable expectation that the individual can achieve the goals in the necessary time frame; and<br>4. In the event the length of stay needs to be extended, additional documentation is required to be submitted to the DBHDD Women’s Treatment Coordinator. All services are individualized and clinical discretion is to be used when evaluating levels of care. The maximum length of stay is twelve (12) months.                                                                                                                                                                                                                                                                                |      |       |       |       |       |      |                |                   |       |       |       |       |      |
| Discharge Criteria       | 1. A discharge/transition plan is completed, linkages are in place, and one or more of the following:<br>a. Goals of the IRP have been substantially met; or<br>b. If a consumer is involved with DFCS or another referring agency, a discharge staffing should be completed in collaboration with both WTRS and other referring organizations before discharge.<br>2. To discharge an individual before clinically appropriate, a clinical staffing and a discharge summary must be completed, and the following information must be documented.<br>3. Transfer to a higher level of service is warranted if the individual requires services not available at this level.                                                                                                                                                                                                                                  |      |       |       |       |       |      |                |                   |       |       |       |       |      |
| Service Exclusions       | Services cannot be offered with SA Intensive Outpatient Program, Psychosocial Rehabilitation, WTRS residential treatment, and AD Intensive service.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |      |       |       |       |       |      |                |                   |       |       |       |       |      |

## Women's Treatment and Recovery Support (WTRS): Outpatient Services

| Clinical Exclusions   | <ol style="list-style-type: none"> <li>1. If an individual is actively suicidal or homicidal with a plan and intent.</li> <li>2. Women should have no cognitive and/ or intellectual impairments which will prevent them from participating in and benefiting from the recommended level of care.</li> <li>3. Withdrawal Management and impairments needs must be met prior to admission to the program (alternative provider and/ or community resources should be used to serve women with acute treatment needs).</li> <li>4. Women must be medically stable in order to participate in treatment.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                    |                |           |          |         |               |

| Required Components   | <ol style="list-style-type: none"> <li>1. Services must be licensed by DCH/HFR under the Rules and Regulations for Drug Abuse Treatment Program, 290-4-2.</li> <li>2. Individuals receiving services must have a substance use disorder present in the medical record prior to initiation of services. The diagnosis must be given by a practitioner identified in O.C.G.A. Practice Acts as qualified to provide a diagnosis.</li> <li>3. Each individual should participate in setting individualized goals for themselves.</li> <li>4. Services may take place individually or in groups.</li> <li>5. Each consumer must be oriented into the program and receive a copy of rules and regulations and client rights. A program handbook is recommended.</li> <li>6. IRP reviews must be completed every 60 days and staffing should be conducted involving all necessary participants WTRS Treatment Review Form is recommended.</li> <li>7. Use of ASAM is required to determine level of care during each phase of treatment. These levels are to be assessed regularly, must be individualized, and clinical judgment must be used.</li> <li>8. All WTRS work providers must provide all services included in the WTRS type of care.</li> <li>9. All WTRS work providers must offer the following groups: Addiction Treatment Groups, Relapse Prevention, Trauma Groups, Criminal Addictive Thinking/Irrational Thinking, Anger Management, Co-Occurring Disorders, Life Skills, Family Dynamics and Health Relationships including HIV/AIDS. The recommended curricula for the above groups are: <ol style="list-style-type: none"> <li>a. The MATRIX with the Women Supplement;</li> <li>b. Helping Women Recover;</li> <li>c. A Woman's Way through the 12 Steps;</li> <li>d. TREM;</li> <li>e. Seeking Safety;</li> <li>f. A New Direction Criminal and Addictive Thinking;</li> <li>g. SAMHSA Anger Management, and</li> <li>h. Matrix Family Component.</li> </ol> </li> <li>10. The chart below shows the required hours of treatment for each ASAM level. All services are individualized and clinical discretion should be used when evaluating levels of care: <table border="1" data-bbox="627 1027 1478 1128"> <thead> <tr> <th>ASAM Level of Care</th><th>Hours Per Week</th></tr> </thead> <tbody> <tr> <td>Level 2.1</td><td>15 hours</td></tr> <tr> <td>Level 1</td><td>up to 8 hours</td></tr> </tbody> </table> </li> </ol> | ASAM Level of Care | Hours Per Week | Level 2.1 | 15 hours | Level 1 | up to 8 hours |
| ASAM Level of Care    | Hours Per Week                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                    |                |           |          |         |               |

Non-clinical staff and Level 5 practitioners must be under the supervision of an LCSW, LPC, LMFT, MAC, CAADC, GCADC-II/-III, or CAC-II.</li> </ul> </li> <li>4. WTRS Provider must have at least one program director to oversee residential and outpatient.</li> <li>5. Each WTRS program must have a distinct separation in staff.</li> <li>6. The provider must provide assurance that all program staff will have appropriate background checks and credential verifications.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Clinical Operations | <ol style="list-style-type: none"> <li>1. The program must be under clinical supervision of an LCSW, LPC, LMFT, MAC, CAADC, GCADC-II/-III, or CAC-II, who is onsite during normal operating hours.</li> <li>2. All clinical services must be provided by the appropriate practitioner based on the DBHDD practitioner's guide.</li> <li>3. The program shall conduct random drug screening and use the results of these tests for marking the individual's progress toward goals and for service planning.</li> <li>4. Addiction treatment/recovery services and programming must demonstrate a primary focus on Group Counseling that consists of Cognitive Behavioral groups (which rearrange patterns of thinking and action that lead to addiction). Group training, such as psychoeducational groups (which teach about substance use disorder and skills development groups, which hone the skills necessary to break free of addictions) may also be offered in combination with group counseling but must not serve as the only group component. At least fifty percent (50%) of groups provided on a weekly basis on the ASAM Level of Care must be counseling.</li> <li>5. Limited individual or group activities may take place off-site in natural community setting as is appropriate to each individual's IRP. (NO Services are to take place at the individual's place of residence unless it is outreach).</li> <li>6. Recovery Support meetings may not be counted towards hours for any treatment sessions if the session goes beyond the basic introduction to the Recovery Support experience.</li> <li>7. Hours of operation should be accommodating for individuals who work (i.e. evening/weekend hours).</li> <li>8. WTRS services may operate in the same building as other services; however, there must be a distinct separation between services, living space and staff.</li> <li>9. Adequate space, equipment, furnishings, supplies and other resources must be provided in order to effectively provide services and so that the program environment is clean and in good repair.</li> <li>10. The Department's Evidence Based Practices and curriculums are to be utilized for the target area of treatment. Practitioners providing these services are expected to maintain knowledge and skills regarding current research trends in best evidence-based practices.</li> <li>11. The program must have a WTRS Services Organizational Plan Addressing the following:               <ul style="list-style-type: none"> <li>a. The philosophical model of the program and the expected outcomes for program participants (i.e., harm reduction, abstinence, beginning of or maintaining individually defined recovery, employment readiness, relapse, prevention, stabilization and treatment of those with co-occurring disorder).</li> <li>b. The schedule of activities and hours of operations.</li> <li>c. Staffing patterns for the program.</li> <li>d. How assessments will be conducted.</li> <li>e. How the program will support pregnant women that require medication assisted treatment.</li> <li>f. How staff will be trained in the administration of addiction services and treatment of co-occurring disorders according to the Georgia Best Practices.</li> <li>g. How services for individuals with co-occurring disorders will be flexible and will include services and activities addressing both mental health and addictions.</li> <li>h. How individuals with co-occurring disorders who cannot be served in the regular program activities will be provided and/or referred for time-limited special integrated services that are co-occurring enhanced as reflected in <a href="#">Guiding Principles Regarding Co-Occurring Mental Health and Addictive Diseases Disorders, 04-109</a>.</li> <li>i. How services will be coordinated with addiction services including assuring or arranging for appropriate referrals and transitions (Including transportation).</li> </ul> </li> <li>12. Staff training and development is required to be addressed by the provider as evidenced by the following:</li> </ol> |

## Women's Treatment and Recovery Support (WTRS): Outpatient Services

|                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| Service Description      | <p>Women's Treatment and Recovery Support Residential Program will provide comprehensive gender specific treatment for addictions. These services will encompass ASAM level 3.1 Clinically Managed Low -Intensity Residential Services and 3.5 Clinically Managed High-Intensity Residential Services level of care and Therapeutic ChildCare. ASAM Level 3.1 programs offer at least 10 hours per week of low-intensity treatment focusing on improving the individual's readiness to change. Services may include individual, group, and family therapy; medication management and medication education, mental health evaluation and treatment; vocational rehabilitation and job placement ; and either introductory or remedial life skills workshops. Level 3.1 is a structured recovery residence environment staffed 24 hours a day, which provides sufficient stability to prevent or minimize relapse or continued use. Interpersonal and group living skills generally are promoted through use of community or house meetings of residents and staff. Level 3.5 programs are designed to serve individuals who, because of specific functional limitations, need safe and stable living environments in order to develop and/ or demonstrate sufficient recovery skills so that they do not immediately relapse or continue to use in an imminently dangerous manner upon transfer to a less intensive level of care . This level of care assist individuals who addiction is currently so out of control that they need a 24 hour supportive treatment environment to initiate or continue a recovery process that has failed to progress. 3.5 programs provides no less than 25 hours of treatment per week. An on-site safe and adequate living environment is provided for dependent children ages 13 and younger. The provider, may but is not required, to provide an onsite and safe living environment for children 14-17. Therapeutic Child Care provided to ensure the children of the women receive the necessary therapeutic preventions and interventions skills. The provider will comprehensively address wraparound services available on-site or off site, for dependent children 13years of age and younger. WTRS residential services are on-site or provided within walking distance of provider's residential facility.</p>                                                                                                     |                |                   |
| Admission Criteria       | <p>1. Individuals must have a substance use disorder, meet the DBHDD eligibility (Part I of this manual), and meets criteria for one of the following:</p> <p>a. <b>TANF and or Child Protective Service Criteria:</b></p> <ul style="list-style-type: none"> <li>i. Current TANF Recipients- Individuals with active TANF cash assistance cases.</li> <li>ii. Former TANF recipients- Individuals whose TANF assistance was terminated within the previous twelve months due to employment.</li> <li>iii. Families at Risk- Individuals with active DFCS child protective cases or referred by Family Support Services.</li> </ul> <p><b><u>To use a TANF funded slot a referral must come from DFCS. Referral form along with other required documents must be in individual's chart.</u></b></p> <p style="text-align: center;"><b>OR</b></p> <p>b. <b>Non-TANF Criteria:</b></p> <p>Individuals determined to be Non-TANF and does not meet the above criteria but do meet the DBHDD eligibility definition may be served in a WTRS program. An individual is determined Non-TANF by the following:</p> <ul style="list-style-type: none"> <li>i. A woman pregnant for the first time.</li> <li>ii. A woman has lost parental custody of her children (i.e. is not working on reunification).</li> <li>iii. A woman who is not associated with DFCS (TANF or Child Protective Service, meets DBHDD eligibility definition and would benefit from gender specific treatment).</li> <li>iv. A woman with no dependent children.</li> </ul> <p style="text-align: center;"><b>OR</b></p> <p>c. <b>SSBG and/or state funded slots</b></p> <ul style="list-style-type: none"> <li>i. A woman with dependent children who meet the DBHDD Eligibility definition.</li> </ul> <p>2. Each time an individual is discharged they must meet the admission criteria and follow admission procedure if re-admittance is needed.</p> <p>3. Federal regulations give priority admissions to certain populations in the following order: Pregnant injecting drug users, other pregnant drug users, other injecting drug users, and all other users. All addictions providers are required to adhere to the priority admission policy (including pregnant women that are actively taking opiate substitute). In the event a woman is unable to continue her medication regimen the provider must make appropriate referrals and contact the state office within 48 hours.</p> |                |                   |
| Continuing Stay Criteria | <p>1. The individual's condition continues to meet the admission criteria.</p> <p>2. Documentation reflects continuing progress of the individual's recovery plan within this level of care.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                |                   |

## Women's Treatment and Recovery Support (WTRS): Residential Treatment

|                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

If the provider has insufficient capacity to provide services to any such pregnant woman, the provider is required to refer the pregnant woman to the DBHDD Women's Treatment Coordinator.</li> <li>The provider is required to make interim services available within 48 hours if pregnant woman cannot be admitted because of lack of capacity.</li> </ol> |

## Women's Treatment and Recovery Support (WTRS): Residential Treatment

13. The program is required to offer interim services at a minimum the following:
  - a. Counseling and education about HIV and TB, the risks of needle-sharing, the risks of transmission to sexual partners and infants, and steps that can be taken to ensure that HIV and TB transmission does not occur;
  - b. Referral for HIV and TB treatment services, if necessary; and
  - c. Counseling pregnant women on the effects of alcohol and other drugs use on the fetus and referrals for prenatal care for pregnant women.
14. The chart below shows the required ASAM content hours:

| ASAM Level of Care | Hours Per Week |
|--------------------|----------------|
| Level 3.5          | 25 hours       |
| Level 3.1          | 10 hours       |

### Staffing Requirements

1. Program Coordinator Qualifications:
  - a. At least two (2) years of documented work experience in a Gender Specific and/or Addiction Treatment Program.
  - b. Level 4 or higher with co-occurring disorders experience defined in the DBHDD Provider Manual. This person's knowledge must go beyond basic understanding and must demonstrate actual staff capabilities in using knowledge for individuals with co-occurring disorders. Staff person must demonstrate a minimum of 5 hours per year of training in co-occurring treatment. Programs must have documentation that there is at least one (1) Level 4 staff (excluding Paraprofessional, Supervisee/Trainee and Certified Alcohol and Drug Counselor-Trainee) that is co-occurring capable.
  - c. A GCADC-I or CAC-I working towards obtaining a GCADC-II or CAC-II within two years can work in this position. The provider is required to keep documentation of supervision and anticipated the test date.
2. Program Manager or Lead Counselor qualifications:
  - a. At least one (1) year of documented work experience in a Gender Specific and /or Addiction Treatment Program.
  - b. Level 4 practitioners or a CAC-I with co-occurring disorders experience or higher staff as defined in the Provider Manual for Community Behavioral Health Providers.
3. Programmatic Staff Qualifications:
  - a. All WTRS practitioners with no documented experience should be orientated on the biological and psychosocial dimensions of substance use disorders and trained in evidence-based models and best practices.
  - b. Level 4 practitioner with co-occurring disorders experience or higher staff as defined in the Provider Manual for Community Behavioral Health Providers.
  - c. Non-clinical staff and Level 5 practitioners must be under the supervision of an onsite LCSW, LPC, LMFT, MAC, CAADC, GCADC-II/-III, or CAC-II.
4. The WTRS Provider must have at least one program director to oversee residential and outpatient.
5. Each WTRS program must have distinct separation in staff.
6. The provider must provide assurance that all program staff will have appropriate background checks and credential verifications.

### Clinical Operations

1. The program must be under clinical supervision of an LCSW, LPC, LMFT, MAC, CAADC, GCADC-II/-III, or CAC-II, who is onsite during normal operating hours.
2. All clinical services must be provided by the appropriate practitioner based on the DBHDD practitioner's guide.
3. The program shall conduct random drug screening and use the results of these tests for marking the individual's progress toward goals and for service planning.
4. Addiction treatment services and programming must demonstrate a primary focus on Group Counseling that consists of Cognitive Behavioral groups (which rearrange patterns of thinking and action that lead to addiction), group training, such as psychoeducational groups which teach about substance use disorders and skills development groups (which hone the skills necessary to break free of addictions) may also be offered in combination with group counseling but must not serve as the only group component. At least fifty percent (50%) of groups provided on a weekly basis on the ASAM Level of Care must be group counseling.
5. Limited individual or group activities may take place off-site in natural community setting as is appropriate to each individual's IRP. (NO Services are to take place at the individual's place of residence unless it is outreach).
6. Recovery support meetings (such as AA, NA, etc.) may not be counted towards hours for any treatment sessions.
7. WTRS services may operate in the same building as other services; however, there must be a distinct separation between services, staff, and living space.
8. Adequate space, equipment, furnishings, supplies and other resources must be provided in order to effectively provide services and so that the program

## Women's Treatment and Recovery Support (WTRS): Residential Treatment

|                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|                            | <p>environment is clean and in good repair.</p> <ol style="list-style-type: none"> <li>9. The Department's Evidence Based Practices and curriculums are to be utilized for the target areas of treatment. Practitioners providing these services are expected to maintain knowledge and skills regarding current research trends in best evidence-based practices.</li> <li>10. The program must have a WTRS Services Organizational Plan Addressing the following: <ol style="list-style-type: none"> <li>a. The philosophical model of the program and the expected outcomes for program participants (i.e., harm reduction, abstinence, beginning of or maintaining individually defined recovery, employment readiness, relapse, prevention, stabilization and treatment of those with co-occurring disorder).</li> <li>b. The schedule of activities and hours of operations.</li> <li>c. Staffing patterns for the program.</li> <li>d. How assessments will be conducted.</li> <li>e. How the program will support pregnant women that require medication assisted treatment.</li> <li>f. How staff will be trained in the administration of addiction services and treatment of co-occurring disorders according to the Georgia Best Practices.</li> <li>g. How services for individuals with co-occurring disorders will be flexible and will include services and activities addressing both mental health and addictions.</li> <li>h. How individuals with co-occurring disorders who cannot be served in the regular program activities will be provided and/or referred for time-limited special integrated services that are co-occurring enhanced as reflected in <a href="#">Guiding Principles Regarding Co-Occurring Mental Health and Addictive Diseases Disorders, 04-109</a>.</li> <li>i. How services will be coordinated with addiction services including assuring or arranging for appropriate referrals and transitions (Including transportation).</li> </ol> </li> <li>11. Staff training and development is required to be addressed by the provider as evidenced by the following: <ol style="list-style-type: none"> <li>a. All WTRS treatment providers are required to participate in staff development and ongoing training as required by the community standards, HFR regulations, and national accrediting bodies.</li> <li>b. As a part of this already mandated staff development and training, WTRS staff should have at least thirty (30) hours of addiction specific training annually, in accordance with HFR regulations.</li> <li>c. Licensed and certified staff is required to have at least six (6) hours out of the thirty (30) hours in the area of gender-specific women's addiction modalities and treatment skills.</li> <li>d. All non-licensed and or non-certified staff that provide educational or treatment services must complete at least 6 hours of gender specific training annually.</li> <li>e. It is recommended that house parents and other support staff have at least 3-6 hours of non-clinical gender specific training annually but the provider's discretion can be used.</li> <li>f. All training certificates shall be placed in the staff member's file for review.</li> <li>g. Training can be provided via e-learning or face to face. <ol style="list-style-type: none"> <li>i. Each provider is required to train new program staff and includes the following: <ol style="list-style-type: none"> <li>ii. Understanding the WTRS program requirements;</li> <li>iii. Understanding Healthcare Facility Regulations (HFR);</li> <li>iv. Understanding of the prior authorization process; and</li> <li>v. Understanding ASAM levels of care.</li> </ol> </li> </ol> </li> </ol> </li> </ol> |
| Documentation Requirements | <ol style="list-style-type: none"> <li>1. Providers must document services in accordance with the specifications for documentation requirements specified in Part II, Section III of the Provider Manual.</li> <li>2. It is crucial that individuals be authorized under the WTRS Residential type of care in order to assign an appropriate funding source. <ol style="list-style-type: none"> <li>a. In addition, new registration must be completed when a previous registration expires;</li> <li>b. Upon an individual leaving the program or moving to another level of care, a registration update must be completed and an end-date entered in the ASO system.</li> </ol> </li> <li>3. Every admission and assessment must be documented.</li> <li>4. Progress/Group notes must be written daily and signed by the staff that performed the service.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## Women's Treatment and Recovery Support (WTRS): Residential Treatment

|                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

|                                  | <ol style="list-style-type: none"> <li>5. Daily attendance of each individual participating in the program must be documented by evidence of a group sign in roster.</li> <li>6. Clinicians are to sign and date each note with only the correct approved DBHDD credentials based on the practitioners table included within this manual. The individual that provides the service must complete the note.</li> <li>7. Results of Drug Screens must be documented.</li> <li>8. All WTRS providers are required to complete a biopsychosocial assessment.</li> <li>9. The Level of Care will be determined according to the American Society of Addiction Medicine (ASAM) 3<sup>rd</sup> edition for assessing severity and intensity of services. The ASAM justification form must be included in the individual's medical record.</li> <li>10. The provider must complete the WTRS vocational assessment within 30 days of admissions. Assessment must be placed in the individual's medical record.</li> <li>11. TANF and Child Protective Service individuals must be referred by DFCS.</li> <li>12. The following information must be maintained in the individual's chart, including all appropriate signatures: <ol style="list-style-type: none"> <li>a. Substance Use Disorder Assessment Result Form: Substance Use Disorder Assessment Results form must be completed and submitted back to DFCS within 2 weeks from the completion of the assessment (Email or Fax documenting submission to DFCS).</li> <li>b. WTRS Referral Form completed by DFCS: <ol style="list-style-type: none"> <li>i. Release of Information Form completed by DFCS.</li> <li>ii. Email or fax documenting transmission from DFCS.</li> </ol> </li> <li>c. Monthly WTRS Compliance Form (Email or Fax documenting submission to DFCS from DFCS).</li> </ol> </li> <li>13. All WTRS providers must submit the WTRS Compliance Form to DFCS within 72 hours for the following: <ol style="list-style-type: none"> <li>a. If individual fails to show for appointments for three consecutive days;</li> <li>b. All other major non-compliant issues; and</li> <li>c. Email or Fax documenting submission to DFCS.</li> </ol> </li> </ol> |
| Billing & Reporting Requirements | Span billing may occur for this service, meaning the start and end date are not the same on a given service claim line; however, spans cannot cross months (e.g. start date and end date must be within the same month).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| Service Description | Ready for Work Transitional Housing provide a safe, stable, drug free residence and utilities (power and water) for no more than 6 months to any woman or woman with a child that has successfully completed all recommended treatment/recovery services. The environment should be gender specific and can include dependent children between birth and 18 years old. Transitional Housing is to be a step down in service from Ready for Work residential or outpatient programs; thus, a successful completion of Ready for Work residential, outpatient, or least an ASAM level 2 program is necessary. |      |       |       |       |       |      |             |      |       |       |       |       |      |
| Admission Criteria  | <ol style="list-style-type: none"> <li>1. A woman or woman with a child(ren) that has successfully completed all recommended levels of treatment unless approval from Women's Program Coordinator.</li> <li>2. A woman that has provided evidence of needing a place of residence.</li> <li>3. A woman that has provided evidence being able to live in a community environment without the assistance of direct care staff.</li> </ol>                                                                                                                                                                     |      |       |       |       |       |      |             |      |       |       |       |       |      |

| Continuing Stay Criteria | <ol style="list-style-type: none"> <li>1. The individual's condition continues to meet the admission criteria.</li> <li>2. Documentation reflects continuing progress of the individual's IRP.</li> <li>3. There is a reasonable expectation that the individual can achieve the goals in the necessary time frame.</li> <li>4. In the event the length of stay needs to be extended additional documentation is required to be submitted to the state DBHDD Women's Treatment Coordinator. All services are individualized and clinical discretion is to be used.</li> <li>5. The maximum length of stay is six (6) months.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                             |
| Discharge Criteria       | <ol style="list-style-type: none"> <li>1. A discharge / transition plan completed, linkages are in place, and one or more of the following: <ol style="list-style-type: none"> <li>a. Goals of the IRP have been substantially met; or<br/>If an individual is involved with DFCS, a discharge staffing should be completed in collaboration with WTRS providers and other referring organizations before discharge.</li> <li>b. To discharge an individual before clinically appropriate, a clinical staffing must be completed and provide the following information: <ol style="list-style-type: none"> <li>i. Documented reason for early discharge; and</li> <li>ii. An aftercare plan.</li> </ol> </li> </ol> </li> <li>2. Transfer to a higher level of service is warranted if the individual requires a higher level of supervision.</li> </ol>                                                                                                                                                                            |
| Service Exclusions       | Services cannot be offered with Psychosocial Rehabilitation, WTRS residential or other residential treatment service.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Clinical Exclusions      | <ol style="list-style-type: none"> <li>1. If an individual is actively suicidal or homicidal with a plan and intent.</li> <li>2. Women should have no cognitive and/or intellectual impairments which will prevent them from participating in and benefiting from the recommended level of care.</li> <li>3. Withdrawal Management and impairments needs must be met prior to admission to the program (alternative provider and/ or community resources should be used to serve women with acute treatment needs).</li> <li>4. Women must be medically stable in order to reside in an independent living condition and participate in treatment.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                       |
| Required Components      | <ol style="list-style-type: none"> <li>1. Provider will conduct a residence check twice a month to ensure cleanliness and safety.</li> <li>2. The housing must be in the community away from the primary residential treatment facilities.</li> <li>3. If children are residing with their mother, provider must child-proof the home.</li> <li>4. The home must provide a bathroom for every four residents.</li> <li>5. The home must provide a living room and dining area, a kitchen and a bedroom for all residents.</li> <li>6. This is a step-down program. Women living in transitional housing must be independent with support.</li> <li>7. Transportation must be provided for the individuals to attend treatment/support services, this may include public transportation fare, staffing transporting individuals using agency vehicles and/or providing gas for individual's automobile.</li> <li>8. Provider should continue to work with the individual's referral source to ensure consistency of care.</li> </ol> |
| Staffing Requirements    | <b>No staffing requirements for this level of care. Follow outpatient staffing requirements when providing aftercare treatment and support services.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

## Women's Treatment and Recovery Services: Transitional Housing

|                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| Clinical Operations        | <ol style="list-style-type: none"> <li>1. Transitional Housing Services must provide a schedule for aftercare programming and to ensure stability and consistency for individuals.</li> <li>2. Individual should be in Level 1 outpatient/aftercare. If she does not meet the criteria or the agency does not have a WTRS outpatient program, the individual should have an SA Outpatient.</li> <li>3. Transitional Housing Services may be in the same apartment complex (that is not owned by the provider) as residential services; however, the living quarters must be distinctly different. Preferably (not required) apartments are away from residential services to assist with acclimation back into the community.</li> <li>4. Food and shopping must be completed by individuals; providers should not charge or collect money/EBT cards.</li> <li>5. Medications and medical needs should be the responsibility of the individual. The providers should not hold or dispense medications to individuals in transitional housing.</li> <li>6. Transitional Housing must have an organizational plan addressing the following: <ol style="list-style-type: none"> <li>a. Schedule of Activities and Hours;</li> <li>b. Policies and Procedures;</li> <li>c. House Rules for Consumers; and</li> <li>d. Emergency Procedures.</li> </ol> </li> <li>7. Each individual should participate in setting individual goals for themselves and in assessing their own skills and resources related to sobriety.</li> <li>8. Aftercare services must be provided to all participants in transitional housing unless otherwise approved by the Division.</li> <li>9. The women living in Transitional Housing should have access to outpatient services. (Please see WTRS Outpatient Admission)</li> <li>10. Aftercare is defined as the following: <ol style="list-style-type: none"> <li>a. Provide Gender Specific continuing care groups at least once a week for 1 ½ hours.</li> <li>b. Provide at least one individual session per month to the individual.</li> <li>c. The individual must attend groups at least 3 times per month to be counted.</li> <li>d. Connection to support services would include; job, home or school visits, aftercare group, which includes parenting, mental health/developmental disabilities, support group meetings including NA and/ or AA.</li> <li>e. Minimum of 2 drug screens per month.</li> <li>f. Relapse prevention strategies including: Relapse Prevention, Parenting, Trauma Groups, Anger Management Healthy Relationships including HIV/AIDS education, Criminal Addictive Thinking, Co-Occurring Disorder and, Family Counseling as needed.</li> </ol> </li> </ol> |
| Documentation Requirements | <ol style="list-style-type: none"> <li>1. Providers must document services in accordance with the specifications for documentation requirements specified in Part II, Section III of the Provider Manual.</li> <li>2. Every admission of transitional housing must be documented.</li> <li>3. Progress/Group notes must be written each time group meets and signed by the practitioner that performed the service.</li> <li>4. Group attendance of each individual participating in the program must be documented by evidence of a group sign in roster.</li> <li>5. Clinicians are to sign and date each note with only the correct approved DBHDD credentials based on the practitioners table. The practitioner that provides the service must complete the note.</li> <li>6. Bi-weekly unit inspection must be documented for transitional housing.</li> <li>7. Results of Drug Screen must be documented.</li> <li>8. If individual is a Child Protective Services or TANF referral from DFCS, a Monthly WTRS Compliance Form is required (Email or Fax documenting submission to DFCS from DFCS).</li> <li>9. If individual is a Child Protective Services or TANF referral from DFCS, the WTRS providers must submit the WTRS Compliance Form to DFCS within 72 hours (Email or Fax documenting submission to DFCS) for the following scenarios: <ol style="list-style-type: none"> <li>a. If individual fails to show for treatment appointments for three consecutive days; and</li> <li>b. All other major non-compliance issues.</li> </ol> </li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## Women's Treatment and Recovery Services: Transitional Housing

### Billing & Reporting Requirements

Span billing may occur for this service, meaning the start and end date are not the same on a given service claim line; however, spans cannot cross months (e.g. start date and end date must be within the same month).

## SECTION III-B

### SERVICE DEFINITIONS: SPECIAL CATEGORIES

#### Certified Community Behavioral Health Clinics (CCBHCS)

| Certified Community Behavioral Health Services |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |       |       |       |       |       |                         |                |                                                  |       |       |       |       |      |

| Service Description                            | <i>This section of the Provider Manual applies to Georgia-certified CCBHCs. All CCBHCs are held to the remainder of the Provider Manual. Where there is not a specific certified CCBHC requirement below, the other content of the Provider Manual applies.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |       |       |       |       |       |                         |                |                                                  |       |       |       |       |      |
|                                                | <b>Certified Community Behavioral Health Services (CCBHS)</b> are a federally mandated comprehensive range of mental health and substance use services which also include primary care screening and monitoring of individuals across the lifespan. Within this service group, focus is on care coordination and integrated treatment to improve individual outcomes. CCBHS also require a trauma-informed, evidence-based, and person-centered approach to treatment and support.                                                                                                                                                                                                                                                                                                                                      |       |       |       |       |       |                         |                |                                                  |       |       |       |       |      |
|                                                | <b>Certified Community Behavioral Health Clinics (CCBHCs)</b> provide CCBHS and are granted certification by DBHDD for a period up to three years. DBHDD is engaged in strategic implementation of the model. Certification is required to identify as a Georgia Certified Community Behavioral Health Clinic and to access the unique daily bundled rate.                                                                                                                                                                                                                                                                                                                                                                                                                                                              |       |       |       |       |       |                         |                |                                                  |       |       |       |       |      |
|                                                | Certification by DBHDD requires adherence to the federal and state criteria. For the federal criteria, see the PDF entitled “Certification Criteria for Certified Community Behavioral Health Clinics found at this link: <a href="#">Certified Community Behavioral Health Clinics (CCBHCs)   SAMHSA</a> . For the Georgia-specific criteria, see the document titled, “Georgia Certified Community Behavioral Health Clinic Certification Criteria” found here: <a href="https://dbhdd.georgia.gov/be-dbhdd/ccbhc">https://dbhdd.georgia.gov/be-dbhdd/ccbhc</a> . The six required categories measured in certification are: Staffing, Availability and Accessibility of Services, Care Coordination, Quality and other Reporting, Scope of Services (Nine required types of services), and Organizational Authority. |       |       |       |       |       |                         |                |                                                  |       |       |       |       |      |
|                                                | In the provision of the unique subset of services in CCBHC adhere to parameters set forth in Part I of this Provider Manual.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |       |       |       |       |       |                         |                |                                                  |       |       |       |       |      |
|                                                | Specific allowable DBHDD behavioral health services (see the Service Definition for each service listed below in this Provider Manual), which serve as Triggering Events for daily bundled rate payment: <ul style="list-style-type: none"><li>Behavioral Health Assessment &amp; Service Plan Development</li><li>Diagnostic Assessment</li><li>Psychological Testing (Evaluation)</li><li>Crisis Intervention</li></ul>                                                                                                                                                                                                                                                                                                                                                                                               |       |       |       |       |       |                         |                |                                                  |       |       |       |       |      |

- Assertive Community Treatment
- Community Support Team
- Intensive Family Intervention
- Substance Abuse Intensive Outpatient Program - Adult
- Substance Abuse Intensive Outpatient Program - C&A
- Ambulatory Detoxification
- Case Management Services
- Intensive Case Management

Certain components of other services and programs described within the DBHDD BH Provider Manual may be included in the CCBHC rate development process as permissible by CMS and approved by DBHDD.

The CCBHC must provide evidence-based services using best practices for treating mental health and substance use disorders across the lifespan with tailored approaches for adults, children, and families.

Treatments and recovery supports are provided that are appropriate for the phase of life and development of the person receiving services, specifically considering what is appropriate for children, adolescents, transition-age youth, and older adults, as distinct groups for whom life stage and functioning may affect treatment. When treating and supporting children and adolescents, CCBHCs must provide evidenced-based services that are developmentally appropriate, youth guided, and family/caregiver-driven. When treating and supporting older adults, the desires and functioning of the individual person receiving services are considered, and appropriate evidence-based treatments are provided. When treating individuals with developmental or other cognitive disabilities, level of functioning is considered, and appropriate evidence-based treatments are provided. These treatments are delivered by staff with specific training in treating the segment of the population being served.

## Certified Community Behavioral Health Services

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| Staffing Requirements            | <p>1. Staffing must adhere to all staffing requirements for the particular service(s) being delivered, as denoted in the Staffing Requirements section of the Service Definition for the relevant service(s) to be delivered, and this workforce must address the needs identified in the Community Needs Assessment.</p> <p>2. The CCBHC employs a minimum of one FTE Certified Peer Specialist – Mental Health (CPS-MH), one FTE Certified Peer Specialist – Addictive Diseases (CPS-AD), one FTE Certified Peer Specialist – Parent (CPS-P) , AND one FTE Certified Peer Specialist – Youth (CPS-Y) effective January 1, 2026 to allow for adequate peer support service accessibility and availability to each individual for whom peer support is identified in their Individualized Recovery Plan.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Clinical Operations              | CCBHCs must adhere to the Clinical Operations section of the Service Definition for the specific CCBHS service being provided.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Service Accessibility            | CCBHCs must adhere to the Service Accessibility section of the Service Definition for the specific CCBHS service being provided. Services must be provided across the lifespan.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Documentation Requirements       | CCBHCs must adhere to the Documentation Requirements section of the Service Definition for the specific CCBHS service being provided.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Billing & Reporting Requirements | <p>1. CCBHC daily bundled rates are CCBHC/agency-specific and established through protocol identified by DBHDD and DCH.</p> <p>2. The purpose of CCBHC case management service delivery is separate from case management-type services provided under other traditional authorities- including the 1915(c) NOW and COMP waivers Support Coordination/Intensive Support Coordination [case management] services.<sup>1</sup></p> <p>3. CCBHCs complete and submit the CMS CCBHC Cost Reports prior to certification as a CCBHC, and annually by September 30<sup>th</sup> following the end of the state fiscal year.</p> <p>4. Annual audited financials are required to be complete according to <a href="#">Viewing Community Service Board Oversight: Financial Audits Practice, 13-203 (polycystat.com)</a>.</p> <ul style="list-style-type: none"> <li>a. Annual Audited Financial Statements must include as a change to the Statement of Activities, a line item for CCBHC Operations, and</li> <li>b. Audited Financial Statements must be submitted to DBHDD by December 31, following the end of the state fiscal year. Extensions approved by the Office of the State Auditor will not automatically apply for CCBHC purposes. Failure to submit the Audit Reports on time will impact the integrity of the rate review process and will be considered a CCBHC Certification exception.</li> </ul> <p>5. Payment of the daily bundled rate will be triggered by submission of up to one claim per day for the CCBHC Service. Claims for the CCBHC Service are only applicable when the encounter being claimed is one of the services identified in the list above (see Service Description section) as a “Triggering Event.” The daily bundled rate will only be paid once per day per beneficiary when one or more triggering events occur on a given day.</p> <p>6. Encounter data shall be reported for each triggering and non-triggering event.</p> |

## Certified Community Behavioral Health Services

7. CCBHCs utilize systems established by DBHDD to collect quality measures and other data.

**\* Footnote 1:** According to guidance jointly released by SAMSHA and CMS on July 17th, 2024, Medicaid Conflict of Interest provisions do not apply to services included in the CCBHC bundled payment rate. As such, CCBHCs may bill a behavioral health case management service as a CCBHC payment triggering event for NOW or COMP waiver participants (who by default also receive Support Coordination/Intensive Support Coordination), so long as all other state and federal policy requirements have been met. Note: this allowance is specific to the various case management-type services found in this manual when provided by a CCBHC, but is not applicable to case management services being delivered by a non-CCBHC provider. Reference: CCBHC Criteria Frequently Asked Questions, publication July 17, 2024 <https://www.samhsa.gov/certified-community-behavioral-health-clinics/ccbhc-faqs>.

Additional Medicaid Requirements: Authorization for CCBHS is required and will be for a period of 180 days. Order(s) are for the specific service(s) included in the Individual Recovery Plan (IRP) and must adhere to the Service Definitions and follow the requirements in the remainder of the Provider Manual.

## Psychiatric Residential Treatment Facilities (PRTFs)

### Psychiatric Residential Treatment Facility (PRTF)

| Transaction Code    | Code Detail                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Code | Mod 1 | Mod 2 | Mod 3 | Mod 4 | Rate | Code Detail | Code | Mod 1 | Mod 2 | Mod 3 | Mod 4 | Rate |

| Service Description | <p>A Psychiatric Residential Treatment Facility (PRTF) is an inpatient residential facility with an agreement with the Georgia Departments of Behavioral Health &amp; Developmental Disabilities (DBHDD) and Community Health (DCH) to provide a behavioral health service benefit to eligible individuals twenty-one (21) years of age or younger. It is one of the most intensive levels of residential treatment for youth and young adults available.</p> <p>PRTF services provide comprehensive mental health and substance abuse treatment to children, adolescents, and young adults twenty-one (21) years of age or younger who, due to severe emotional disturbance, are in need of quality active treatment that can only be provided in an inpatient treatment facility and for whom alternative, less restrictive forms of treatment have been unsuccessful or are not medically indicated. PRTFs are designed to offer intensive, focused treatment to promote a successful return of the youth/young adult to the community. PRTFs are not considered emergency receiving facilities, PRTF admissions must be authorized by the Administrative Services Organization (ASO) for non-CMO covered lives. Focus is on improvement of residents' symptoms through the use of strength- and evidence-based strategies and active family engagement. The program encourages family participation in the treatment planning and implementation processes and timely discharge planning and aftercare. Specific outcomes of the services include the resident returning to his/her family or to another less restrictive community living situation, as soon as clinically possible and when treatment in a PRTF is no longer medically necessary.</p> <p>This service is provided to individuals in order to promote stability and build toward age-appropriate functioning in their daily environment. Stability is measured by decreased frequency, intensity, and duration of crisis episodes and by increased and/or stable participation in school and community activities, or activities that encourage/support community inclusion. Supports based on the residents' needs are used to promote resiliency while understanding the effects of the emotional disturbance and substance use/abuse and to promote functioning at an age-appropriate level.</p> <p>Service activities include:</p> |      |       |       |       |       |      |             |      |       |       |       |       |      |

On-going discharge planning, and transitional planning when appropriate, as needed to accomplish treatment objectives.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Target Population  | <ol style="list-style-type: none"> <li>1. Children, adolescents, and transition age young adults, ages 6 to 21 who are uninsured or have Medicaid eligibility because of Foster Care, Adoption Assistance or a disability (SSI), and</li> <li>2. Require an intensive program in an out-of-home setting due to behavioral, emotional, and functional presentations which cannot be addressed safely and adequately in the home; and</li> <li>3. Have a mental health condition; a co-occurring substance use disorder and mental health condition; a co-occurring mental health condition and Intellectual/developmental disability</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Admission Criteria | <p>Individual must meet the target population criteria as noted above, and one or more of the following:</p> <ol style="list-style-type: none"> <li>1. Individual has shown serious risk of harm in the past thirty (30) days, as evidenced by the following: <ol style="list-style-type: none"> <li>a. Current suicidal or homicidal ideation with clear, expressed intentions and/or current suicidal or homicidal ideation with past history of carrying out such behavior; and at least one of the following: <ol style="list-style-type: none"> <li>i. Indication or report of significant and repeated impulsivity and/or physical aggression, with poor judgment and insight, and that is significantly endangering to self or others.</li> <li>ii. Recent pattern of excessive substance use (co-occurring with a mental health diagnosis as indicated in target population definition above) resulting in clearly harmful behaviors with no demonstrated ability of individual or family to restrict use.</li> <li>iii. Clear and persistent inability, given developmental abilities, to maintain physical safety and/or use environment for safety.</li> </ol> </li> </ol> </li> <li>2. The clinical documentation supports the need for the safety and structure of treatment provided in a high level of care and the individual's behavioral health presentations are unmanageable as evidenced by both: <ol style="list-style-type: none"> <li>a. There is a documented history of multiple admissions to crisis stabilization units or psychiatric hospitals (in the past 6 months) and individual has not progressed sufficiently or has regressed; and two of the following: <ol style="list-style-type: none"> <li>i. Less restrictive or intensive levels of treatment have been tried and were unsuccessful, or are not appropriate to meet the individual's needs, AND</li> </ol> </li> </ol> </li> </ol> |

## Psychiatric Residential Treatment Facility (PRTF)

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                          | <ul style="list-style-type: none"> <li>ii. Past response to treatment has been minimal, even when treated at high levels of care for extended periods of time, or</li> <li>iii. Symptoms are persistent and functional ability shows no significant improvement despite extended treatment exposure.</li> </ul> <p>b. Individual and/or family has history of attempted, but unsuccessful follow through with elements of a Resiliency/Recovery Plan which had resulted in the exhibition of specific mental, behavioral or emotional behaviors that place the recipient at imminent risk for disruption of current living arrangement including:</p> <ul style="list-style-type: none"> <li>i. Lack of follow through taking prescribed medications,</li> <li>ii. Following a crisis plan, or</li> <li>iii. Maintaining family integration</li> </ul> <p>3. Additionally:</p> <ul style="list-style-type: none"> <li>a. Services must be certified in writing to be medically necessary; and</li> <li>b. Services must be reasonably expected to improve the recipient's condition or prevent further regression.</li> </ul>                                                                                               |
| Continuing Stay Criteria | <p>Individual has shown serious risk of harm due to Mental Health, Substance Use, or Co-Occurring presentations in the past ninety (90) days, as evidenced by the following:</p> <ul style="list-style-type: none"> <li>1. Some self-mutilation, risk taking or loss of impulse control resulting in danger to self or others, or</li> <li>2. Decreased daily functioning due to bizarre behavior, psychomotor agitation, or</li> <li>3. Disorientation or memory impairment due to mental health condition that endangers the welfare of self or others, or</li> <li>4. Notable impairment in social, interpersonal, occupational, educational functioning that leads to dangerous functioning, or</li> <li>5. Inability to maintain adequate nutrition or self-care with no support due to psychiatric condition, or</li> <li>6. Side effects of atypical complexity from psychotropic medication or lack of stabilization on psychotropic medication, or</li> <li>7. Persistent mood disturbance, with or without psychosis that indicates a risk of harm to self or others, or</li> <li>8. Some patterns of substance use resulting in risky or harmful behavior patterns with limited restriction capacity.</li> </ul> |
| Discharge Criteria       | <ul style="list-style-type: none"> <li>1. Individual has demonstrated a decrease in admission criteria behaviors over the past ninety (90) days. This decrease is clearly and sufficiently documented in case plans and/or medical records; and</li> <li>2. An adequate transition plan has been established; and</li> <li>3. One or more of the following: <ul style="list-style-type: none"> <li>a. Goals of Individualized Recovery Plan (IRP) have been substantially met and individual no longer meets continuing stay criteria; or</li> <li>b. Individual's family requests discharge and the individual is not imminently in danger of harm to self or others; or</li> <li>c. Transfer to another service is warranted by change in the individual's condition.</li> </ul> </li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Service Exclusions       | <ul style="list-style-type: none"> <li>1. Services must be provided before the individual reaches the age of twenty-one (21), or, if the individual was receiving services immediately before reaching age twenty-one (21), services must be concluded when the individual no longer requires service or by the age of twenty-two (22).</li> <li>2. The PRTF level of care is not a placement and should not be pursued for an individual who is simply in need of a place to live. Appropriate discharge from the PRTF level of care shall not be hindered by the need to locate adequate housing for the individual.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Clinical Exclusions      | <ul style="list-style-type: none"> <li>1. Individual does not meet medical necessity criteria.</li> <li>2. Individual does not present a risk of harm to self or others, or is able to care for his/her physical health and safety.</li> <li>3. Severity of clinical issues precludes provision of services at the PRTF Level of Care.</li> <li>4. Individuals with the following conditions are excluded from admission because the severity of cognitive impairment precludes provision of services in this level of care: <ul style="list-style-type: none"> <li>a. Severe and Profound Intellectual Developmental Disorder.</li> </ul> </li> <li>5. The following diagnoses are not considered to be a sole diagnosis for this service: <ul style="list-style-type: none"> <li>a. Personality Disorders.</li> </ul> </li> </ul>                                                                                                                                                                                                                                                                                                                                                                                         |

## Psychiatric Residential Treatment Facility (PRTF)

|                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|                     | <ol style="list-style-type: none"> <li>6. Individuals with the following conditions are excluded from admission unless there is clearly documented evidence that a psychiatric diagnosis is the foremost consideration for psychiatric intervention: <ol style="list-style-type: none"> <li>a. Organic Mental Disorder;</li> <li>b. Traumatic Brain Injury;</li> <li>c. Conduct Disorder;</li> <li>d. Mild Intellectual Developmental Disorder;</li> <li>e. Moderate Intellectual Developmental Disorder;</li> <li>f. Autism Spectrum Disorder</li> </ol> </li> <li>7. Behavioral health concerns must not include behaviors that are part of typical developmental processes or delinquent behaviors unrelated to a behavioral health diagnosis.</li> <li>8. Treatment within a PRTF should focus on <b>improving the individual's ability to function and build adaptive skills in community and home settings</b>, rather than on curing or treating the symptoms of IDD or ASD.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Required Components | <ol style="list-style-type: none"> <li>1. Enrollment is open to facilities that meet the following required components: <ol style="list-style-type: none"> <li>a. Accredited by The Joint Commission, the Commission on Accreditation of Rehabilitation Facilities (CARF), or the Council on Accreditation (COA);</li> <li>b. Licensed in the State of Georgia as a Residential Mental Health Facility for Children and Youth; AND</li> <li>c. Meet the federal requirements of Conditions of Participation for the use of restraint or seclusion (42 CFR part 483, subpart G, §483.350 through §483.376); and Inpatient Psychiatric Services for Individuals Under Age 21 in Psychiatric Facilities or Programs (42 CFR subpart D, §441.151 through §441.182).</li> </ol> </li> <li>2. Services must be provided under the direction of a physician.</li> <li>3. Services must involve active treatment and be certified by a Treatment Team.</li> <li>4. Services must be provided through an Individual Plan of Care, developed by an interdisciplinary team of physicians and other personnel. The team must include at minimum: <ol style="list-style-type: none"> <li>a. A Board-eligible or Board-certified psychiatrist OR a clinical psychologist who has a doctoral degree and a licensed physician; AND</li> <li>b. One of the following: a psychiatric social worker; a registered nurse with specialized training or one year of experience in treating mentally ill individuals, a licensed occupational therapist, or a psychologist who has a master's degree in clinical psychology. Other team members include educational staff, resident's therapist, appropriate direct care staff, parent/legal guardian.</li> </ol> </li> <li>5. Education must be provided onsite and comply with Georgia Quality Based Education (QBE) standards.</li> <li>6. The facility must attest in writing that the facility is in compliance with the Centers for Medicare and Medicaid Services' standards governing the use of restraint and seclusion.</li> <li>7. Each facility must have an Organizational Plan that addresses the following: <ol style="list-style-type: none"> <li>a. The population to be served, age groups and other limitations;</li> <li>b. Statement of purpose and objectives, with a formal, long-range plan adapted to guide and schedule steps leading to attainment of the stated objectives;</li> <li>c. Description of the services offered, including particular rehabilitation, resiliency models utilized, types of intervention practiced, and typical daily schedule for staff and residents;</li> <li>d. An organizational chart with a description of each unit or department and its services, its relationship to other services and departments and how these are to contribute to the priorities and goals of the facility;</li> <li>e. Description of the staffing pattern and how staff are deployed to assure that the required staff-to-resident ratios are maintained, including how unplanned staff absences, illnesses, or emergencies are accommodated, and how the case mix is managed;</li> <li>f. Description of how the plan for services is modified or adjusted to meet the needs specified in every Individualized Treatment/Resiliency Plan; and</li> <li>g. Plans for cooperation with other public and private agencies to assure that each individual will receive comprehensive treatment. Ongoing working arrangement contracts with agencies, such as schools and/or child welfare agencies, shall be included as indicated, as well as regularly planned inter-agency conferences, which shall be documented.</li> </ol> </li> </ol> |

## Psychiatric Residential Treatment Facility (PRTF)

8. Food service operations shall comply with current federal and state laws and rules.
9. Lateral Transfers for non-Georgia Families 360 Members:
  - a. Occasionally it is determined to be in the best interest of an individual to transfer from one PRTF to another. If the individual has already discharged from a PRTF, the PRTF cannot submit a request for a Lateral Transfer. The ASO conducts clinical reviews for lateral transfers of residents currently authorized for PRTF level of service.
  - b. Procedure for Lateral Transfer from one PRTF to another PRTF:
    - i. If the PRTF and/or legal custodian/guardian determine the individual is clinically appropriate for a PRTF lateral transfer to another PRTF, the Referring PRTF will submit a Lateral Transfer request to the ASO.
    - ii. The PRTF Provider submits to the ASO:
      1. The PRTF Referral Packet Cover Sheet indicating lateral transfer.
      2. Most recent Continued Stay Review.
      3. Most recent Psychiatric Note/Assessment (to include current diagnosis, current medications, current symptoms, and reason for transfer). The psychiatric note/assessment must be within thirty (30) days of the transfer submission date.
      4. Court order indicating DJJ Commitment, if applicable.
      5. Screen shot of Medicaid Portal for the individual showing type (if any) of Medicaid coverage.
    - iii. The PRTF transfer is logged into a database for ASO review. If the psychiatric note/assessment is missing or outside of expected time frames, the Referring PRTF will be contacted by the ASO within one (1) business day of the referral to provide the requested information. Once all documents are received by the ASO via fax, a Transfer Packet will be considered "complete" and eligible for clinical review.
    - iv. The ASO Care Manager will review the completed referral packet and will discuss the case with the ASO Continuing Stay Review reviewer. If necessary, the ASO Care Manager will make up to two (2) attempts to conduct a phone review with the Referral PRTF contact.
    - v. The ASO completes a clinical review of the packet within five (5) days from receipt of the completed referral packet to determine if the member meets PRTF Level of Care criteria.
      1. If the clinical team determines that there is sufficient clinical information to support PRTF Level of care, the ASO will obtain the previous PRTF Summary and update it with current clinical information, approval determination, and clinical rationale for the approval. The approval will be valid for thirty (30) days from the date of determination. The ASO sends the updated Referral Summary to the Referring PRTF, DBHDD State Office, and the DBHDD C&A Regional Program Specialist. The transfer from PRTF to PRTF will take place within thirty (30) days of approval. It is the responsibility of the Referring PRTF and legal custodian/guardian(s) to determine which PRTF would be most appropriate for the individual, to arrange admission, and to arrange transportation to the accepting PRTF.
        - a. The PRTF must complete Continued Stay Reviews for the individual until they are discharged from the PRTF.
        - b. The Referring PRTF will enter a discharge into the ASO Care Connection system within one (1) business day of the individual being discharged.
        - c. The Referring PRTF will forward the completed copy of the PRTF Continuing Stay Review form, Referral Summary, and Treatment Choice Form to the Accepting PRTF.
      2. If the clinical team determines that there is insufficient clinical information to support PRTF Level of care:
        - a. The ASO physician or designated clinician contacts the referring agency's clinician within one (1) business day to clarify and/or acquire further information.
        - b. The referring agency has two (2) business days to contact the ASO physician or designated clinician via phone or secured email to provide the additional information and/or documentation requested.
        - c. Within two (2) business days of acquiring the additional information and/or documentation, the ASO physician will make a final determination regarding whether the member meets PRTF Level of Care criteria.

|                     | <p>baccalaureate degree with seven (7) years of experience in child and adolescent mental health care with no less than three (3) years administrative experience. The Administrator cannot also serve as the clinical or medical director.</p> <ul style="list-style-type: none"> <li>b. CLINICAL or MEDICAL DIRECTOR who is a board-certified psychiatrist with experience in the delivery of child and adolescent mental health services. If the facility does not employ a full-time Clinical/Medical Director, there must be a full-time Service Coordinator who is a licensed clinical social worker, professional counselor, marriage and family therapist, or psychiatric nurse. If the designated Clinical/Medical Director does not work full-time in PRTF then he/she must lead a team of one or more board eligible or board-certified psychiatrists; the Clinical/Medical Director and team must collectively work at least forty (40) hours a week for the PRTF.</li> <li>c. LICENSED CLINICAL SOCIAL WORKER (LCSW), LICENSED PROFESSIONAL COUNSELOR (LPC), or LICENSED MARRIAGE &amp; FAMILY THERAPIST (LMFT) who has a Master's degree from an accredited college or university plus three (3) years supervised post license work in the practice of social work, therapeutic counseling, case management and/or coordination of social services; and are licensed by the Georgia Composite Board of Professional Counselors, Social Workers, and Marriage and Family Therapists.</li> <li>d. CERTIFIED ADDICTION COUNSELOR (CAC) Level II, who has a Bachelor's degree and at least 3 years experience in the practice of chemical dependency/abuse counseling; two hundred and seventy (270) hours education in addiction field, and 144 hours clinical supervision; and is certified by the Georgia Addiction Counselor's Association, OR LCSW, LPC, LMFT with documented experience of no less than three (3) years in substance abuse/addiction counseling.</li> <li>e. REGISTERED NURSE (RN) and LICENSED PRACTICAL NURSE (LPN). Clinical services and supervision must adhere to the appropriate state licensing and regulatory laws and requirements.</li> <li>f. NON-CLINICAL DIRECT SERVICE STAFF must be at least 21 years old, possess a high school diploma or GED. Preferred qualifications include one or more of the following: <ul style="list-style-type: none"> <li>i. Two years of experience working with children and adolescents with Serious Emotional Disturbance and/or co-occurring Substance Use disorders;</li> <li>ii. Two years of post-secondary education in a human service-related field and the study of child development.</li> </ul> </li> <li>g. Other professional and paraprofessional staff shall include, but not be limited to, appropriately licensed and/or certified educators, activity therapists, art therapists, and vocational counselors either on a regular basis or as consultants on a continuing basis.</li> <li>h. Educators must comply with Georgia Professional Standards Commission and the Department of Education certification requirements.</li> <li>i. Activity Therapists must be certified in therapeutic recreation and have one year experience working in a therapeutic program, or have a minimum of a Bachelor's degree from an accredited college or university in therapeutic recreation or related therapeutic discipline (music therapy, art therapy, horticultural therapy, etc.), or human services field and three years of experience working in a therapeutic program.</li> </ul> <p>Consultation shall be available as needed from dietitians, pharmacists, speech, hearing, and language specialists, and other therapeutic professionals.</p> <p>9. Staffing Ratios</p> <ul style="list-style-type: none"> <li>a. There must be sufficient full-time professional staff to provide clinical assessments, active therapeutic interventions and ongoing program evaluations, and to ensure sufficient supervision of all residents on a 24 hour a day basis. Staffing ratios must reflect the needs of the population served and should be increased when clinically appropriate and for safety. The following are minimum staffing ratios: <ul style="list-style-type: none"> <li>i. Day Staffing should include the aforementioned licensed or certified clinical staff and one (1) Full Time Equivalent (FTE) RN. There should be a 1:5 direct service staff to resident ratio, not including the RN. There must be a maximum ratio of not more than ten (10) individual's to one licensed clinical staff based on average daily attendance.</li> <li>ii. Night staffing while residents are asleep should include one (1) FTE RN and a 1: 8 direct service staff to resident ratio. When there are nine (9) or more residents an additional staff must be added exponentially. Staff must be awake at night.</li> <li>iii. Psychiatric coverage must be available 24 hours a day with a psychiatrist able to be on-site within one (1) hour. Nursing and psychiatric services must be available daily.</li> </ul> </li> </ul> |
| Clinical Operations | <p>1. For individuals with co-occurring diagnoses including Intellectual/Developmental Disabilities, this service must target the symptoms, manifestations, and skills development related to the identified behavioral health presentation.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Psychiatric Residential Treatment Facility (PRTF)

2. All individuals must have a completed clinical/functional assessment via a standardized assessment tool.
3. The program must provide an interdisciplinary psychotherapeutic treatment program on a 24-hour basis, seven (7) days a week. An interdisciplinary team under direction of a physician is responsible for treatment interventions.
4. Educational services must be provided onsite and comply with Georgia Quality Based Education (QBE) standards.
  - a. The facility must work closely with the appropriate school entity to ensure adherence to the individual's Individual Education Plan (IEP).
  - b. The facility must ensure a smooth transition back to the home school or develop an alternative transition plan for those individuals who are not returning to their home school.
5. Comprehensive multi-disciplinary assessments are begun within twenty-four (24) hours of admission and include assessments of individual's, family, community strengths and resources, and specific multi-modal treatment recommendations that target the specific factors that precipitated the admission. The assessment also includes comprehensive evaluations of the youth/transition age young adult's medical (including screening for health risk and current health conditions, as well as laboratory workups including routine blood work and urinalysis), psychological, social, behavioral, and developmental issues, including developmental milestones and course, family dynamics, current and past school issues, substance use/abuse issues, and a summary of prior treatment interventions including an assessment of their degree of success or failure.
6. Laboratory testing for individual's' prescribed psychotropic medications must be completed as clinically appropriate or indicated.
7. Services must involve active treatment, which means implementation of a professionally developed and supervised individual plan of care. Active treatment involves multidisciplinary observation; assessment and evaluation; diagnostic evaluation; interdisciplinary treatment planning; evaluation of treatment failures and appropriate revisions in the treatment plan; identification of discharge criterion and discharge planning; and aftercare needs assessment.
8. An individualized treatment/resiliency and discharge plan must be completed within seven (7) calendar days of admission. The plan must be signed by the individual, the parent/guardian for youth under the age of 18, and the therapist. The individualized treatment/resiliency plan must be provided under the direction of a physician and must incorporate the information gained from collateral contact with previous treatment providers. At a minimum, the treatment/resiliency plan must include goals, measurable treatment objectives, prescribe an integrated program of therapies and activities designed to meet the objectives, timeframes, and responsible parties. The treatment plan must address interventions which include stressor reducing, support enhancing, and symptom reducing interventions specifically targeted to aid the individual's return to a less restrictive level of care. The initial discharge plan must document which admission symptoms/behaviors are the focus of treatment and document potential post discharge resources.
9. The PRTF completes a CASII within seven (7) days of admission date, and every thirty (30) days thereafter.
10. An interdisciplinary team must review the treatment plan/discharge plan at least every thirty (30) calendar days to:
  - a. Determine that services being provided are, and continue to be, medically necessary, and
  - b. Recommend changes in the plan as indicated by the individual's overall adjustment.
  - c. Update and adjust the discharge plan to assure services are in place to meet the identified needs of the individual upon discharge and include parents/legal custodians, community partners, and others of pending discharge date if different from the previous plan.
11. The facility must actively and assertively engage the individual's family, legal custodian, or other natural supports in assessment, treatment plan development, treatment, and discharge planning. The family's involvement must be an integral part of the treatment/resiliency plan, unless clinically contraindicated. Evening and/or weekend services must be available to provide family access to programming. If contraindicated, there must be valid documentation.
12. The facility must involve all residents in community activities, organizations, and events.
13. The program must have clear procedures which specify its approach to positive behavior supports and positive behavioral intervention.
14. The program must have clear methods to deliver services to meet the basic needs of the individual in a manner as consistent with normal daily living as possible and create a home-like environment for all residents.
15. Services provided to individuals must include coordination with family and significant others and with other systems of care such as the school system, juvenile justice system, child welfare system, and anticipated community providers when appropriate to treatment and educational needs.
16. Services must be provided by staff who are proficient in working with the target population and with families as partners.
17. The program must have a policy and practice to ensure a coordinated plan of transition back to the community.

## Psychiatric Residential Treatment Facility (PRTF)

- |                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

|                       | <ol style="list-style-type: none"> <li>18. The PRTF must have policies that govern the provision of services and can document that it respects individuals' and/or families' right to privacy and confidentiality.</li> <li>19. The PRTF must have procedures/protocols for handling emergency and crisis situations for individuals who require psychiatric hospitalization.</li> <li>20. The PRTF must have an Organizational Plan that addresses the following: <ol style="list-style-type: none"> <li>a. Description and utilization of the rehabilitation, resiliency, and intervention modalities.</li> <li>b. Description of evidenced-based practices utilized, and methodology used to adjust the practices based on outcomes.</li> <li>c. Description of how the plan for services is modified or adjusted to meet the needs specified in every Individualized Treatment/Resiliency Plan.</li> <li>d. Description of how the facility monitors and promotes basic health and wellness.</li> <li>e. All requirements set forth in the Department of Behavioral Health and Developmental Disabilities Standards for Providers.</li> <li>f. All requirements set forth in the Department of Community Health's Rules and Regulations for Residential Mental Health Facilities for Children and Youth.</li> <li>g. Organizational chart indicating staffing positions and patterns.</li> </ol> </li> <li>21. During waking, non-school hours, residents shall be engaged in skill attainment, that is a result of the following activities: <ol style="list-style-type: none"> <li>a. Engagement Services and Activities, as evidenced by: <ol style="list-style-type: none"> <li>i. Engaging residents in purposeful, supportive, and helping relationships.</li> <li>ii. Eliciting the resident's and family's choices concerning basic needs, social and cultural norms, and leisure activities.</li> <li>iii. Understanding the resident's personal history including current and previous medication regimens.</li> <li>iv. Evaluating resident's and family's satisfaction with services and treatments for quality improvement.</li> </ol> </li> <li>b. Strengths assessment services and activities, as evidenced by: <ol style="list-style-type: none"> <li>i. Identifying and assessing the resident's needs, aspirations for the future, and the resources that are available to them and their family while considering the strengths, motivations, and capabilities the resident possesses.</li> <li>ii. Identifying and researching educational, vocational, and social resources available to the resident.</li> <li>iii. Identifying and researching the cultural factors that affect the resident's experiences with receiving treatment and other services. Understanding how these factors may have on the treatment process and how to use them to support treatment.</li> <li>iv. Identifying with the individual and family, health and behavioral health wellness challenges and strengths. Understanding how these factors may impact the treatment process and how to use them to support treatment.</li> <li>v. Goal-planning services and activities, as evidenced by: <ol style="list-style-type: none"> <li>1. Helping the resident identify, organize, and prioritize their goals and objectives regarding treatment, education, and community involvement.</li> <li>2. Assisting and supporting the resident in choosing and pursuing activities consistent with achieving their goals.</li> <li>3. Teaching the resident goal-setting, problem-solving, social, wellness, and self-management skills.</li> <li>4. Identifying and reducing critical stressors that negatively affect the resident by using interventions, coping strategies, and supportive resources.</li> <li>5. Developing relapse prevention and wellness strategies.</li> </ol> </li> <li>vi. Collaboration, as evidenced by: <ol style="list-style-type: none"> <li>1. Coordinating the treatment and supportive efforts for the residents with other agencies and Local Inter-agency Planning Teams, as appropriate.</li> <li>2. Preparing the resident throughout the course of treatment for discharge to his/her family and community.</li> </ol> </li> </ol> </li> <li>22. Services may continue to be provided to individuals who reach the age of 21 while in the PRTF as long as the individual was receiving the services immediately before reaching age 21 and all other continued stay criteria are met. Individuals must be discharged or transitioned to other appropriate adult services prior to age 22.</li> </ol> </li></ol> |
| Service Accessibility | <ol style="list-style-type: none"> <li>1. Each facility must provide interpreting services to a Limited English Proficient or Sensory Impaired (LEPSI) individual and/or LEPSI parent/legal guardian. Policy/procedures must be in place to ensure that interpretive services will be provided as required. Interpretive services must be provided at no cost to the youth/young adult/family and the PRTF cannot refuse services based on an individual's or parent/legal guardian's need for interpreting services.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Psychiatric Residential Treatment Facility (PRTF)

|                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                  | <p>2. Only qualified interpreters can interpret for a LEPSI individual. The minimum standard for a sign language interpreter is RID (Registry of Interpreters for the Deaf) Certified. Spoken language interpreters must have demonstrated competency as an interpreter in the language they are interpreting for. Bilingual staff cannot act as an interpreter, unless they have demonstrated competency as an interpreter. It is recommended, although not required, that the PRTF utilize a DBHDD approved language service vendor.</p> <ul style="list-style-type: none"> <li>a. When providing interpretive services, it is NOT permissible to: <ul style="list-style-type: none"> <li>i. Communicate via paper and pen during face-to-face contacts;</li> <li>ii. Use bilingual staff to act as an interpreter, unless they are qualified to do so; AND</li> <li>iii. Use family or friends to act as an interpreter.</li> </ul> </li> <li>b. If the parent/legal guardian refuses the right to free interpreting services, the PRTF must acquire a signed waiver from the parent/legal guardian stating as such and place it in the resident's record. The parent/legal guardian retains the right to revoke the waiver at any time.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Documentation Requirements       | <p>DBHDD requires that comprehensive and clinically appropriate records are maintained describing the treatment decisions and care for all individuals referred and/or admitted to PRTFs. The purpose of documentation is to provide a written, legal record of the course of treatment and the delivery of services. This guideline is available as a resource for PRTFs, but DBHDD makes no representation or warranty that compliance with the provisions of this guideline will ensure a provider's compliance with all applicable laws and regulations. Providers should seek their own legal counsel regarding compliance with laws and regulations on the subject matter this service guideline. Documentation provides evidence that:</p> <ul style="list-style-type: none"> <li>1. The individual's needs have been assessed, eligibility established, and needs prioritized;</li> <li>2. The medical necessity of the service is supported;</li> <li>3. Appropriate outcomes are identified and discharge criteria established;</li> <li>4. Appropriate treatment is planned;</li> <li>5. Appropriate interventions and services are selected;</li> <li>6. Evidence of individual participation, consent and response to treatment are present;</li> <li>7. There is evidence of monitoring of service provision, and progress towards desired outcomes;</li> <li>8. Evidence of reassessment(s) occurring on an ongoing and as needed basis is present;</li> <li>9. Evidence that services and treatment plans are amended, and changes are implemented to facilitate progress when needed;</li> <li>10. Clear evidence that the services billed are the services provided; and</li> <li>11. Evidence that methods used to deliver services to meet the basic needs of residents are in a manner consistent with normal daily living as much as possible.</li> </ul>                                                                                    |
| Billing & Reporting Requirements | <ul style="list-style-type: none"> <li>1. Authorization of Services <ul style="list-style-type: none"> <li>a. Many individuals served in a PRTF will have benefits through Medicaid; some of those benefits will be administered through a CMO. A small number of individual's in PRTF care will have private insurance with inpatient benefits. This guideline is not intended to provide any billing and benefits guidance for private insurance or for the CMO Medicaid benefits administered by private companies. The PRTF must consult those companies to verify benefits, request authorizations, and file claims.</li> <li>b. The ASO authorizes all requests for PRTF admission and continuing stay for individuals with non-CMO Medicaid, PeachCare for Kids members who are not enrolled in a CMO and Indigent/State Funds benefits.</li> <li>c. Most procedures covered in this section begin after the ASO has authorized a PRTF admission requested by a referring agency, often in the community. When the referring agency receives the admission authorization, the parent/legal guardian of the individual chooses the most appropriate PRTF for the individual. If the transition age young adult has no legal guardian, he/she will choose the PRTF. The referring agency then sends the ASO authorization and admission form to the chosen provider, and the work of verifying benefits, securing prior authorizations, and filing claims begins.</li> <li>d. In the course of authorization and claims activities for all but CMO Medicaid and private insurance, the PRTF may deal with three separate state agencies: the Departments of Human Services (Division of Family and Children Services), Juvenile Justice, and Behavioral Health and Developmental Disabilities, as each manage their own portion of State Funds and may authorize payment from those funds for PRTF services.</li> </ul> </li> <li>2. Reimbursement</li> </ul> |

## Psychiatric Residential Treatment Facility (PRTF)

- a. If an individual's benefits are through a CMO Medicaid or private insurance company, the PRTF will submit authorization requests and claims as directed by those companies. For non-CMO Medicaid or indigent state funded benefits, all authorization requests go to the ASO. The ASO transmits Prior Authorization (PA) information to Medicaid Payment Vendor and to the PRTF provider with the PA number for billing.
- b. To file any Medicaid claim, the PRTF submits the claim to Medicaid Payment Vendor via the Medicaid Web Portal.
- c. To file state fund claims, the PRTF sends the claim and a copy of the appropriate supporting documents to the department paying for the individual's care.
- d. Regardless of the unique details of filing a claim with the various benefit sources, there are some general guidelines that should be followed in filing all PRTF claims:
  - i. All billed services must have prior authorization.
  - ii. Reimbursement for PRTF services is based on a per diem rate. The reimbursement rate is based on an annual cost report submitted to the Department of Community Health.
  - iii. The PRTF provider may file claims for services provided on the date that the individual is admitted to the facility, but may not file for services provided on the date of discharge. A unit of a full day, midnight to midnight, is used to report days of care.
  - iv. Billing should occur at least monthly. One exception to that rule would be when a benefit source changes. In that event, submit the final bill for the previous source immediately. Seek authorization for admission and continuing stay from the new source before the effective date of the change, or as soon as the change is known. The PRTF will correct and finalize all billing and payment information. Correct billing and payment information must be submitted no later than ninety (90) days after date of service except at the end of the fiscal year billing. PRTF will abide by the date set by DHDD to submit and finalize end of the fiscal year billing.
  - v. Check the Medicaid Web Portal, <https://www.mmis.georgia.gov>, on the first business day of each month and print the screen that shows the individual's class of assistance through Medicaid. The PRTF is responsible for reimbursement to the appropriate payer in the event two benefit sources are billed for the same service. For example, on occasion, State Funds may pay for PRTF services during the time when the parent/legal guardian is applying for Medicaid on a individual's behalf, and the individual is uninsured. If the individual meets Medicaid eligibility criteria, benefits may begin retroactively. In this instance, Medicaid should be billed for the individual's services from the date of eligibility forward; and the PRTF must reimburse the payer for any services already paid during the period of Medicaid eligibility.
  - vi. If an individual has both Medicaid and private insurance benefits, private insurance must be billed until benefits are exhausted or denied; at that point, Medicaid may be billed for services if the individual is appropriately authorized.
  - vii. It is the responsibility of the PRTF to hold individuals and benefit sources accountable in resolving benefit coverage and payment issues, and pursuing the necessary recourse available if the benefit resources do not follow through on their responsibilities in a timely manner. A failure to resolve benefit coverage and payment issues may result in a loss of revenue, as state funds may not be an option for reimbursement. DBHDD state funds do not serve as a default payment resource.
  - viii. DBHDD is not responsible for paying deductibles and co-pays for individual with private insurance inpatient benefits.
- e. DBHDD is not responsible for the per diem cost when private insurance or CMO benefits are exhausted prior to admission and during an individual's stay in treatment.
- f. For state funded PRTF services, the individual must have no other means of paying for the service. The PRTF must work with the family/legal guardian towards accessing other financial benefits for the individual before billing DBHDD. If the transition age young adult has no guardian, the PRTF must work in assisting him/her towards accessing other financial benefits. This includes, but not limited to, maintaining/reinstating Medicaid, PeachCare for Kids, and utilizing any private insurance coverage.
- g. DBHDD is responsible for paying claims for uninsured individuals upon compliance with DBHDD's policy. It is rare that DBHDD will be responsible for the per diem cost for an uninsured DJJ committed individual, as many of the individual's committed to DJJ are being served in an out-of-home placement immediately prior to admission to PRTF, and will have Child Welfare/Foster Care Medicaid through Georgia Families 360. An individual committed to DJJ who is served in an out-of-home placement immediately prior to admission to PRTF may have Medicaid based on being in institution. DBHDD will assist the PRTF in determining if other uninsured individuals are eligible for Medicaid after admission to PRTF based on being in an institution.

## Psychiatric Residential Treatment Facility (PRTF)

- h. Parents or legal guardians of youth entering a PRTF without Medicaid or PeachCare for Kids coverage must actively engage in the application process in conjunction with PRTF staff, and track the eligibility determination to completion.
- 3. Exceptions
  - a. Application for Medicaid or PeachCare for Kids is NOT required for the following:
    - i. Individuals who do not meet citizenship or immigration requirements.
    - ii. Individual denied PeachCare for Kids due to excess income within the last sixty (60) days- documentation is required.
  - b. An uninsured claim is filed with DBHDD when a individual has no insurance benefits or when a individual has a private insurance that excludes inpatient treatment as a benefit.
    - i. A distinction should be made between uninsured status and an authorization and/or collection problem with a benefit source.
    - ii. If an individual has private insurance with inpatient benefits but the private insurance will not authorize admission or will not authorize continuing stay, the individual is not uninsured.
    - iii. The PRTF may appeal the private insurance decision, but if the decision stands, then the PRTF's options would be: refuse admission (or discharge if already admitted), assume responsibility for providing care without payment, or collect from the parent/legal guardian. State funds do not pay under these circumstances.
  - c. An individual may be uninsured for many reasons, some of which are temporary. The procedures for submitting claims in each case are indicated below.
    - i. For the uninsured individual with no Medicaid benefit, no private insurance, and no other financial resources:
      - 1. The referring community behavioral health provider must adhere to Requirements to Access DBHDD Funds for Child & Adolescent Behavioral Health Services, 01-106 if it has been working with the uninsured individual, however if the individual has no coverage at the time of admission to PRTF, proceed to ii.
      - 2. If the referring agency has indicated in the admission documents that the individual's benefit status remains "indigent/state funded," the referring agency will submit supporting documentation with the referral information to the ASO. The ASO notifies DBHDD PRTF Program Manager, and proceeds with the review.
      - 3. If the individual meets admission criteria, the ASO notifies the referring agency and the parent/legal guardian chooses a PRTF for the individual. The referring agency sends the referral documents and the admission form to the selected PRTF.
      - 4. The PRTF verifies the individual's lack of benefit prior to admission.
      - 5. At the time of admission, the PRTF checks the Medicaid Web Portal and prints the screen that indicates the individual is not covered by Medicaid. The PRTF secures the young adult with no legal guardian or parent/legal guardian's signature on the Agreement Regarding Admission to a Psychiatric Residential Treatment Facility for Parent/Legal Guardian (See the Psychiatric Residential Treatment Facility Manual, Attachment B). The PRTF Referral Summary Form (See the Psychiatric Residential Treatment Facility Manual, Attachment C) must be included with the packet. The PRTF must assist the parent or legal guardian in filling out the application and obtaining verification, such as proof of income and citizenship status, in order to complete the eligibility process.
      - 6. The PRTF must submit the Agreement Regarding Admission to a Psychiatric Residential Treatment Facility for parent/legal guardian (See the Psychiatric Residential Treatment Facility Manual, Attachment B) and the completed PRTF Referral Summary Form (See the Psychiatric Residential Treatment Facility Manual, Attachment C), to the DBHDD PRTF Program Manager or designee within five (5) business days of admission or lose all financial resources.
      - 7. The DBHDD PRTF Program Manager submits the packet to DCH and provides DJJ with a copy of the Agreement for committed youth.
    - ii. For the uninsured individual with private insurance but no inpatient treatment coverage:
      - 1. If the referring agency has indicated in the admission documents that the individual has private insurance, but does not have inpatient treatment coverage, the referring agency must send to the ASO an Explanation of Benefit (EOB), copy of insurance coverage, copy of insurance card, or other documentation from the insurance company. The ASO will notify and submit the documentation to the DBHDD PRTF Program Manager. If

## Psychiatric Residential Treatment Facility (PRTF)

- the documentation supports no inpatient coverage for the individual, DBHDD will request that the ASO proceed with the review for admission. If the documentation supports inpatient coverage, the ASO will notify the referring agency that no review will be conducted.
  2. If the individual meets admission criteria, the ASO notifies the referring agency, the parent/legal guardian chooses a PRTF for the youth/transition age young adult, and the referring agency submits the referral documents and the admission Form to the selected PRTF.
  3. The PRTF verifies the individual's benefit status at admission. The PRTF must secure documentation of the lack of benefits (EOB, letter from insurance company or other documentation of the insurance status).
  4. At the time of admission, the PRTF checks the Medicaid Web Portal and prints the screen that indicates the individual is not covered by Medicaid. The PRTF secures the transition age young adult with no legal guardian or parent/legal guardian's signature on the Agreement Regarding Admission to a Psychiatric Residential Treatment Facility for Parent/Legal Guardian (See the Psychiatric Residential Treatment Facility Manual, Attachment B). The PRTF Referral Summary Form (See the Psychiatric Residential Treatment Facility Manual, Attachment C) must be included with the packet. The PRTF must assist the parent or legal guardian in completing the Agreement Regarding Admission to a Psychiatric Residential Treatment Facility for Parent/Legal Guardian (See the Psychiatric Residential Treatment Facility Manual, Attachment B).
  5. The PRTF must submit the Agreement Regarding Admission to a Psychiatric Residential Treatment Facility for Parent/Legal Guardian (See the Psychiatric Residential Treatment Facility Manual, Attachment B) and the completed PRTF Referral Summary Form (See the Psychiatric Residential Treatment Facility Manual, Attachment C) to the PRTF Program Coordinator within five (5) business days of admission.
  6. The PRTF Program Manager submits the packet to DJJ, when applicable, with a copy of the agreement for committed youth.
4. Verifying Benefits on Admission
- a. As with any provider of health care services, verifying all information for treatment and reimbursement must be standard procedure for the PRTF. Verification and monitoring of benefits begins before admission and continues until after discharge when the final claim has been paid.
  - b. It is critical to the PRTF billing process to first verify the legal guardian (parent, other court-appointed guardian, or DFCS) and the DJJ commitment status of the individual. Apart from the clinical and legal reasons for verification, these factors influence the benefit source the individual will have. Prior to admission, the referring agency sends the PRTF provider of choice the PRTF Admission form and supporting documents. The PRTF Admission Form indicates the benefit source, parent/legal guardian and the legal status, if any, as ordered by a court.
  - c. To verify the benefit source, the Medicaid Management Information System (MMIS) is an essential tool. It should be checked the first business day of every month for every individual admitted. The youth's/transition age young adult's name will appear on the Medicaid web portal if he/she has ever had Medicaid benefits.
  - d. Note: It is the responsibility of the PRTF to verify benefits; the ASO does not check benefit eligibility.
  - e. Tables A-C: Authorization and Claims Guides by Benefit Source - the following information serves as a tool to verify benefits. Each table lists the possible benefit sources for each legal guardian/DJJ commitment situations. The last column of each table notes the expected MMIS status for each benefit source. Once the individual's benefit status is verified, the tables will be helpful in determining the authority for issuing authorizations and paying claims.
  - f. Below are guidelines for verifying benefits, legal guardian and DJJ commitment status on admission:
    - i. Upon receipt of the PRTF Admission Form, the PRTF must re-confirm with the referring agency the ASO admission authorization.
    - ii. The PRTF verifies benefit source, legal guardian, and DJJ commitment status on the PRTF Admission form with the legal guardian. The parent/legal guardian signs the Agreement Regarding Admission to a Psychiatric Residential Treatment Facility for Parent/Legal Guardian (See the Psychiatric Residential Treatment Facility Manual, Attachment B). A copy of the agreement must be submitted to the DBHDD PRTF Program Manager for all uninsured individuals.
    - iii. The PRTF must check for every youth's/transition age young adult's name on the MMIS.
    - iv. Check the data obtained from the above steps with the benefit sources and MMIS status listed in the tables below.
    - v. Resolve discrepancies with all involved.

## Psychiatric Residential Treatment Facility (PRTF)

- g. When all information is verified and the individual has been admitted, the PRTF informs the ASO of the individual's admission within one (1) business day by completing and entering the admission form into the ASO database.

Table A: Authorization and Claims Guide by Benefit Source for Individual in Parental Custody

| Benefit Source                                                        | Authorization to Admit | Authorization for Service | Claims Processing                        | MMIS Status |
|-----------------------------------------------------------------------|------------------------|---------------------------|------------------------------------------|-------------|
| Adoption Assistance (opt out of Georgia Families), or<br>SSI Medicaid | ASO                    | ASO                       | ACS                                      | Active      |
| Private insurance (PI)<br><u>With</u> in-patient benefit              | PI                     | PI                        | PI                                       | None        |
| Private insurance (PI)<br><u>Without</u> in-patient benefit           | ASO & DBHDD            | ASO                       | DBHDD                                    | None        |
| Uninsured/undocumented Individual                                     | ASO & DBHDD            | ASO                       | DBHDD                                    | None        |
| CMO<br>Medicaid/PeachCare                                             | CMO                    | CMO                       | CMO                                      | Active      |
| Private insurance (PI) with in-patient benefit and non-CMO Medicaid   | PI & ASO               | PI & ASO                  | PI until benefit exhausts or denies /ACS | Active      |

- h. When MMIS shows the individual as "active," it will also show the type of benefit the individual has, along with the beginning and ending dates of coverage. Check to assure that the benefit specified on MMIS is consistent with the table information.
- i. If MMIS indicates "active" status and CMO enrolled, the PRTF must follow the referral, authorization and claims process given by the CMO provider.
- j. If the individual's name is not listed in MMIS and they do not have private insurance, the benefit status is uninsured until and unless the individual is determined eligible for other benefits. The PRTF is required to follow the uninsured protocol by working with the parent/legal guardian to initiate an application for Medicaid eligibility on the individual's behalf. Some youth will not be eligible for Medicaid based on family's income, but may qualify for PeachCare for Kids, or SSI based on disability. If the individual is determined to be Medicaid eligible, the PRTF must secure or continue the authorization

## Psychiatric Residential Treatment Facility (PRTF)

- and file claims for services from the start date indicated on MMIS. The PRTF must reconcile or reimburse DBHDD for the claims paid after the start date of Medicaid eligibility.
- k. If the individual's name is not on MMIS and he or she has Private Insurance WITHOUT inpatient benefits, the individual's status is Uninsured until and unless the individual acquires another benefit source.
  - l. If the individual's name is not on MMIS and he or she has Private Insurance WITH inpatient benefits, the PRTF must check the level of benefit available. If inpatient benefits are available, PRTF must refer to the insurance company's verification, authorization and claims procedures. DBHDD will not be responsible for funding the youth's/transition age young adult's stay in PRTF.
  - m. If the individual's name on MMIS shows status as "inactive," the PRTF must ask the parent/legal guardian the reason for the inactive status and work with the parent/legal guardian to get the status re-activated if appropriate. The PRTF will not be reimbursed if the protocol to re-activate Medicaid is not followed. NOTE: There can be many reasons for the status to show inactive: the family may no longer meet the income criteria; the parent may not have submitted the required status report to the DFCS Medicaid Eligibility Specialist on time, etc. The PRTF will not be reimbursed for an individual's services when CMO Medicaid has been intentionally discontinued to access state funds.
  - n. If the individual's name is on MMIS showing "active" with a non-CMO Medicaid and the individual has private insurance with inpatient benefits, the PRTF must seek authorization from the private insurance and the ASO and bill the primary insurance first until benefits are exhausted, denied, or the individual is discharged. Upon receiving authorization from the ASO, the PRTF may admit the individual in the ASO database system and proceed with seeking continuing stay authorizations, but will not bill Medicaid until the private insurance benefits are exhausted or denied. By regulation, Medicaid is the secondary coverage and payer of last resort.

Table B: Authorization and Claims Guide by Benefit Source for Individual in DFCS Custody

| Benefit Source                                                                           | Authorization to Admit    | Authorization for Service | Claims Processing                                         | MMIS Status |
|------------------------------------------------------------------------------------------|---------------------------|---------------------------|-----------------------------------------------------------|-------------|
| Foster Care Medicaid                                                                     | Georgia Families 360      | Georgia Families 360      | Georgia Families 360                                      | Active      |
| Private insurance (PI) with in-patient benefit and Foster Care Medicaid                  | PI & Georgia Families 360 | PI & Georgia Families 360 | PI until benefit exhausts or denies /Georgia Families 360 | Active      |
| Uninsured on Admission<br><br>(PRTF monitors MMIS for change to Foster Care Medicaid)    | ASO & DBHDD               | ASO                       | DBHDD                                                     | None        |
| CMO Medicaid on Admission<br><br>(PRTF monitors MMIS for change to Foster Care Medicaid) | CMO                       | CMO                       | CMO                                                       | Active      |

- o. Individuals in DFCS Custody should have "active" status in Georgia Families 360, with the exception of an undocumented individual or a individual with income that qualifies for PeachCare for Kids
- p. If the individual's status is other than Georgia Families 360, the PRTF must verify with the DFCS Medicaid Eligibility Specialist that the change of status has been requested. When the status becomes "active" on MMIS as Foster Care Medicaid, the effective date should be the date the individual entered the care of DFCS and an application was submitted to the DFCS Medicaid Eligibility Specialist.

## Psychiatric Residential Treatment Facility (PRTF)

- q. If the individual's name is on MMIS showing "active" with Georgia Families 360 and the individual has private insurance with inpatient benefits, the PRTF must seek authorization from the private insurance and Georgia Families 360 and bill the private insurance first until benefits are exhausted, denied, or the individual is discharged. Upon receiving authorization from Georgia Families 360, the PRTF may admit the individual in the Georgia Families 360 database system and proceed with seeking continuing stay authorizations, but will not bill Medicaid until the private insurance benefits are exhausted or denied. By regulation, Medicaid is secondary coverage and payer of last resort.

Table C: Authorization and Claims Guide by Benefit Source for Youth/transition age young adult Committed to DJJ, Not in DFCS Custody

| Benefit Source                                                       | Authorization to Admit | Authorization for Service | Claims Processing    | MMIS Status |
|----------------------------------------------------------------------|------------------------|---------------------------|----------------------|-------------|
| CMO Medicaid                                                         | CMO                    | CMO                       | CMO                  | Active      |
| Adoption Assistance (opt out of Georgia Families 360)                | ASO                    | ASO                       | ACS                  | Active      |
| SSI                                                                  | ASO                    | ASO                       | ACS                  | Active      |
| Foster Care Medicaid                                                 | Georgia Families 360   | Georgia Families 360      | Georgia Families 360 | Active      |
| Private insurance (PI)                                               | PI                     | PI                        | PI                   | None        |
| <u>With in-patient benefit</u>                                       |                        |                           |                      |             |
| Uninsured/undocumented<br>Individual not found eligible for Medicaid | ASO & DJJ/DBHDD        | ASO                       | DBHDD                | None        |

- r. Individuals committed to DJJ remain in the custody of their legal guardian (parent/legal guardian, DFCS). If the legal guardian is DFCS, the individual will likely have Foster Care Medicaid/Georgia Families 360. If a DJJ committed individual has experienced an out of home placement before PRTF referral and admission, the individual may have Foster Care Medicaid/Georgia Families 360.
- s. When the MMIS shows the youth's/transition age young adult's status as "active," it will also show the type of benefit the individual has, along with the beginning and ending dates of coverage. Check to assure that the benefit specified on MMIS is consistent with the table information.
- t. If MMIS shows the youth's/transition age young adult's name as "active" and CMO enrolled, consult the CMO provider for verification, authorization and claims information.
- u. If the youth's/transition age young adult's name is not on MMIS and he/she does not have private insurance with inpatient benefits or any other coverage, the benefit status is uninsured until and unless the individual is determined eligible for other benefits. If the individual's circumstances indicate possible Medicaid eligibility, the PRTF must submit to the DBHDD PRTF Program Manager. A referral to DCH to determine eligibility will occur. If the individual is determined to be eligible for Medicaid or PeachCare for Kids, the PRTF must secure authorization and file claims for services from the start date indicated on MMIS.
- v. If the individual's status on MMIS is "inactive," the PRTF must ask the parent/legal guardian the reason for the inactive status and work with them to get the status re-activated if appropriate. NOTE: There can be many reasons for the status to show inactive: the family may no longer meet the income criteria; the parent may not have submitted the required status report on time to the DFCS Medicaid Eligibility Specialist assigned to DJJ. The PRTF claim may not be paid when CMO Medicaid has been intentionally discontinued to access state funds.

## Psychiatric Residential Treatment Facility (PRTF)

### 5. Monitoring Benefits After Admission

- a. Once verification of all information on admission is complete, it is important to establish a periodic monitoring process based on the specific, and sometimes unique, situation of each individual. Being alert to possible benefit changes requires the involvement of more than the financial staff. PRTF financial staff will likely know the limits and review periods attached to each benefit source after verifying benefits on admission. Clinical staff will likely be first to know of events in the individual's or family's life that can impact financial status, custody and/or DJJ commitment status, the factors influencing many of the benefits available to pay for PRTF services.
- b. There is no endpoint to monitoring benefits; it is an ongoing process as long as the individual is in PRTF care. Given that benefit sources can change with many factors, and can even change retroactively, ongoing monitoring after admission must occur minimally the first business day of each month. Should a youth lose benefits, the PRTF must notify DBHDD within two (2) business days, work with DBHDD to identify reasons for termination of Medicaid benefits and participate in a joint decision with DBHDD regarding reinstating Medicaid in the community.
- c. When an application for Medicaid and/or PeachCare for Kids has been submitted, monitoring of the application(s) is required. A determination of eligibility for Medicaid is required by DFCS within forty-five (45) days of submission of the application. A determination for PeachCare for Kids is required by DCH within ten (10) days of submission of all verification. The PRTF will check on the application status every fifteen (15) business days until a final determination has been made. A youth found ineligible due to income for Medicaid may still be eligible for PeachCare for Kids. If a denial for Medicaid coverage due to income is received from DFCS or Right from the Start Medicaid, an additional application to PeachCare for Kids must be made. PeachCare for Kids will do an automatic referral for youth potentially eligible for Medicaid through a referral with the Right from the Start Medicaid Unit. Procedural denials for not providing documentation needed to make an eligibility determination, whereabouts unknown, or expiration of certification periods, must reapply. Every effort must be made to facilitate missing information needed to make an eligibility determination. Continuation of DBHDD state funding is contingent upon obtaining a denial as outlined in the exceptions listed in this policy section. Reasons for denial of Medicaid and PeachCare for Kids benefits for youth who receive state funds after 60 days must be documented and reported to DBHDD.
- d. As the PRTF encounters unique benefit situations, the monitoring process and frequency will have to be tailored to the situation. One such situation is the age at which the individual may no longer be eligible for the current benefit. Some benefit sources may continue into adulthood with no aging out of eligibility; others may have an age at which eligibility terminates, but will continue the benefit temporarily until the individual's current treatment is completed. If an individual is covered by private insurance, the policy may offer the purchaser the right to extend coverage beyond the age at which the policy currently ends.
- e. The first response of the PRTF to the approaching end of a current benefit should be to explore the individual's eligibility for other benefit sources or a continuation of the current benefit. This would involve engaging the parent/legal guardian in possibly applying for another entitlement on the youth's/transition age young adult's behalf or, in the case of private insurance, paying for an extension of the current coverage.
- f. Section B of this service guideline describes the general guidelines for filing all claims and the procedure for a benefit source change. In the case of a benefit source change, it is necessary to seek authorizations from the new benefit source and submit a final bill to the first benefit source. For those individuals who have a change in fund source effective the first day of the month, such as CMO Medicaid to Foster Care, Adoption Assistance or SSI Medicaid and non-CMO PeachCare for Kids, a retro-authorization request may be considered. Requests must include a copy of the previous fund source authorization that indicates PRTF coverage to the end of the previous month and a "Print Screen" from MMIS dated the first business day of the month that indicates the change in status. For those individuals who have a change in fund source such as Private Insurance to Foster Care, Adoption Assistance/Georgia Families 360 or SSI Medicaid and non-CMO PeachCare for Kids, a retro-authorization request may be considered. Requests must include a copy of the previous fund source authorization that indicates the last date of PRTF coverage and a "Print Screen" from MMIS that indicates the eligibility.
- g. The importance of verifying and monitoring benefits regularly cannot be overstated. The PRTF can anticipate and manage most risks for financial loss by thoroughly understanding the benefit limits and by establishing a unique monitoring schedule for a individual approaching the benefit's stated cut-off age.

### 6. Transitional Funding When the Individual No Longer Meets Criteria for Continued Stay

- a. During the individual's stay, the PRTF bears the responsibility for keeping the parent/legal guardian, the referring agency and the community provider of choice engaged in treatment and discharge planning at each continuing stay review. In addition, if a individual is state funded, the PRTF must also involve the state funding agency in the process to update the individual's progress toward discharge. As the PRTF communicates with the authorization source at

## Psychiatric Residential Treatment Facility (PRTF)

- the time of reviews, there should be discussion of the individual's progress toward discharge so that the PRTF can anticipate the discharge date and prepare all parties involved for the individual's return to the community.
- b. When a tentative discharge date can reasonably be set, thirty (30) days prior to discharge the PRTF must notify the parent/legal guardian, the referring agency, the community provider, and the DBHDD OCYF Regional Program Specialist of the date so they can implement their planned work toward discharge. The earliest notification possible will make it more likely for the individual to be discharged into the conditions and with the services necessary to maintain stabilization. When the authorization source actually indicates that the individual no longer meets criteria for continuing stay, the discharge process will already have been partially implemented and can then be finalized.
  - c. If the PRTF meets these requirements, it will be rare when a individual remains in the PRTF without a continuing stay authorization. Discharge planning is a clinical function, but if discharge does not occur as planned, there is very little recourse for reimbursement for services provided without pre-authorization.
  - d. Below are guidelines and directives based on the individual's benefit source:
    - i. For individual's with CMO and primary insurance benefits:
      - 1. Consult CMO and primary insurance benefit procedures for recourse, if any, for discharge problems. Once the CMO or primary insurance company declares an individual's stay not medically necessary, there is no recourse for payment through state funds.
  - e. For non-CMO Medicaid funded and uninsured individuals:
    - i. Medicaid may cover a maximum of three (3) days for a period of transition with submission of continuing stay review and authorization. If DBHDD state funds were used during the uninsured individual's stay, DBHDD may cover a maximum of three (3) days, with submission of continuing stay review and authorization.
  - f. Procedures to apply for DBHDD 72 Hours Transitional Funds for non-CMO Medicaid and uninsured individuals:
    - i. DBHDD staff have been working with the PRTF to coordinate discharge with community supports for an individual. The PRTF should also be working with DFCS and/or DJJ if the uninsured individual is in DFCS custody and/or committed to DJJ. If, in spite of discharge planning, a individual remains in the PRTF without authorization, the PRTF will:
      - 1. For the non-CMO Medicaid individual:
        - a. Submit the continuing stay review information that outlines the medical necessity of the transitional days to the ASO. The continuing stay review must be submitted prior to the ASO's notification that the child has been denied continuing stay.
        - b. Immediately notify DBHDD PRTF Program Manager (phone or email) of the reasons for discharge not occurring as expected and the intent to submit a continuing stay review request to the ASO.
        - c. The ASO informs the PRTF if the additional 72 hours for the individual to remain in the facility will be granted. If granted, the services for the 72 hours will be billed to Medicaid for the non-CMO Medicaid individual or state funds for the uninsured individual.
  - g. For uninsured (DBHDD state funded) individuals:
    - i. Submit the continuing stay review information that outlines the medical necessity of the transitional days to the ASO. The continuing stay review must be submitted prior to the ASO's notification that the child has been denied continuing stay.
    - ii. Immediately notify the DBHDD PRTF Program Manager of the reason discharge will not occur as expected and the intent to submit information for a continuing stay review to the ASO.
    - iii. The ASO informs the PRTF and DBHDD PRTF Program Manager if the additional 72 hours for the individual to remain in the facility will be granted. If granted, the services for the 72 hours will be billed to DBHDD state funds.

### Additional Medicaid Requirements

All admissions must have a clinically significant disorder of thought, mood, or behavior, that is listed in the current edition of the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders (DSM).

**SECTION IV**  
**TABLE A: PRACTITIONER DETAIL**

Please see the next page for Practitioner Detail

Specific Service Guidelines include some detail about how practitioners are used in services; however, additional practitioner requirements are listed in Tables A-1, A-2, and B in this section.

**TABLE A-1: Service X Practitioner Table for Non-Intensive Outpatient Services**

|  |  |  |  |  |  |  |  |  |

## Practitioners Table Key/Superscript Explanation

- 1 With at least a bachelor's degree in one of the helping professions such as social work, community counseling, counseling, psychology, or criminology, functioning within the scope of the practice acts of the state.
- 2 With at least a bachelor's degree in one of the helping professions such as social work, community counseling, counseling, psychology, or criminology.
- 3 Addictions counselors may only perform these functions related to treatment of substance use disorders, including when there is a known or suspected co-occurring disorder.
- 4 With high school diploma/equivalent.
- 5 Under the documented supervision (organizational charts, supervisory notation, etc.) of one of the licensed/credentialed professionals who may provide this service.
- 6 Modifiers indicate services for which it is required to submit and document "U" levels; an "x" denotes services for which a "U" modifier is not required to submit an encounter.
- 7 With a Master's/Bachelor's degree in behavioral or social science that is primarily psychological in nature under the supervision of a licensed practitioner.
- 8 With high school diploma/equivalent under supervision of one of the licensed/credentialed professionals who may provide this service.
- 9 Working only within a Community Living Arrangement.
- 10 In conjunction with a psychologist.
- 11 Excludes LCSW/LPC/LMFT Supervisee/Trainees.
- 12 Under supervision of a Physician, Psychologist, LCSW, LPC, LMFT, RN, APRN, PA, LMSW, APC, or LAMFT.
- 13 LPNs who are "paraprofessionals" having completed the STR.
- 14 Please see the Community Requirements for full titles of practitioners.
- 15 Under supervision of a Physician, Psychologist, LCSW, LPC, LMFT, RN, APRN, PA, CAC-II, GCADC-II or -III, MAC, or CAADC.
- 16 Supervisee/Trainers are not able to bill Crisis Psychotherapy codes 90839.
- 17 While RNs may bill for the Individual modality of the service, they may not bill for the Group modality.
- 18 Information gathering only – See service guideline
- 19 Other professional services are billed unbundled as referenced in the service guideline.

See [Approved BH Practitioners Table](#) for more detail on the practitioners listed in this table.

**TABLE B:** Physicians<sup>1</sup>, Physician's Assistants and APRNs<sup>2</sup> may order any service. Please use the chart below to determine other appropriately licensed practitioner(s) authorized to recommend/order specific services.

| Ordering Practitioner Guidelines  |                                                                   | Licensed Psychologist | LPC, LMFT, LCSW |

## **PART II**

# ***Community Service Requirements for Behavioral Health Providers***

**Provider Manual for  
Community Behavioral Health Providers**

**Fiscal Year 2024**

## COMMUNITY SERVICE REQUIREMENTS FOR ALL PROVIDERS

### SECTION I: POLICIES AND PROCEDURES

#### 1. Guiding Principles

- A. Integration into community: Inclusion and community integration for both the provider and the individuals served is supported and evident.
  - i. Individuals have responsibilities in the community such as employment, volunteer activities, church and civic membership and participation, school attendance, and other age-appropriate activities
  - ii. The provider has community partnerships that demonstrate input and involvement by:
    - 1. Advocates;
    - 2. The person served;
    - 3. Families; and
    - 4. Business and community representatives.
  - iii. The provider makes known its role, functions and capacities to the community including other organizations as appropriate to its array of services, supports, and treatment as a basis for:
    - 1. Joint planning efforts;
    - 2. Continuity in cooperative service delivery, including the educational system;
    - 3. Provider networking;
    - 4. Referrals; and
    - 5. Sub-contracts.
  - iv. AD providers who receive SAPTBG funds shall publicize the availability of services and the preference extended to pregnant women through its outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community-based organizations, health care providers, and social service agencies. <sup>SAPTBG</sup>
  - v. Providers receiving SAPTBG grant dollars for treatment/support services for intravenous drug users must encourage the participation of such individuals through a strategy that reasonably can be expected to be an effective but, at a minimum, shall include:
    - 1. Selecting, training and supervising outreach workers;
    - 2. Contacting, communicating and following-up with individuals with substance use disorders, their associates, and neighborhood residents, within the constraints of Federal and State confidentiality requirements, including 42 C.F.R. Pt 2;
    - 3. Promoting awareness among individuals with substance use disorders about the relationship between intravenous drug use and communicable diseases such as HIV, and recommending steps to prevent disease transmission; and
    - 4. Encouraging entry into treatment. <sup>SAPTBG</sup>
  - vi. For agencies who provide any combination of Community Behavioral Health, Psychiatric Residential Treatment Facility (PRTF), and/or Room/Board/Watchful Oversight (RBWO) services, the agency must ensure appropriate distinctions between these programs to include but not limited to physical, financial, administrative, and programmatic separation. Additional guidance may be found in the PRTF Provider Manual.
- B. Access to individualized services.
  - i. Access to appropriate services, supports, and treatment is available regardless of, Age; Race, National Origin, Ethnicity; Gender; Religion; Social status; Physical disability; Mental disability; Gender identity; Sexual orientation.
  - ii. There are no barriers in accessing the services, supports, and treatment offered by the provider, including but not limited to:
    - 1. Geographic;
    - 2. Architectural;
    - 3. Communication:

- a. Language access is provided to individuals with limited English proficiency or who are sensory impaired;
  - b. All applicable DBHDD policies regarding Limited English Proficiency and Sensory Impairment are followed;
  - c. Individuals who identify as deaf, deaf-blind, or hard of hearing or who are suspected of having a hearing loss are referred to the Office of Deaf Services to receive a Communication Assessment to determine level of communication need for service access as in [Provider Procedures for Referral and Reporting of Individuals with Hearing Loss, 15-111](#).
4. Attitudinal;
  5. Procedural;
  6. Organizational scheduling or availability; and
  7. Services provided in school settings are allowable up to 3 hours/week (as a general rule), and the clinical record shall include documentation of partnership with the school.
    - a. When an exception to provide more than 3 hours/week is recommended by the ordering practitioner, it should be documented in the IRP and in a supporting administrative note to include evidence of clinical/access need (challenges with in-home or clinic access, recent discharge from inpatient hospitalization, PRTF, CSU, etc.).
    - b. The DBHDD wants youth to be successful in attaining their educational goals and, so, if a course of service is recommended in the IRP to occur during the youth's educational school day (not before or after school), an administrative note in the record should indicate a plan for minimizing school disruption and why the course of intervention occurs during school hours instead of before/after school, in the home, in clinic, or in other community settings. This documentation is not necessary when there is not a plan for regular school-day services and an unplanned intervention must occur to stabilize a behavioral health situation.
    - c. Youth receiving this service must never be taken out of the classroom for the convenience of the service provider.
    - d. DBHDD services and supports should not supplant but should complement what schools provide for support of a child based on the IEP.
  8. Providers that receive SAPTBG funds will treat the family as a unit and admit both women and their children into treatment/support services, if appropriate. Programs must provide, or arrange for the provision of, the following services to pregnant women and women with dependent children, including women who are attempting to regain custody of their children:
    - a. Primary medical care for women, including referral for prenatal care and, while the women are receiving services, childcare;
    - b. Primary pediatric care, including immunization, for their children;
    - c. Gender specific substance abuse treatment and other therapeutic interventions for women, which may address issues of relationships, sexual and physical abuse, parenting, and childcare;
    - d. Therapeutic interventions for children in custody of women in treatment which may address developmental needs, sexual and physical abuse and neglect; and
    - e. Sufficient case management and transportation to ensure access to services. <sup>SAPTBG</sup>
  9. Providers that receive SAPTBG funds provide individuals using intravenous drugs access to a treatment program not later than:
    - a. Fourteen (14) days after making the request for admission to a program; or
    - b. One hundred and twenty days after the date of such request, if:
      - i. No such program has the capacity to admit the individual on the date of such request, and
      - ii. Interim services, including referral for prenatal care, are made available to the individual not later than 48 hours after such request. <sup>SAPTBG</sup>
  10. Wellness of individuals is facilitated through:
    - a. Advocacy;
    - b. Individual service/treatment practices;
    - c. Education;
    - d. Sensitivity to issues affecting wellness including but not limited to:
      - i. Gender;
      - ii. Culture; and

- iii. Age.
  - e. Incorporation of wellness goals within the individual plan.
- 11. Sensitivity to individual's differences and preferences is evident.
- 12. Practices and activities that reduce stigma are implemented.
- 13. If services include provision in non-clinic settings, providers must have the ability to deliver services in various environments, such as homes, schools, homeless shelters, or street locations. Individuals/families may prefer to meet staff at community locations other than their homes or other conspicuous locations (e.g., their school, employer).
- 14. The organization must have policies that govern the provision of services in natural settings and can document that it respects youth and/or families' right to privacy and confidentiality.
- 15. Staff should be sensitive to and respectful of the individual's privacy/confidentiality rights and preferences to the greatest extent possible (e.g. if staff must meet with an individual during their school/work time, choosing inconspicuous times and locations to promote privacy), especially if staff drive a vehicle that is clearly marked as a state or agency vehicle, or if staff must identify themselves and their purpose to engage with the individual in a way that may potentially embarrass the individual or breach the individual's privacy/confidentiality.
- 16. **Telemedicine and telephonic interventions** may be used as a means to deliver person-centered services, in accordance with the following:
  - a. Definitions:
    - i. "Telemedicine" is the use of medical information exchanged from one secured site to another, via electronic communications, to improve a patient's health. Electronic communication means the use of interactive telecommunications equipment that includes, at a minimum, audio and video equipment permitting two-way, real time interactive communication between the patient, and the physician or practitioner at the distant site.
      - 1. Originating Site: The site where individuals are being served via telemedicine (i.e. this may be at their homes, in schools, in other community-based settings, or at more traditional service sites).
      - 2. Distance Site: The site where the practitioner providing the professional service is located at the time the service is provided via a telecommunications system.
    - ii. "Telephonic" is the use of medical information exchanged between one individual and another, via an audio-only communication exchange made by telephone.
    - iii. "Face-to-Face" (FTF) language is found throughout the BH Provider Manual, and is herein redefined to mean either "in-person" or "via the use of telemedicine technology," based upon the provider's clinical judgment in accordance with the criteria set forth in item "g" below. However, "Face-to-Face" is never inclusive of telephonic intervention.
  - b. The telemedicine connection must ensure HIPAA compliance related to Privacy and Security (employing authentication, access controls and encryption to allow for patient/client confidentiality, integrity and availability of their data). In addition to direct service interventions, any staff meetings, team meetings, or care coordination interventions in which an individual's PHI may be mentioned must be conducted via a HIPAA compliant platform.
  - c. **Consent to telemedicine:** All individuals served via telemedicine (DBHDD state-funded and Medicaid FFS) must sign a consent form, a copy of which must be placed in each individual's health record.
    - i. For Medicaid-covered individuals, the Department of Community Health (DCH) requires that the consent form include a description of the risks, benefits and consequences of telehealth. Providers may utilize a consent form other than the one appended to DCH's Telemedicine Policy; however, it must, at a minimum, contain the same requirements, standards and information listed on the member consent form in Appendix A of the DCH policy.

- ii. For individuals served using DBHDD state funds, providers may either use the DCH consent form, or create one containing the same information/components identified in c.i. above, as applicable.
- d. All individuals served via telephone (DBHDD state-funded and Medicaid FFS) must also sign a consent form, a copy of which must be placed in each individual's health record. Providers should either create a separate form containing the same applicable information/ components as is utilized in their telemedicine consent form or may combine the consents into a single form so long as consent to each modality (telemedicine vs. telephonic) is clearly delineated.
- e. Limits regarding telephonic service delivery may exist for certain services. Any such limits can be found in the Service Definition for the specific service in question (see Part I of this manual) and must be adhered to.
- f. Telephonic service delivery must adhere to the 2022 released guidance from the U.S. Department of Health and Human Services, Office for Civil Rights<sup>1</sup>.
- g. The use of telemedicine or telephonic service delivery should never be driven by the practitioner's or agency's convenience or preference. Telemedicine and telephonic service delivery should only be deployed based on sound clinical judgement, and with documented consideration of the following:
  - i. The nature and complexity of the service, and of the particular service intervention(s) to be implemented;
  - ii. The individual's needs and preferences;
  - iii. The individual's current clinical presentation and life circumstances (e.g. symptom type and acuity, risk of harm, a significantly stressful and recent life event, etc.);
  - iv. The individual's access to, and comfort with technology;
  - v. The individual's ability to have private and confidential conversations/interactions with the provider;
  - vi. Safety of the individual's home environment or other environment where the individual is receiving services;
  - vii. The potential for viable strategies to address any of the above, as well as any other barriers that may exist.
  - viii. Frequent re-evaluations of telemedicine/telephonic service delivery in consideration of the above, and any other factors that may impact the feasibility of these service delivery modalities.
- h. To promote access, providers may use Telemedicine as a tool to provide direct interventions to individuals for whom English is not their first language. Examples of this include:
  - the use of one-to-one service intervention via Telemedicine; by connecting the individual to a practitioner who speaks the individual's language (i.e. rather than using an interpreter); and/or
  - the use of an interpreter via Telemedicine (i.e. as a third party) to support the practitioner in delivering the identified service to an individual.
- i. Provider agencies must have a written policy that addresses all of the above sub-items listed under item 16. *Telemedicine and telephonic interventions*. This policy must address implementation plans/protocols, including internal staff training, documentation in the individual's health record (including the expected frequency of re-evaluations regarding telemedicine/ telephonic modality appropriateness), self-evaluation measures, and internal record review procedures.
- j. Requirements for documentation in the individual's health record: For each service encounter where telemedicine or telephonic interventions were used, the accompanying progress note must clearly state the specific mode of service delivery and denote the physical location of the individual at the time of service.

<sup>1</sup> US Department of Health and Human Services, Office for Civil Rights. (June 13, 2022). [Guidance on How the HIPAA Rules Permit Covered Health Care Providers and Health Plans to Use Remote Communication](#)

- k. Providers may deliver telemedicine and/or telephonic interventions to an individual who permanently resides and is typically served within the provider's catchment/service area (i.e. an established client), but who is temporarily located outside the provider's DBHDD-approved catchment/service area (e.g. because of travel, vacation, etc.).
- l. **Use of modifiers for telemedicine:** Until further notice, providers should continue to use the GT modifier (if it is available for a given service) to denote the use of telemedicine to deliver a service that allows its use (see specific Service Definition). If the GT modifier is not available for a service, providers should continue to denote the use of telemedicine by using either the Place of Service (POS) code 02 or 10.
- m. **Use of modifiers for telephonic intervention:** The GT modifier should not be used for telephonic contacts. In situations where a service allows for telephonic contacts, but there is not a UK modifier available as an option, providers should use the base code for the service and use the typical modifiers that would have been used if the contact had been face-to-face and in-clinic. In that event, the progress note must then explicitly state the modality used (i.e. telephonic) in order to make it clear that the contact was not in-person.

17. Interactions with individuals demonstrate respect, careful listening, and are positive and supportive.

## 2. Required Business Practices and Policies

- A. Program requirements, compliance, and structure:
  - i. Applicable statutory requirements, rules, regulations, licensing, accreditation, and contractual/agreement requirements are evident in organizational policies, procedures and practices. In the event that the above requirements and standards are more stringent than these requirements, providers shall defer to those requirements which are most stringent.
- B. Providers receiving MHBG funds must comply with Public Law 102-321, Section 1912 and applicable code sections at <http://www.samhsa.gov/>. MHBG Funds cannot be spent to:
  - i. Provide inpatient services;
  - ii. Make cash payments to the intended recipients of health services;
  - iii. To purchase or improve land; purchase or construct or permanently improve (other than minor remodeling) any building or other facility; or purchase major medical equipment;
  - iv. To satisfy any requirement for expenditure of non-federal funds as a condition for the receipt of federal funds; and
  - v. To provide financial assistance to any entity other than a public or non-profit private entity.
- C. Providers receiving SATBG funds must comply with 45 CFR 96 Rules and Regulations at <http://www.samhsa.gov/>.  
SATBG
  - i. The provider shall adhere to companion requirements as published by the Department of Community Health regarding behavioral health services and facilities;
  - ii. The provider shall adhere to supplementary requirements as published by the Administrative Services Organization:
    - 1. Organizations must update their contact information on the Georgia Collaborative ASO's website as required;
    - 2. For all services, a provider must request a Registration for an individual to whom services/supports will be provided.
    - 3. Authorization requests must be submitted for those services identified as requiring such authorization;
    - 4. Providers have 48 hours from initial contact to submit Registrations (exceptions being crisis and acute services);
    - 5. Providers have 48 hours from initial contact to submit the Authorization (exceptions being crisis and acute services).

6. Claims are required to be submitted to the ASO within ninety (90) days from the date of service delivery. For those providers who are approved Fee-for-Service providers, delivering named Fee-for-Service services, claims are reimbursed by the DBHDD through the ASO.
  - iii. The provider clearly describes available services, supports, and treatment.
- D. The provider has a description of the services that have been approved by DBHDD and DCH along with the support, care and treatment provided which includes a description of:
- i. The population served;
  - ii. How the provider plans to strategically address the needs of those served; and
  - iii. Services available to potential and current individuals.
- E. The provider has internal structures that support good business practices.
- i. There are clearly stated current policies and procedures for all aspects of the operation of the organization;
  - ii. Policies and corresponding procedures direct the practice of the organization; and
  - iii. Staff is trained in organization policies and procedures.
  - iv. There is a formal code of conduct for the organization to formally communicate moral behavioral standards for the organization's staff and guidelines for ethical decision making.
- F. The provider details the desired expectation of the services, supports, and treatment offered and the outcomes for each of these services.
- i. The level and intensity of services, support, and treatment offered is:
    1. Within the scope of the organization;
    2. According to benchmarked practices; and
    3. Timely as required by individual need.
- G. The provider has administrative and clinical structures that are clear and that support individual services.
- i. Administrative and clinical structures promote unambiguous relationships and responsibilities.
  - ii. The provider bills in accordance with payer policies, and when an individual has questions regarding billing/fees, the provider offers assistance to the individual in understanding the explanation of benefits and/or billing statement.
- H. The program description identifies staff to individual served ratios for each service offered:
- i. Ratios reflect the needs of individuals served, implementation of behavioral procedures, best practice guidelines and safety considerations.
- I. Policies, procedures and practice describe processes for referral of the individual based on ongoing assessment of individual need:
- i. Internally to different programs or staff; or
  - ii. Externally to services, supports, and treatment not available within the organization including, but not limited to healthcare for:
    1. Routine assessment such as annual physical examinations;
    2. Chronic medical issues (Specific to AD providers, if tuberculosis or HIV are identified medical issues, services such as diagnostic testing, counseling, etc. must be made available within the provider or through referrals to other appropriate entities [although these services are not required as a condition of receiving treatment services for substance abuse, and are undertaken voluntarily and with the informed consent of the individual <sup>SAPTBG</sup>);
    3. Ongoing psychiatric issues;
    4. Acute and emergent medical and/or psychiatric needs;
    5. Diagnostic testing such as psychological testing or labs; and
    6. Dental services.
- J. Upon request and in keeping with standard release of information expectations, when other DBHDD provider agencies and/or supporting healthcare entities are involved in the treatment and support of an individual, providers

are expected to reciprocally collaborate and coordinate with these other providers/entities as needed. This effort must be conducted in a timely and sufficient manner so as to ensure the continuity, coordination, and efficacy of care received by the individual from all involved healthcare professionals.

- K. In the event that the SAPTBG provider has insufficient capacity to serve any pregnant woman seeking AD treatment, the provider will refer the woman to the DBHDD. <sup>SAPTBG</sup>
- L. In the event that the SAPTBG provider has insufficient capacity to serve any individual using intravenous drugs who is seeking AD treatment, the provider shall establish a system for reporting unmet demand to the DBHDD.
  - i. The provider, upon reaching 90 percent of service capacity, must notify the DBHDD within seven days.
  - ii. A waiting list shall use a unique patient identifier for each individual using injected drugs who is seeking treatment, including those receiving interim services while awaiting admission to such treatment. The reporting system shall ensure that individuals who cannot be placed in comprehensive treatment within 14 days receive ongoing contact and appropriate interim services while awaiting admission. <sup>SAPTBG</sup>
- M. Quality Improvement and Risk Management: Quality Improvement Processes and Management of Risk to Individuals, Staff and Others is a Priority.
  - i. There is a well-defined quality improvement plan for assessing and improving organizational quality. The provider is able to demonstrate how:
    - 1. Issues are identified;
    - 2. Solutions are implemented;
    - 3. New or additional issues are identified and managed on an ongoing basis;
    - 4. Internal structures minimize risks for individuals and staff;
    - 5. Processes used for assessing and improving organizational quality are identified; and
    - 6. The quality improvement plan is reviewed/updated at a minimum annually and this review is documented.
  - ii. Indicators of performance are in place for assessing and improving organizational quality. The provider is able to demonstrate:
    - 1. The indicators of performance established for each issue:
      - a. The method of routine data collection;
      - b. The method of routine measurement;
      - c. The method of routine evaluation;
      - d. Target goals/expectations for each indicator; and
      - e. Outcome Measurements determined and reviewed for each indicator on a quarterly basis.
    - 2. Distribution of Quality Improvement findings on a quarterly basis to:
      - a. Individuals served or their representatives as indicated;
      - b. Organizational staff;
      - c. The governing body; and
      - d. Other stakeholders as determined by the governance authority.
    - 3. At least five percent (5%) of the records of persons served are reviewed each quarter. Records of individuals who are “at risk” are included. Record reviews must be kept for a period of at least two years.
    - 4. Reviews include determinations that:
      - a. The record is organized, complete, accurate, and timely;
      - b. Services are based on assessment and need;
      - c. Individuals have choices;
      - d. There is documentation of service delivery including individuals' responses to services and progress toward IRP goals;
      - e. There is documentation of health service delivery;
      - f. Medication management and delivery is occurring, including the use of PRN /OTC medications; and their effectiveness; and
      - g. Approaches implemented for individuals with challenging behaviors are addressed as specified in the *Guidelines for Supporting Adults with Challenging Behaviors in Community Settings*. ([www.dbhdd.georgia.gov](http://www.dbhdd.georgia.gov)).

5. Appropriate utilization of human resources is assessed, including but not limited to:
  - a. Competency;
  - b. Qualifications;
  - c. Numbers and types of staff required based on the services, supports, treatment, and needs of persons served; and
  - d. Staff to individual ratios.
6. The provider has a governance or advisory board made up of citizens, local business providers, individuals and family members. The Board:
  - a. Meets at least semi-annually;
  - b. Reviews items such as but not limited to:
    - i. Policies;
    - ii. Risk management reports;
    - iii. Budgetary issues; and
    - iv. Provides objective guidance to the organization.
7. The provider's practice of cultural diversity competency is evident by:
  - a. Staff articulating an understanding of the social, cultural, religious and other needs and differences unique to the individual;
    - i. That such articulation, respect, and inclusion of cultural diversity will include Deaf Culture.
    - ii. Staff honoring these differences and preferences (such as worship or dietary preferences) in the daily services/treatment of the individual; and
    - iii. The inclusion of cultural competency in Quality Improvement processes.
8. There is a written budget which includes expenses and revenue that serves as a plan for managing resources. Utilization of fiscal resources is assessed in Quality Improvement processes and/or by the Board of Directors.
9. Areas of risk to individuals served and to the provider are identified based on services, supports, or treatment offered including, but not limited to:
  - i. Incidents: There is evidence that incidents are reported to the Office of Incident Management as required by:
    - a. [Reporting Deaths and Other Incidents in Community Services, 04-106](#); and
    - b. [Investigating Deaths and Other Incidents in Community Services, 04-118](#).
  - ii. Accidents;
  - iii. Complaints;
  - iv. Grievances;
  - v. Individual rights violations including breaches of confidentiality;
  - vi. There is documented evidence that any restrictive interventions utilized must be reviewed by the provider's Rights Committee;
  - vii. Practices that limit freedom of choice or movement;
  - viii. Medication management; and
  - ix. Infection control preventive measures (specifically, AD providers address tuberculosis and HIV <sup>SAPTBG</sup>) to minimize risk of infectious disease transmission.
10. The provider participates in DBHDD consumer satisfaction and perception of care surveys for all identified populations. Providers are expected to make their facilities and individuals served accessible to teams who gather the survey responses (e.g., the *Georgia Mental Health Consumer Network*).

### 3. Consumer Rights

#### A. Rights and Responsibilities

- i. All individuals are informed about their rights and responsibilities:
  1. At the onset of services, supports, and treatment;
  2. At least annually during services;
  3. Through information that is readily available, well prepared and written/signed (e.g. American Sign Language) using language accessible and understandable to the individual; and
  4. Evidenced by the individual's or legal guardian signature on notification.
- ii. The provider has policies and promotes practices that:

1. Do not discriminate;
  2. Promote receiving equitable supports from the provider;
  3. Provide services, supports, and treatment in the least restrictive environment;
  4. Emphasize using the least restrictive interventions;
  5. Incorporate Clients Rights or Patient's Rights Rules found at, [www.dbhdd.ga.gov](http://www.dbhdd.ga.gov) as applicable to the provider; and
  6. Delineates the rights and responsibilities of persons served.
- iii. In policy and practice, the provider makes it clear that under no circumstances will the following occur:
1. Threats (overt or implied);
  2. Corporal punishment;
  3. Fear-eliciting procedures;
  4. Abuse or neglect of any kind;
  5. Withholding nutrition or nutritional care;
  6. Withholding any basic necessity such as clothing, shelter, rest or sleep; or
  7. Withholding services due to hearing status or communication fluency.
- iv. For all community-based programs, practices promulgated by DBHDD or the Rules and Regulations for Clients Rights, Chapter 290-4-9 are incorporated into the treatment of individuals served.
- v. For all crisis stabilization units serving adults, children or youth, practices promulgated by DBHDD or the Rules and Regulations for Patients' Rights, Chapter 290-4-6 are incorporated into the treatment of adults, children and youth served in crisis stabilization units.
- vi. For all programs serving individuals with substance use and abuse issues, in addition to practices promulgated by DBHDD or the Rules and Regulations for Clients Rights, Chapter 290-4-9, confidentiality procedures for substance abuse; individual records comply with 42 CFR, Part 2, Confidentiality of Alcohol and Drug Abuse Patient Records, Final Rule (June 9, 1987), or subsequent revisions thereof.

#### B. Grievances

- i. Grievance, complaint and appeals of internal and external policies and processes are clearly written in language accessible to individuals served and are promulgated and consistent with all applicable DBHDD policies regarding *Complaints and Grievances* regarding community services. Notice of procedures is provided to individuals, staff and other interested parties, and providers maintain records of all complaints and grievances and the resolutions of same.

#### C. Safety Interventions

- i. Providers must work with each enrolled individual to develop, document, and implement, as needed, a crisis/safety plan.
- ii. Providers must have a process in place to provide after-hours accessibility and have the ability to respond, face-to-face as clinically indicated, to crisis and unsafe situations that occur with enrolled individuals in a timely manner per the contact/agreement with DBHDD. The Georgia Crisis and Access Line (GCAL) are not to be used as the safety plan or after hour's access for enrolled individuals. However, providers may utilize GCAL in order to gain access to higher levels of care (e.g., Crisis Stabilization Units, other inpatient services, etc.) or facilitate coordination with Georgia Emergency Management Agency services (i.e. 911).
- iii. The organization must have established procedures/protocols for handling emergency and crisis situations that describe methods for supporting individuals/youth as they transition to and from psychiatric hospitalization.
- iv. In policy, procedures, and practice, the provider makes it clear whether and under what circumstances the following restrictive interventions can be implemented based on the service(s) provided by the provider and licensure requirements. In all cases, federal and state laws and rules are followed and include but are not limited to the following:
  1. Use of adaptive supportive devices or medical protective devices;
    - a. May be used in any service, support, and treatment environment; and
    - b. Use is defined by a physician's order (order not to exceed six calendar months).
    - c. Written order to include rationale and instructions for the use of the device.
    - d. Authorized in the individual resiliency/recovery plan (IRP).
    - e. Are used for medical and/or protective reason (s) and not for behavior control.

2. Time out (used only in co-occurring DD or C&A services):
  - a. Under no circumstance is egress restricted;
  - b. Time out periods must be brief, not to exceed 15 minutes;
  - c. Procedure for time-out utilization incorporated in behavior plan; and
  - d. Reason justification and implementation for time out utilization documented.
3. Personal restraint (also known as manual hold or manual restraint): The application of physical force, without the use of any device, for the purpose of restricting the free movement of a person's body;
  - a. May be used in all community settings except residential settings licensed as Personal Care Homes;
  - b. Circumstances of use must represent an emergency safety intervention of last resort affecting the safety of the individual or of others;
  - c. Brief handholding (less than 10 seconds) support for the purpose of providing safe crossing, safety or stabilization does not constitute a personal hold;
  - d. If permitted, personal restraint (ten seconds or more), shall not exceed five (5) minutes and this intervention is documented; and
  - e. For an individual who is deaf, deaf-blind, or hard of hearing who primarily communicates in sign language, the restraint must allow some movement of hands and fingers for communication access. Hearing assistive technology shall only be removed when it presents an immediate safety issue and shall be returned as soon as the safety issue is resolved.
4. Physical restraint (also known as mechanical restraint): A device attached or adjacent to the individual's body that one cannot easily remove and that restricts freedom of movement or normal access to one's body or body parts.
  - a. Prohibited in community settings **except** in community programs designated as crisis stabilization units for adults, children or youth;
  - b. Circumstances of use in behavioral health, crisis stabilization units must represent an emergency safety intervention of last resort affecting the safety of the individual or of others;
  - c. For an individual who is deaf, deaf-blind, or hard of hearing who primarily communicates in sign language, the restraint must allow some movement of hands and fingers for communication access. Hearing assistive technology shall only be removed when it presents an immediate safety issue and shall be returned as soon as the safety issue is resolved.
5. Seclusion: The involuntary confinement of an individual alone in a room or in any area of a room where the individual is prevented from leaving, regardless of the purpose of the confinement. The practice of "restrictive time-out" (RTO) is seclusion and may not be utilized except in compliance with the requirement related to seclusion. The phrase "prevented from leaving" includes not only the use of a locked door, but also the use of physical or verbal control to prevent the individual from leaving.
  - a. Seclusion may be used in the community **only** in programs designated as crisis stabilization programs for adults, children or adolescents;
  - b. Circumstances of use in behavioral health crisis stabilization programs must represent an emergency safety intervention of last resort affecting the safety of the individual or of others; and
  - c. It is not permitted in developmental disabilities services.
6. **Chemical restraint may never be used under any circumstance.** Chemical restraint is defined as a medication or drug that is:
  - a. Not a standard treatment for the individual's medical or psychiatric condition;
  - b. Used to control behavior; and
  - c. Used to restrict the individual's freedom of movement.
7. Examples of chemical restraint are the following:
  - a. The use of over-the-counter medications such as Benadryl for the purpose of decreasing an individual's activity level during regular waking hours; and
  - b. The use of an antipsychotic medication for a person who is not psychotic but simply 'pacing' or mildly agitated.
8. PRN antipsychotic and mood stabilizer medications for behavior control are not permitted. See Part II, Section 1; Appendix 1 for list of medications.

- D. Confidentiality: The provider maintains a system of information management that protects individual information and that is secure, organized and confidential.
- i. All individuals determine how their right to confidentiality will be addressed, including but not limited to:
    1. Whom they wish to be informed about their services, supports, and treatment;
    2. Collateral information. When collateral information is gathered, information about the individual **may not be shared** with the person giving the collateral information unless the individual being served has given specific written consent.
  - ii. The provider has clear policies, procedures, and practices that support secure, organized and confidential management of information, to include individual electronic records if applicable.
  - iii. Maintenance and transfer of both written and spoken information is addressed:
    1. Personal individual information;
    2. Billing information; and
    3. All service-related information.
  - iv. The provider has a Confidentiality and HIPAA Privacy policy that clearly addresses state and federal confidentiality laws and regulations. The provider has a Notice of Privacy Practices that gives the individual adequate notice of the provider's policies and practices regarding use and disclosure of their Protected Health Information. The notice must contain mandatory elements required by the Health Insurance Portability and Accountability Act of 1996 (HIPAA, Title II). In addition, the provider must address:
    1. HIPAA Privacy Rules, as outlined at 45 CFR Parts 160 and 164 are specifically reviewed with staff and individuals;
    2. Appointment of the Privacy Officer;
    3. Training to be provided to all staff;
    4. Posting of the Notice of Privacy Practices in a prominent place;
    5. Maintenance of the individual's signed acknowledgement of receipt of Privacy Notice in their record.
  - v. A record of all disclosures of Protected Health Information (PHI) must be kept in the medical record, so that the provider can provide an accounting of disclosures to the individual for 6 years from the current date. The record must include:
    1. Date of disclosure;
    2. Name of entity or person who received the PHI;
    3. A brief description of the PHI disclosed;
    4. A copy of any written request for disclosure; and
    5. Written authorization from the individual or legal guardian to disclose PHI, where applicable.
  - vi. Confidentiality policies include procedures for substance abuse; individual records comply with 42 CFR Part 2, Confidentiality of Alcohol and Drug Abuse Patient Records.
  - vii. Authorization for release of information is obtained when PHI of an individual is to be released or shared between organizations or with others outside the organization. All applicable DBHDD policies and procedures and HIPAA Privacy Rules (45 CFR parts 160 and 164) related to disclosure and authorization of PHI are followed. Information contained in each release of information must include:
    1. Specific information to be released or obtained;
    2. The purpose for the authorization for release of information;
    3. To whom the information may be released or given;
    4. The time period that the release authorization remains in effect (reasonable based on the topic of information, generally not to exceed a year); and,
    5. A statement that authorization may be revoked at any time by the individual, to the extent that the provider has not already acted upon the authorization.
  - viii. Exceptions to use of an authorization for release of information are clear in policy:
    1. Disclosure may be made if required or permitted by law;
    2. Disclosure is authorized as a valid exception to the law;
    3. A valid court order or subpoena are required for behavioral health records;
    4. A valid court order and subpoena are required for substance use disorder-related records;
    5. When required to share individual information with the DBHDD or any provider under contract or agreement with the DBHDD for the purpose of meeting obligations to the department; or

6. In the case of an emergency treatment situation as determined by the individual's physician, the chief clinical officer can release PHI to the treating physician or psychologist.
  - ix. The provider has written operational procedures consistent with legal and DBHDD requirements governing the retention, maintenance, and purging of records. These procedures must address the following requirements:
    1. Records must be safely secured, maintained, and retained for a minimum of six (6) years from the date of their creation or the date when last in effect (whichever is later); and
    2. In the event of a provider's closure, adherence to [Maintenance of Records for Closed Providers, 04-117](#) and
    3. Protocols for the disposal of records after the specified retention period; or in the event of a provider closure, subsequent to the provider's adherence to [Maintenance of Records for Closed Providers, 04-117](#).
  - x. The provider has written policy, protocols and documented practice of how information in the record is transferred when an individual transition to another provider, to include but not be limited to:
    1. A complete certified copy of the record to the provider who will assume service provision, which includes the individual's PHI and service-related information such as current medical orders, medications, and IRP/behavior plans, as deemed necessary for continuity of care and treatment;
    2. In addition, unused Special Medical Supplies (SMS), funds, personal belongings, burial accounts; and
    3. The time frames by which transfer of documents and personal belongings will be completed.
- E. Funds Management: The personal funds of an individual are managed by the individual and are protected.
- i. Policies and clear accountability practices regarding individuals' valuables and finances comply with all applicable DBHDD policies and Social Security Guide for Organizational and/or Representative Payees regarding management of personal needs spending accounts for individuals served.
  - ii. Providers are encouraged to utilize persons outside the organization to serve as "representative payee" such as, but not limited to:
    1. Family.
    2. Another person of significance to the individual.
    3. Other persons in the community who are not associated with the provider.
  - iii. The provider is able to demonstrate documented effort to secure a qualified, independent party to manage the individual's valuables and finances when the person served is unable to manage funds and there is no other person in the life of the individual who is able to assist in the management of individual valuables or funds.
  - ix. Individual funds cannot be co-mingled with the provider's funds or other individuals' funds.
- F. Research: The provider policy must state explicitly, in writing, whether or not research is conducted on individuals served by the provider.
- i. The provider shall follow DBHDD policies surrounding research including, but not limited to [Submission, Approval, and Oversight of Research Projects using DBHDD Datasets, 25-102](#) and [Research, Protection of Human Subjects, and Institutional Review Board \(IRB\), 25-101](#).
  - ii. The provider using unusual medication and investigational experimental drugs shall be considered to be doing research.
    1. Policies and procedures governing the use of unusual medications and unusual investigational and experimental drugs shall be in place;
    2. Policies, procedures, and guidelines for research promulgated by the DCH Institutional Review Board shall be followed;
    3. The research design shall be approved and supervised by a physician;
    4. Information on the drugs used shall be maintained including:
      - a. Drug dosage forms;
      - b. Dosage range;
      - c. Storage requirements;
      - d. Adverse reactions; and
      - e. Usage and contraindications.

5. Pharmacological training about the drug(s) shall be provided to nurses who administer the medications; and
6. Drugs utilized shall be properly labeled.

G. Faith Based Organizations

- i. Individuals or recipients of services are informed about the following issues relative to faith or denominationally based organizations:
  1. Its religious character;
  2. The individual's freedom not to engage in religious activities;
  3. The individual's right to receive services from an alternative provider;
    - a. The provider shall, within a reasonable time-period after the date of such objection, refer the individual to an alternative provider.
- ii. If the provider provides employment that is associated with religious criteria, the individual must be informed.
- iii. In no case may federal or state funds be used to support any inherently religious activities, such as but not limited to religious instruction or proselytizing.
- iv. Providers may use space in their facilities to provide services, supports, and treatment without removing religious art, icons, scriptures or other symbols.
- v. In all cases, rules found at 42 CFR Parts 54, 54a and 45 CFR Parts 96, 260 and 1050 *Charitable Choice Provisions and Regulations: Final Rules* shall apply.

**4. Service Environment: The Service Environment Demonstrates Respect for the Persons Served and is Appropriate to the Services Provided.**

- A. Services are provided in an appropriate environment that is respectful of persons served. The environment is:
  - i. Clean;
  - ii. Age appropriate;
  - iii. Accessible (individuals who need assistance with ambulation shall be provided bedrooms that have access to a ground level exit to the outside or have access to exits with easily negotiable ramps or accessible lifts. The site shall provide at least two (2) exits, remote from each other that are accessible to the individuals served);
  - iv. Individual's rooms are personalized; and
  - v. Adequately lighted, ventilated, and temperature controlled.
- B. Children seventeen (17) and younger may not be served with adults unless the children are residing with their parents or legal guardians in residential programs such as the Ready for Work program.
  - i. Emancipated minors may be served with adults when their life circumstances demonstrate they are more appropriately served in an adult environment.
  - ii. Situations representing exceptions to this Requirement must have written documentation from the DBHDD Regional Field Office. Exceptions must demonstrate that it would be disruptive to the living configuration and relationships to disturb the 'family' make-up of those living together.
- C. There is sufficient space, equipment and privacy to accommodate:
  - i. Accessibility;
  - ii. Safety of persons served and their families or others;
  - iii. Waiting;
  - iv. Telephone use for incoming and outgoing calls that is accessible and maintained in working order for persons served or supported;
    1. Individuals who are deaf, deaf-blind, or hard of hearing shall have access to telecommunication equipment to communicate with those outside the service location.
  - v. Provision of identified services and supports.
- D. The environment is safe:
  - i. All local and state ordinances are addressed;

1. Copies of inspection reports are available;
  2. Licenses or certificates are current and available as required by the site or the service.
- E. There is evidence of compliance with state and county of residence fire and life safety codes for the following:
- i. Installation of fire alarm system meets safety code (and is both audio and visual in nature);
  - ii. Each residential setting is required to have carbon monoxide detectors when natural gas, heating oil, or a wood burning fireplace is used.
  - iii. Fire drills are conducted for individuals and staff<sup>1</sup>:
    1. Once a month at alternating times;
    2. Once annually for BH administrative or sites open one shift per day;
    3. Twice a year during sleeping hours if residential services;
    4. All fire drills shall be documented with staffing involved; and
    5. DBHDD maintains the right to require an immediate demonstration of a fire drill during any on-site visit.
- F. Policies, plans and procedures are in place that addresses emergency evacuation, relocation preparedness and Disaster Response. Supplies needed for emergency evacuation are maintained in a readily accessible manner, including individuals' information, family contact information and current copies of physician's orders for all individual's medications.
- i. Plans include detailed information regarding evacuating, transporting, and relocating individuals that coordinate with the local Emergency Management Agency and at a minimum address:
    1. Medical emergencies;
    2. Missing persons;
      - a. Georgia's Mattie's Call Act provides for an alert system when an individual with developmental disabilities, dementia, or other cognitive impairment is missing. Law requires residences licensed as Personal Care Homes to notify law enforcement within 30 minutes of discovering a missing individual.
    3. Natural disasters known to occur, such as tornadoes, snowstorms or floods;
    4. Power failures;
    5. Continuity of medical care as required;
    6. Notifications to families or designees; and
    7. Continuity of Operation Planning to include identifying locations and providing a signed agreement where individuals will be relocated temporarily in case of damage to the site where services are provided (for more information: <http://www.georgiadisaster.info/>).
    8. CSUs are required to plan for common medically required special diets when planning emergency food supplies.
  - ii. Emergency preparedness notice and plans are:
    1. Reviewed annually;
    2. Tested at least quarterly for emergencies that occur locally on a less frequent basis such as, but not limited to flood, tornado or hurricane;
    3. Drilled with more frequency if there is a greater potential for the emergency.
- G. Providers must comply with federal Public Law 103-227 which requires that smoking not be permitted in any portion of any indoor facility owned, leased, or contracted by the provider and used routinely or regularly for the provision of health care for youth under the age of 18. MHBG, SAPTBG
- H. Residential living support service options;
- i. Are integrated and established within residential neighborhoods;
  - ii. Are single family units;
  - iii. Have space for informal gatherings;

<sup>1</sup> Please note: Separate fire drill policies and requirements may exist for agencies/sites that provide services to individuals other than those identified in this Manual. Should the agency or site be regulated by additional policies or accreditation, providers must conform to those that are the most stringent. For example, should a site provide both Behavioral Health and Developmental Disability services, the provider must ensure compliance with both DBHDD Developmental Disabilities standards in addition to meeting the requirements outlined above.

- iv. Have personal space and privacy for persons supported;
  - v. Are understood to be the “home” of the person supported or served.
  - vi. Providers who serve individuals who are deaf, deaf-blind, or hard of hearing shall have an appropriate visual alert system for front door, bedroom, and bathroom;
  - vii. Establish temperature parameters (34 to 40 degrees Fahrenheit) for the safe storage of food.
  - viii. Must maintain an emergency water supply to include at least one gallon of water per person per day for 3 days in the event of a disaster;
  - ix. Each residence is required to have fire extinguishers on each level of the residence and in the basement, if applicable.
- I. Video cameras may be used in common areas of programs that are not personal residences such as Crisis Stabilization Units where visualization of blind areas is necessary for an individual's safety. Cameras **may not be used** in the following instances:
- i. In an individual's personal residence;
  - ii. In lieu of staff presence; or
  - iii. In the bedroom of individuals.
- J. There are policies, procedures, and practices for transportation of persons supported or served in residential services and in programs that require movement of persons served from place to place.
- i. Policies and procedures apply to all vehicles used, including:
    - 1. Those owned or leased by the provider;
    - 2. Those owned or leased by subcontractors; and
    - 3. Use of personal vehicles of staff.
  - ii. Policies and procedures include, but are not limited to:
    - 1. Authenticating licenses of drivers, proof of insurance, and routine vehicle maintenance;
    - 2. Requirements for evidence of driver training;
    - 3. Safe transport of persons served;
    - 4. Requirements for maintaining attendance of person served while in vehicles;
    - 5. Safe use of lift;
    - 6. Availability of first aid kits;
    - 7. Fire suppression equipment; and
    - 8. Emergency preparedness.
- K. Access is promoted at service sites deemed as intake, assessment or crisis programs through:
- i. Clearly labeled exterior signs; and
  - ii. Other means of direction to service and support locations as appropriate.
- L. Community services (other than Community Transition Planning) may **not** be provided in an Institution for Mental Diseases (IMD, e.g., state or private psychiatric hospital, psychiatric residential treatment facility or Crisis Stabilization Unit with greater than 16 beds), jail, youth development center (YDC) or prison system.
- M. Services may not be provided and billed for individuals who are involuntarily detained in Regional Youth Detention Centers (RYDCs) awaiting criminal proceedings, penal dispositions, or other involuntary detainment proceedings. Any exception to this requires supporting documentation from the DJJ partners. The provider holds the risk for assuring the youth's eligibility.

## 5. Infection Control: Practices are Evident in Service Settings.

- A. The provider, at a minimum, has a basic Infection Control Plan that includes the following:
- i. Standard Precautions;
  - ii. Hand washing protocols;
  - iii. Guidelines for the proper disposal of biohazards, such as needles, lancets, scissors, tweezers, and other sharp instruments; and

- iv. Management of common illness likely to be emergent in the particular service setting.
  - v. A protocol for notifying the Regional Field Office if contagious illness/disease circulation impacts service delivery/capacity.
- B. In the event of any contagious illness/disease circulation in the community, providers should follow all current Centers for Disease Control (CDC) guidance.
  - C. The provider has effective cleaning and maintenance procedures sufficient to maintain a sanitary and comfortable environment that prevents the development and transmission of infection.
  - D. The provider adheres to policies and procedures for controlling and preventing infections in the service setting. Staff is trained and monitored to ensure infection control policies and procedures are followed.
  - E. All staff adheres to standard precautions and follows the provider's written policies and procedures in infection control techniques.
  - F. The provider's infection control plan is reviewed annually for effectiveness and revision, if necessary.
  - G. The provider has available the quantity of bed linens and towels, etc. essential for the proper care of individuals at all times. These items are washed, stored, and transported in a manner that prevents the spread of infection.
  - H. Routine laundering of an individual's clothing and personal items is done separately from the belongings of other individuals.
  - I. Procedures for the prevention of infestation by insects, rodents or pests shall be maintained and conducted continually to protect the health of individuals served.
  - J. The provider ensures that an individual's personal hygiene items, such as toothbrushes, hairbrushes, razors, nail clippers, etc., are maintained separately and in a sanitary condition.
  - K. Any pets living in the service setting must be in compliance with local, state, and federal requirements.

**6. Medications: Providers having Oversight for Medication or that Administer Medication Follow Federal and State Laws, Rules, Regulations and Best Practice Guidelines.**

- A. A copy of the physician (s) order or current prescription dated/signed within the past year is placed in the individual's record for every medication administered or self-administered with supervision. These include:
  - i. Regular, on-going medications;
  - ii. Controlled substances;
  - iii. Over-the-counter medications;
  - iv. PRN (when needed) medications; or
  - v. Discontinuance order.
- B. A valid physician's order must contain:
  - i. The individual's name;
  - ii. The name of the medication;
  - iii. The dose;
  - iv. The route;
  - v. The frequency;
  - vi. Special instructions, if needed; and
  - vii. The physician's signature.
  - viii. A copy of the Medical Office Visit Record with the highlighted physician's medication order may also be kept as documentation.

- C. The order for and administration of medication must be completed by members of the medical staff pursuant to the Medical Practice Act of 2009, Subsection 43-34-23 Delegation of Authority to Nurse and Physician Assistant and must be administered by licensed or credentialed\* medical personnel under the supervision of a physician or registered nurse in accordance with O.C.G.A.
- D. The provider has written policies, procedures, and practices for all aspects of medication management including, but not limited to:
- i. Prescribing: requires the comparison of the physician's medication prescription to the label on the drug container and to the Medication Administration Record (MAR) to ensure they are all the same before each medication is administered or supervised self-administration is done.
  - ii. Ordering: describes the process by which medication orders are filled by a pharmacy.
  - iii. Authenticating orders describes the required time frame for actual or faxed physician's signature on telephone or verbal orders accepted by a licensed nurse.
  - iv. Procuring medication and refills: procuring initial prescription medication and over-the-counter drugs within twenty-four hours of prescription receipt, and refills before twenty-four hours of the exhaustion of current drug supply.
  - v. Labeling: includes the Rights of Medication Administration.
  - vi. Storing: includes prescribed medications, floor stock drugs, refrigerated drugs, and controlled substances.
  - vii. Security: signing out a dose for an individual, and at a minimum, a daily inventory for controlled medications and floor stock medications; and daily temperature logs for locked, refrigerated medications are required.
  - viii. Storage, inventory, dispensing and labeling of sample medications requires documented accountability of these substances at all stages of possession.
  - ix. Dispensing: Describes the process allowed for pharmacists and/or physicians only. Includes the verification of the individual's medications from other agencies and provides a documentation log with the pharmacist's or physician's signature and date when the drug was verified.
  - x. Supervision of individual self-administration includes all steps in the process from verifying the physician's medication order to documentation and observation of the individual for the medication's effects. Makes clear that staff members may not administer medications unless licensed to do so, and the methods staff members may use to supervise or assist, such as via hand-over-hand technique, when an individual self-administers his/her medications.
  - xi. Administration of medications includes all aspects of the process to be done from verifying the physician's medication order, to who can administer the medications, to documentation and observation of the individual for the medication's effects. Administration of medications may be done only by those who are licensed in this state to do so.
  - xii. Recording: Includes the guidelines for documentation of all aspects of medication management. This includes adding and discontinuing medication, charting scheduled and as needed medications, observations regarding the effects of drugs, refused and missing doses, making corrections, and a legend for recording. The legend includes initials, signature, and title of staff member.
  - xiii. Disposal of discontinued or out-of-date medication includes an environmentally friendly method or disposal by pharmacy.
  - xiv. Education to the individual and family (as desired by the individual) regarding all medications prescribed and documentation of the education provided in the clinical record.
  - xv. All PRN or "as needed" medications will be accessible for each individual as per his/her prescriber(s) order(s) and as defined in the individuals' IRP. Additionally, the provider must have written protocols and documented practice that ensures safe and timely accessibility that includes, at a minimum, how medication will be stored, secured or need refrigeration when transported to different programs and home visits.
- E. Organizational policy, procedures and documented practices stipulate that:
- i. Medical conditions are assessed, monitored, and recorded. This includes but is not limited to situations in which:
    1. Medication or other ongoing health interventions are required;
    2. Chronic or confounding health factors are present;

3. Medications prescribed as part of DBHDD services that are associated with the development of medication-induced diabetes, hypertension, cardiovascular disease, and/or movement disorders;
4. Allergies or adverse reactions to medications have occurred; or
5. Withdrawal from a substance is an issue.
- ii. In homes licensed as Community Living Arrangements (CLA)/Personal Care Homes (PCH), staff may administer medications in accordance with CLA Rules 290-9-37.01 through .25 and PCH Rules 111-8-62.01 through .25.
- iii. Only physicians or pharmacists may re-package or dispense medications.
  1. This includes the re-packaging of medications into containers such as “day minders” and medications that are sent with the individual when the individual is away from his residence.
  2. Note that an individual capable of independent self-administration of medication may be coached in setting up their personal “day minder.”
- iv. There are safeguards utilized for medications known to have substantial risk or undesirable effects, including but not limited to:
  1. Storage;
  2. Handling;
  3. Ensuring appropriate lab testing or assessment tools accompany the use of the medication; and
  4. Obtaining and maintaining copies of appropriate lab testing and assessment tools that accompany the use of the medications prescribed from the individual’s physician for the individual’s clinical record, or at a minimum, documenting in the clinical record the requests for the copies of these tests and assessments; and follow-up appointments with the individual’s physician(s) for any further actions needed.
- v. Education regarding the risks and benefits of the medication is documented and explained in language the individual can understand. Medication education provided by the provider’s staff must be documented in the clinical record. Informed consent for the medication is the responsibility of the physician; however, the provider obtains and maintains copies of these informed consent documents, or at a minimum, documents its request for copies of these in the clinical record.
- vi. Where medications are self-administered, protocols are defined for training to support individual self-administration of medication.
- vii. Staff is educated regarding:
  1. Medications taken by individuals, including the benefits and risk;
  2. Monitoring and supervision of individual self-administration of medications;
  3. The individual’s right to refuse medication; and
  4. Documentation of medication requirements.
- viii. There are protocols for the handling of licit and illicit drugs brought into the service setting. This includes confiscating, reporting, documenting, educating, and appropriate discarding of the substances.
- ix. Requirements for safe storage of medication are as required by law includes:
  1. Single and double locks,
  2. Shift counting of the medications,
  3. Individual dose sign-out recording,
  4. Documented planned destruction,
  5. Refrigeration and daily temperature logs with temperature parameters set at 36 to 41 degrees Fahrenheit for the safe storage of medications.
- x. The provider defines requirements for timely notification to the prescribing professional regarding:
  1. Drug reactions;
  2. Medication problems;
  3. Medication errors; and
  4. Refusal of medication by the individual.
- xi. When the provider allows verbal orders from physicians, those orders will be authenticated:
  1. Within 72 hours by fax with the physician’s signature on the page (including electronic signature); and
  2. The fax must be maintained in the individual’s record;
- xii. There are practices for regular and ongoing physician review of prescribed medications including, but not limited to:
  1. Appropriateness of the medication;
  2. Documented need for continued use of the medication;

3. Monitoring of the presence of medication-induced side effects consistent with best practice outlined by the American Psychiatric Association. Individuals on medications likely to cause tardive dyskinesia are monitored at a minimum of every 12 months using an Abnormal Involuntary Movement Scale (AIMS testing);
  4. Ordering specific monitoring and treatment protocols for weight gain/loss, diabetes, hypertension, cardiac disease, and kidney or liver dysfunction, especially related to medications prescribed;
  5. Monitoring of therapeutic blood levels, if required by medications such as Lithium, Dilantin, and Depakote;
  6. Writing medication protocols for specific individuals in homes licensed as Community Living Arrangements or Personal Care Homes for identified staff members to administer:
    - a. Epinephrine for anaphylactic reaction;
    - b. Insulin required for diabetes;
    - c. Suppositories for ameliorating serious seizure activity; and
    - d. Medications through a nebulizer under conditions described in the Community Living Arrangement Rule 290-9-37-.20 (2).
  7. Monitoring of other associated laboratory studies.
- xiii. For providers that secure their medications from retail pharmacy and/or employ a licensed pharmacist, there is a biennial assessment of agency practice of management of medications **at all sites housing medications**. A licensed pharmacist or licensed registered nurse conducts the assessment. The report shall include, but may not be limited to:
1. A written report of findings, including corrections required;
  2. A photocopy of the license of the pharmacist and/or registered nurse; and
  3. A statement of attestation from the licensed pharmacist or licensed Registered Nurse that all issues have been corrected.
- xiv. For providers that conduct any laboratory testing on-site, documented evidence is provided that the provider's Clinical Laboratory Improvement Amendment (CLIA) Waiver is current. Refer to the list of waived tests updated April 15, 2010 on the Centers for Medicaid and Medicare Services website.
- F. The "Eight Rights" for medication administration are defined with detailed guidelines for staff to implement within the organization to verify that right:
- i. Right person: includes the use of at least two identifiers and verification of the physician's medication order with the label on the prescription drug container and the MAR entry to ensure that all are the same every time before a medication is taken via self-administration or administered by a licensed staff member.
  - ii. Right medication: includes verification of the medication order with the label on the prescription drug container and the MAR entry to verify that all are the same every time before a medication is taken via self-administration or administered by a licensed staff member. The medication is inspected for expiration date. Insulin must be verified with another person prior to administration.
  - iii. Right time: includes the times the provider schedules medications, or the specific physician's instructions related to the drug.
  - iv. Right dose: includes verification of the physician's medication order of dosage amount of the medication; with the label on the prescription drug container and the Medication Administration Record entry to ensure that all are the same every time before a medication is taken via self-administration or administered by a licensed staff member. The amount of the medication should make sense as to the volume of liquid or number of tablets to be taken.
  - v. Right route: includes the method of administration.
  - vi. Right position: includes the correct anatomical position; individual should be assisted to assume the correct position for the medication method or route to ensure its proper effect, instillation, and retention.
  - vii. Right documentation includes proper methods of the recording on the MAR; and
  - viii. Right to refuse medications: includes staff responsibilities to encourage compliance, document the refusal, and report the refusal to the administration, nurse administrator, and physician.
- G. A Medication Administration Record (MAR) is in place for each calendar month that an individual take or receives medication(s):

- i. Documentation of routine, ongoing medications occur in one discreet portion of the MAR and include but may not be limited to:
  1. Documentation by calendar month that is sequential according to the days of the month;
  2. A listing of all medications taken or administered during that month including a full replication of information in the physician's order for each medication:
    - a. Name of the medication;
    - b. Dose as ordered;
    - c. Route as ordered;
    - d. Time of day as ordered; and
    - e. Special instructions accompanying the order, if any, such as but not limited to:
      - i. Must be taken with meals;
      - ii. Must be taken with fruit juice;
      - iii. May not be taken with milk or milk products.
  3. If the individual is to take or receive the medication more than one time during one calendar day, each time of day must have a corresponding line that permits as many entries as there are days in the month;
  4. All lines representing days and times preceding the beginning or ending of an order for medications shall be marked through with a single line;
  5. When a physician discontinues (D/C) a medication order, that discontinuation is reflected by the entry of "D/C" at the date and time representing the discontinuation followed by a mark through of all lines representing days and times that were discontinued.
- ii. Documentation of medications that are taken or received on a periodic basis, including over the counter medications, occur in a separate discreet portion of the MAR and include but may not be limited to:
  1. A listing of each medication taken or received on a periodic basis during that month including a full replication of information in the physician's order for each medication:
    - a. Name of the medication;
    - b. Dose as ordered;
    - c. Route as ordered;
    - d. Purpose of the medication;
    - e. Frequency that the medication may be taken:
      - i. The date and time the medication is taken or received is documented for each use.
      - ii. When 'PRN' or 'as needed' medication is used, the PRN medications shall be documented on the same MAR after the routine medications and clearly marked as "PRN" and the effectiveness is documented.
      - iii. Each MAR shall include a legend that clarifies:
        1. Identity of authorized staff initials using full signature and title;
        2. Reasons that a medication may be not given, is held or otherwise not received by the individual, such as but not limited to:
          - "H" = Hospital
          - "R" = Refused
          - "NPO" = Nothing by mouth
          - "HM" = Home Visit
          - "DS" = Day Service

## 7. Waiver of Requirements

- A. The provider may not exempt itself from any of these requirements or any portion of the Provider Manual. All requests for waivers of these requirements must be done in accordance with policy: Requests for Waivers of the Standards/Requirements for Mental Health, Developmental Disabilities and Addictive Diseases.

## COMMUNITY SERVICE REQUIREMENTS FOR ALL PROVIDERS

### SECTION II: STAFFING REQUIREMENTS

#### 1. General Staffing Requirements

- A. The professional(s) attached to the organization should have experience in the field of expertise best suited to address the needs of the individual(s) served.
- B. Providers must ensure an adequate staffing pattern to provide access to services:
  - i. Please reference the staffing requirements specified for Tier 1 (CCP Standard 10 – Required Staffing, 01-210), Tier 1+ (CCBHC Standard 10 – Required Staffing, 01-410), Tier 2 (CMP Standard 8 – Required Staffing, 01-238), and Tier 2+ (CMP+ Standard 8 – Required Staffing, 01-238a) providers, as appropriate.
  - ii. Providers must also reference the Service Guideline(s) of the particular service(s) being provided and adhere to any additional staffing requirements stated therein.
- C. Organizational policy and practice demonstrate that appropriate professional staff shall conduct the following services, supports, and treatment, including but not limited to:
  - i. Overseeing the services, supports, and treatment provided to individuals;
  - ii. Supervising the formulation of the individual recovery plan, and delivery of services related to the plan;
  - iii. Designing and writing behavior support plans;
  - iv. Implementing assessment, care, and treatment activities as defined in professional practice acts; and
  - v. Supervising programs and services.
- D. The type and number of professional staff attached to the organization are:
  - i. Properly licensed or credentialed in the professional field as required;
  - ii. Present in numbers to provide adequate supervision to staff;
  - iii. Present in numbers to provide services, supports, and treatment to individuals as required; and
  - iv. Knowledgeable, experienced, and skilled in the profession they represent.
- E. The type and number of all other staff attached to the organization are:
  - i. Properly trained or credentialed in the professional field as required;
  - ii. Present in numbers to provide services, supports, and treatment to individuals as required; and
  - iii. Experienced and competent in the services, supports, and treatment they provide.
- F. A physician with experience in behavioral health must be designated/responsible for directing any medical or psychiatric services, including medically-based SUD withdrawal/management.
- G. Providers of Specialty Services must maintain support from an independently licensed clinician to provide service review, service monitoring, and assistance in directing an appropriate course of treatment. This individual may be an employee or contracted.

#### 2. Recruitment and Training

- A. Job descriptions are in place for all personnel that include:
  - i. Qualifications for the job;
  - ii. Duties and responsibilities;
  - iii. Competencies required;
  - iv. Expectations regarding quality and quantity of work; and
  - v. Documentation that the individual staff has reviewed, understands, and is working under a job description specific to the work performed within the organization.
- B. The provider must detail in its policies and procedures, by job classification, the following:
  - i. Training required during orientation;

- ii. Training that must be refreshed annually;
  - iii. Additional training required for professional level staff; and
  - iv. Additional training/recertification (if applicable) required for all other staff.
- C. Direct crisis service professionals receive Deaf Crisis Services Training within 60 (sixty) days of the start of their hire. In addition, all direct crisis service professionals receive refresher training on an annual basis, thereafter. [Training Requests are emailed to DeafServices@dbhdd.ga.gov with "Deaf Crisis Services Training" in the subject line to schedule training].
- D. Unless otherwise indicated in specific Service Definitions, DBHDD policy, and/or other regulation, in 24-hour or residential settings, all direct care and clinical staff must be trained in Basic Life Support (BLS) and first aid. Training must be both written and hands-on competency-based.
- E. In order to be designated as a "paraprofessional" provider type, staff must comply with training requirements found later in this section, entitled the "Standard Training Requirement for Paraprofessionals."
- F. All staff, direct support volunteers, and direct support consultants shall be trained and show evidence of competence as indicated in the chart below titled **Training Requirements for all Staff, Direct Support Volunteers, and Direct Support Consultants:**

| <b>Training Requirements for all Staff, Direct Support Volunteers, and Direct Support Consultants</b>                                                                                                                                                                                                                                                                                     |  |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| <b>Orientation requirements are specified for all staff and are provided prior to direct contact with individuals and are as follows:</b>                                                                                                                                                                                                                                                 |  |
| • The purpose, scope of services, supports, and treatment offered including related policies and procedures;                                                                                                                                                                                                                                                                              |  |
| • HIPAA and Confidentiality of individual information, both written and spoken;                                                                                                                                                                                                                                                                                                           |  |
| • Rights and Responsibilities of individuals;                                                                                                                                                                                                                                                                                                                                             |  |
| • Requirements for recognizing and reporting suspected abuse, neglect, or exploitation of any individual: <ul style="list-style-type: none"> <li>○ To the DBHDD;</li> <li>○ Within the organization;</li> <li>○ To appropriate regulatory or licensing agencies; and,</li> <li>○ To law enforcement agencies.</li> </ul>                                                                  |  |
| <b>Within the first sixty (60) days from date of hire, all staff having direct contact with individuals shall receive the following training including, but not limited to:</b>                                                                                                                                                                                                           |  |
| • Person centered values, principles and approaches;                                                                                                                                                                                                                                                                                                                                      |  |
| • A holistic approach to treatment of the individual;                                                                                                                                                                                                                                                                                                                                     |  |
| • Medical, physical, behavioral and social needs and characteristics of the persons served;                                                                                                                                                                                                                                                                                               |  |

### 3. Employee Management and Record Keeping

- A. The provider has procedures and practices for verifying licenses, credentials, and the knowledge/experience/skills of staff:
  - i. There is documentation of implementation of these procedures for all staff attached to the organization; and
  - ii. Licenses and credentials are current as required by the field.
- B. The provider has policies, procedures and documentation practices detailing all human resources practices, including but not limited to:
  - i. Processes for determining staff qualifications including license or certification status, training, experience, and competence.
  - ii. Processes for managing personnel information and records including but not limited to:
    1. Criminal records checks (including process for reporting CRC status change); and
    2. Driver's license checks.
  - iii. Provisions for and documentation of:
    1. Timely orientation and development of personnel, including the training topics enumerated above;
    2. Periodic assessment and development of training needs;
    3. Development of activities responding to those needs; and
    4. Annual work performance evaluations.
  - iv. Provisions for sanctioning and removal of staff when:
    1. Staff are determined to have deficits in required competencies; and
    2. Staff is accused of abuse, neglect or exploitation.
- C. Regular review and evaluation of the performance of all staff is evident at least annually by managers who are clinically, administratively, and experientially qualified to conduct evaluations.

### 4. Health and Safety

- A. The organization must have policies and procedures for protecting the health and safety of all staff.
- B. Specific measures to ensure the health and safety of those staff that engage in community-based service delivery activities must be identified.
- C. Must adhere to DBHDD policies regarding staff health and safety, including, but not limited to:

- i. [Accreditation and Standards Compliance Requirements for Providers of Behavioral Health Services, 01-103](#)
- ii. [Criminal History Record Check for DBHDD Network Provider Applicants, 04-104](#)

## 5. Compliance Management

- A. For any service which a provider has agreed to provide under a contract, Letter of Agreement, or Provider Agreement with DBHDD, the following rules apply:
  - i. The provider shall not enter into a contract or other arrangement with another person or agency for the provision of all or substantially all of any service.
  - ii. The provider may utilize individual independent contractors for aspects of service delivery, if the provider's use of such individual independent contractors does not violate rule (1) of this paragraph or any other applicable law, rule, or regulation, and if such use of individual independent contractors is not otherwise prohibited by DBHDD or by the Department of Community Health. However, the provider must at all times maintain administrative control and clinical direction over all persons who have direct contact with individuals served for the purpose of service delivery, whether those persons are employees, independent contractors, volunteers, or any other person acting on the provider's behalf; and the provider shall not delegate such administrative control or clinical direction to another person or agency through a contract or other arrangement.
  - iii. Any exception to rule (1) or rule (2) of this paragraph must be expressly set forth in the provider's contract, Letter of Agreement, or Provider Agreement with DBHDD.
  - iv. A provider shall not submit a bill or claim for services that have been provided in violation of any rule of this paragraph, regardless of whether those services are funded through Medicaid or through state funds.
- B. Federal law, state law, professional practice acts and in-field certification requirements are followed, including but not limited to:
  - i. Professional or non-professional licenses and qualifications required to provide the services offered. If it is determined that a service requiring licensure or certification by State law is being provided by an unlicensed staff, it is the responsibility of the provider to comply with [Professional Licensing or Certification Requirements and the Reporting of Practice Act Violations, 04-101](#).
  - ii. Laws governing hours of work such as but not limited to the Fair Labor Standards Act.
- C. The status of students, trainees, and individuals working toward licensure must be disclosed to the individuals receiving services from trainees/ interns and signatures/titles of these practitioners must also include indication of that status.
- D. It must be evident that the provider demonstrates administration of personnel policies without discrimination.

## 6. Approved Behavioral Health Practitioners

The table below outlines the requirements of the approved behavioral health practitioners. Abbreviations for credentials recognized in the Practitioner Level system are noted below. These approved abbreviations must be on the signature lines in documentation where credentials are required (i.e. orders for services, progress notes, etc.). For those staff members (PP, CPS, S/T, etc.) whose practitioner level is affected by a degree, the degree initials must also be included. For example, if a Paraprofessional is working with an applicable Bachelor of Arts degree, he or she would include “PP, BA” as his or her credentials. For detail on the services each practitioner type can provide, see [Practitioner Detail, Table A: Service x Practitioner Table](#).

| Professional Title & Abbreviation for Signature Line | Minimum Level of Education/Degree / Experience Required                                                                             | License/ Certification Required                                                                                                                                                                                                                                                                                                                                                          | Requires Supervision?                  | State Code           |

## 7. Documentation of Supervision for Individuals Working Towards Licensure

A Psychologist/LCSW/LPC/LMFT supervisee/trainee is defined as an individual with a minimum of a Bachelor's degree, and, effective July 1, 2021, who maintains the supervisee/trainee status for a period of no longer than 108 months, or for a period as may be specified by the Georgia Composite Board of Professional Counselors, Social Workers, and Marriage and Family Therapists for the specific professional type, whichever is shorter. In addition, the individual must meet one or more of the following:

- A. Registered toward attaining an associate or full licensure; and/or
- B. In pursuit of a master's degree that would qualify the student to ultimately qualify as a licensed practitioner (Psychologist, LCSW, LMFT, LPC, LMSW, AMFT, APC); and/or
- C. Not registered but is acquiring documented supervision toward full licensure in accordance with O.C.G.A. 43-10A-3.

These individuals must be under supervision of a licensed Psychologist, LCSW, LPC, or LMFT in accordance with the Georgia Composite Board of Professional Counselors, Social Workers, and Marriage and Family Therapists (hereafter referred to as the GA Composite Board) or enrolled in a practicum with an accredited educational Master's degree program which provides supervision as a part of a curriculum which is the foundation toward licensure.

Students and individuals who meet the definition of a Supervisee/Trainee above do not require a co-signature on progress notes unless required by the rules of the GA Composite Board.

In accordance with the GA Composite Board, interns and trainees must work under direction and documented clinical supervision of a licensed professional. Providers will be required to present documentation of supervision of Supervisee/Trainees upon request by DBHDD or the DBHDD's ASO. Supervision must be completed monthly; documentation of supervision for previous month must be in employee file by the 10<sup>th</sup> day of the following month. For example, April supervision must be recorded by February 10<sup>th</sup>.

Documentation of supervision is described by O.C.G.A. 43-10A-3 as, "a contemporaneous record of the date, duration, type (individual, paired, or group), and a brief summary of the pertinent activity for each supervision session". More information can be found online at [http://sos.ga.gov/index.php/licensing/plb/43/licensure\\_requirements\\_for\\_professional\\_counselors](http://sos.ga.gov/index.php/licensing/plb/43/licensure_requirements_for_professional_counselors). Documentation of supervision as defined by O.C.G.A. 43-10A-3 must be present and current in personnel record. The three (3) specialties governed by the GA Composite Board have different supervision requirements for individuals working toward licensure and it is the responsibility of the provider to ensure that the supervision requirements specified by the board for the specialty (professional counseling, social work or marriage and family therapy) for which the individual is working toward licensure are met.

In addition, for Supervisee/Trainees who are either in pursuit of a Master's degree that would qualify the student to ultimately obtain licensure (i.e. as a Psychologist, LCSW, LMFT, LPC, LMSW, AMFT, APC), or who are not registered toward attaining licensure, but acquiring documented supervision toward full licensure in accordance with O.C.G.A. 43-10A-3, the provider will be required to present an attestation signed by both the supervisor and supervisee/trainee which either:

- A. Confirms enrollment in a practicum with an accredited educational master's degree program which provides supervision as part of a curriculum which is the foundation toward licensure:
  - i. The attestation must include the name of the program the student attends, degree to be earned, and the anticipated/actual graduation date; and
  - ii. The attestation must be updated on an annual basis; or
- B. Confirms that supervision is being provided towards licensure in accordance with O.C.G.A. 43-10A-3.
  - i. The attestation must include graduation date, degree earned, type of licensure being sought (e.g., Psychologist, LCSW, LPC, LMFT) and the anticipated/actual date of licensure examination; and
  - ii. The attestation must be updated on an annual basis.

Documentation of Supervisees/Trainees who are receiving on-site supervision in addition to the supervision that they are receiving off-site towards their licensure must include:

- A. A copy of the documentation showing supervision towards licensure, and
- B. Documentation in compliance with the above-stated requirements.

For example, if a Supervisee/Trainee is working at Provider "A" as a supervisee-trainee and receiving supervision towards their licensure outside of Provider "A", a copy of the documentation showing supervision towards licensure must be held at Provider "A".

## 8. Documentation of Supervision of Certified Alcohol and Drug Counselor-Trainees and Certified Counselors in Training

Certified Alcohol and Drug Counselor-Trainees (CADC-T) and Certified Counselors in Training (CCIT) may provide certain services under Practitioner Levels 4 and 5 as noted in the applicable Service Guidelines. A CADC-T or CCIT may perform counseling as a trainee for a period of up to three (3) years if they meet the requirements in O.C.G.A. 43-10A. This is limited to the provision of chemical dependency treatment under direction and supervision of a clinical supervisor approved by the certification body under which the trainee is seeking certification. Providers should refer to O.C.G.A. 43-10A-3 for the definitions of “direction” and “supervision”.

The Certified Alcohol and Drug Counselor - Trainee and Certified Counselor in Training Supervision Form<sup>2</sup> and supporting documentation indicating compliance with the below requirements must be provided for all services provided by an CADC-T or CCIT. The following outlines the definition of supervision and requirements of clinical supervision:

- Supervision means the direct clinical review, for the purpose of training or teaching, by a supervisor of a specialty practitioner's interaction with an individual. It may include, without being limited to, the review of case presentations, audio tapes, video tapes, and direct observation in order to promote the development of the practitioner's clinical skills.
- Monthly Staff Supervision form must be present and current in personnel record. Supervision must be completed monthly; supervision form for previous month must be in employee file by the 10<sup>th</sup> day of the following month. For example, April supervision must be recorded by February 10<sup>th</sup>.
- Evidence must be available to show that supervising staff meet qualifications.
- The following credentials are acceptable for Clinical Supervision: CCS; GCADC-II or -III; CAC-II; MAC, CAADC or LPC/ LCSW/LMFT who have a minimum of five (5) hours of Co-Occurring or Addiction-Specific Continuing Education hours per year; certification of attendance/completion must be on file.
- The CADC-T or CCIT must have a certification test date that is within three (3) years of hire as an CADC-T, and;
- The CADC-T or CCIT may not have more than three (3) years of cumulative experience practicing under supervision for the purpose of addiction certification, per GA Rule 43-10A; and
- The CADC-T or CCIT must have a minimum of four (4) hours of documented supervision monthly – this will consist of individual and group supervision.

**The DBHDD has added specificity regarding the supervision of these practitioners due to the volume of practice provided by LCSW/LPC/LMFT's supervisee/trainees and Certified Alcohol and Drug Counselor-Trainees/Certified Counselors in Training. Psychologists in training must adhere to the supervision requirements outlined in the Official Code of Georgia.**

## 9. Standard Training Requirement for Paraprofessionals

### Overview

In addition to the training requirements defined in this document, the DBHDD requires that all behavioral health paraprofessionals complete the Standard Training Requirement. These trainings provide useful information necessary to fulfill requirements for delivering DBHDD behavioral health services and supports,

---

<sup>2</sup> The Certified Alcohol and Drug Counselor-Trainee Supervision Form can be found in Appendix D of this Manual.

while also providing paraprofessionals with access to information that will help them be more effective on the job. Demonstrated mastery of each topic area within the Standard Training Requirement is necessary in order for paraprofessionals to provide both state-funded and Medicaid-reimbursable behavioral health services.

The Standard Training Requirement for Paraprofessionals requires that paraprofessionals complete provider-based training as well as targeted, online trainings. In total, each paraprofessional must complete 46 hours of training (29 hours via online courses and 17 hours provided by the provider). In addition, a set number of training hours must be dedicated to specific subject areas. The number of required training hours is by subject area as outlined below. See chart on following page for additional detail.

| <b>Subject Area</b>                                                       | <b>TOTAL Required Hours</b> | <b>Required via Online Courses</b> | <b>Required via Provider-Based Training</b> |
|---------------------------------------------------------------------------|-----------------------------|------------------------------------|---------------------------------------------|
| Corporate Compliance                                                      | 2                           | 1                                  | 1                                           |
| Cultural Competence                                                       | 2                           | 2                                  | 0                                           |

| Suicide Prevention and Risk Assessment (in accordance with policy 01-118) | 2                           | 2                                  | 0                                           |
| <b>Total Required Hours</b>                                               | <b>46</b>                   | <b>29</b>                          | <b>17</b>                                   |

At this time, there is no annual or continued training requirement related to the Standard Training Requirement for Paraprofessionals. However, it should be noted that all providers must comply with all training requirements outlined within this Manual.

### **Required Online Courses for Paraprofessionals**

The required online training hours and education component must be completed through the DBHDD provided online courses. Provider agencies have two options to go about accessing the required online courses:

#### Option 1: DBHDD Online Courses

All behavioral health providers who have an executed contract or agreement with DBHDD have free, 24/7 access to course content at <http://georgiamhad.training.reliaslearning.com/>. For this option, in order to gain initial access to the online courses, providers must designate a Standard Training

Requirement (STR) liaison to assign paraprofessionals for the online training. The liaison plays a key role in the successful use of the online curriculum. The liaisons have supervisor rights and can add and delete learners from the system. The liaisons may also assign courses in the Learning Catalog based on the particular need within their organization. Your organization may decide to allow learners to choose their own courses within the required topic areas or to assign learners to complete particular courses that best fit your organization's needs. Providers must ensure that the online courses assigned will meet compliance with the required number of hours per Subject Area (above). Once the paraprofessional has been given a username and password by the provider's liaison, s/he can go online and access the available courses and exams in the learning catalog.

#### Option 2: Individual Provider Essential/Relias Learning System

DBHDD provider agencies that hold separate contracts with Essential/Relias Learning<sup>3</sup> may request to house Georgia DBHDD-specific courses and related employee records on their own Essential/Relias Learning systems, rather than using the DBHDD online system. To use this option, approval must be given for providers to have access to the DBHDD approved course that were modified by Georgia DBHDD to reflect Georgia DBHDD policies and procedures. Although the courses may change in the future, the list of courses modified by Georgia DBHDD for this purpose are indicated by an asterisk (\*) in Appendix 1.

By notifying DBHDD of their intention to utilize their own Essential/Relias Learning system rather than the DBHDD system, the provider agency is agreeing to the following stipulations:

1. The provider agency must ask for permission before being allowed access to the DBHDD courses. Access is arranged by UGA's the Carl Vinson Institute of Government (UGA/CVIOG).
2. The provider agency must let their users (employees) know that their Essential/Relias Learning training records are being held by the provider agency and not by DBHDD.
3. Because their training records are being held by the provider agency and not by DBHDD, it will take longer to transfer training records between employers as Essential/Relias Learning will be required to transfer records between systems.
4. It is the provider agency's complete and total responsibility to keep course offerings current as designated in the [Provider Manual for Community Behavioral Health Providers, 01-112](#). Auditing will continue to be conducted based on the requirements specified in the Provider Manual.

The chart in Appendix 1 below displays the courses available within the Standard Training Requirement for Paraprofessionals which may be satisfied via the online training. A total of 29 hours of online training is required to fulfill the training requirement and many subjects offer several courses that can meet the criteria.

#### **Providing Services as a Paraprofessional**

The following individuals must complete the Standard Training Requirement in order to provide services as a paraprofessional:

1. Individuals who are not licensed or do not hold an approved credential, regardless of education level. For example, an individual with a master's in social work but not a license would need to complete the Standard Training Requirement.
2. Contract employees providing outsourced services who fall within the paraprofessional criterion.
3. Individuals who have not yet completed the certification process to be Certified Peer Specialists.
4. Individuals who may be eligible in the future to be licensed or certified but who are not yet licensed or certified.

---

<sup>3</sup> Essential/Relias Learning is the vendor who provides the online courses under contract with DBHDD. Though the name of Essential Learning has changed to Relias, the course selection has remained available.

5. Individuals who are working towards licensure and meet the qualifications of a Supervisee/Trainee must also complete the Standard Training Requirement.
6. Individuals providing Psychiatric Residential Treatment Facility services but not staff providing services through foster care, Intensive Community Support Program, and child & adolescent group homes.

Paraprofessional staff members must complete the Standard Training Requirements within the new hire orientation guidelines for their organization but no later than **90 days after hire**. Staff may provide and bill for services during these 90 days. If the Standard Training Requirement is not completed after 90 days, the individual may not bill until the requirement is fulfilled. Any services that are provided outside of the 90-day grace period by an uncertified paraprofessional are subject to recoupment.

If an individual would like to bill a service for which they are not an approved practitioner, that individual may bill as a paraprofessional (providing that a paraprofessional is an approved practitioner). In order to do so s/he must have completed the Standard Training Requirement. When documenting this service, the noted credential of the practitioner must match the practitioner level billed. For example, if an LPN would like to provide Community Support (a service for which an LPN is not an approved practitioner), that individual could bill as a paraprofessional and would therefore need to be in compliance with the Standard Training Requirement. The LPN's credentials would be documented as "LPN and PP" when billing at the paraprofessional rate.

#### **Documentation for the Standard Training Requirement**

Documentation of compliance must be available for each paraprofessional. An orientation agenda/checklist/spreadsheet with the name of the employee, date of topic, training, and number of hours must be available and is required for audit purposes. Proof of course completion must be kept in a personnel file for both provider-based training as well as online training. This may be documented via a training certificate or transcript generated online by Essential/Relias Learning or by the in-person course instructor, and maintained in the personnel file.

Auditors may verify the information provided on the tracking sheet by viewing the training certificates. If this information is not available, services billed by the paraprofessional will be subject to recoupment. The date of hire must also be available for review.

If further questions or clarifications are needed regarding the Standard Training Requirement, please email questions to: [DBHDDLearning@dbhdd.ga.gov](mailto:DBHDDLearning@dbhdd.ga.gov).

## COMMUNITY SERVICE REQUIREMENTS FOR ALL PROVIDERS

### SECTION III: DOCUMENTATION

#### 1. OVERVIEW OF DOCUMENTATION

The individual's record is a legal document that is current, comprehensive and includes those persons who are assessed, served, supported, or treated. There are three fundamental components of consumer-related documentation. These include assessment and reassessment; treatment/supports planning; and progress notes. These components are independent and yet must be inter-related in order to create a sound medical record. The documentation guidelines outlined herein do not supersede service-specific requirements. This Provider Manual may list additional requirements and standards which are service-specific; when there is a conflict, providers must defer to those requirements which are most stringent. **All items in this section are DBHDD expectations, however, items using the word “must” indicate requirements for which non-adherence may impact payment or reimbursement via the Administrative Services Organization or other regulatory entities. Items using the word “should,” are less likely to impact payment, however, non-adherence will likely impact performance on quality and compliance reviews.<sup>1</sup>**

- A. Documentation/information in the medical record:
  - i. Must include the practitioner's printed name as listed on his or her practitioner's license;
  - ii. Should be Organized, Complete, Current, Meaningful, and Succinct; and
  - iii. Is managed in a manner that ensures individual confidentiality and security, while providing access and availability as appropriate.
- B. At a minimum, the individual's information:
  - i. Must include the name of the individual, precautions, allergies (or no known allergies - NKA) and “volume #x of #y” on the front of the record. Note that the individual's name, allergies and precautions must also be flagged on the medication administration record;
  - ii. Must include the individual's identification and emergency contact information;
  - iii. Must include financial and insurance information necessary for adherence to [Requirements to Access DBHDD Funds for Child & Adolescent Behavioral Health Services, 01-106](#);
  - iv. Must include the following rights, consent, and legal information:
    - 1. Consent for service;
    - 2. Release of information documentation;
    - 3. Legal documentation establishing guardianship;
    - 4. Evidence that individual rights and responsibilities are reviewed at the start of services, and at least once a year thereafter; and
    - 5. Legal status as it relates to Title 37;
  - v. Must include pertinent medical information;
  - vi. For individuals who are deaf, deaf-blind, and hard of hearing, communication documentation must include:

1. Communication Assessment Report (CAR) from the Office of Deaf Services (which carries the weight of a Service Order) per [Provider Procedures for Referral and Reporting of Individuals with Hearing Loss, 15-111](#);
  2. Action plan for implementing required communication accommodations from the CAR; and
  3. Record of communication accommodations provided;
- vii. Must include evidence that the services billed are the services provided;
  - viii. Should include any psychiatric or other advanced directive, or documentation that the individual has either denied the existence of a directive or declined to have it included in their medical record;
  - ix. Should include records or reports from previous or other current providers;
  - x. Should include correspondence related to the individual and their Individualized Recovery Plan;
  - xi. The frequency and style of documentation should be appropriate to the frequency and intensity of services, supports, and treatment and in accordance with the Service Guideline;
  - xii. Should include documentation of contacts with persons involved in other aspects of the individual's care, including but not limited to internal or external referrals; and
  - xiii. There should be a documented process for ongoing communication between staff members working with the same individuals in different programs, activities, schedules or shifts.
  - xiv. Upon request and in keeping with standard release of information expectations, must be shared in a timely and sufficient manner with other DBHDD provider agencies and/or supporting healthcare entities that are also serving the individual, in order to ensure the continuity, coordination, and efficacy of care received by the individual from all involved healthcare professionals.
- C. Individual records must be maintained onsite (DBHDD approved service locations) for review for a minimum of 90 days following the last date of service or discharge date as identified by the authorization for the individual served<sup>4</sup>.
- D. All signatures (and initials, where appropriate) must be original, belonging to the person creating the signature or initials. Signatures (and initials, where appropriate) must be dated by the person signing or initialing to reflect the date on which the signature/initials occurred (e.g., no backdating, no postdating, etc.).
- E. Special Requirements for Paper versus Electronic Health Records/Medical Records
- i. **For providers using paper Health Records/Medical Records:**
    1. All content that is handwritten or typed must be written in black or blue ink (red ink may be used to denote allergies or precautions);
    2. All content that is handwritten or typed must be readable, decipherable, and easily discernible to all readers;
    3. **Recorded changes** – Any corrections or alternations made to existing documentation must be clearly visible. No “white-out” or unreadable cross-outs are allowed. A single line is used to strike an entry, and that strike must be labeled with “error”, initialed, and dated. Additionally, if

<sup>4</sup> For audit purposes, records must be presented within the timeframes indicated in the Georgia Collaborative Provider Handbook; records not submitted within stated timeframes will not be accepted by the auditors for review. Additional information related to audit procedures can be found in this Handbook available online at The Georgia Collaborative ASO website at <http://www.georgiacollaborative.com/providers/prv-BH.html>.

a document contains a Secure Electronic Signature, it must be linked to data in such a manner that if the data is changed the electronic signature is invalidated.

- ii. **For providers using Electronic Health Records (EHRs)/Electronic Medical Records (EMRs):** Provider EHR/EMR platforms must be configured to allow the DBHDD and its proxies (i.e. the ASO), as well as any other authorized external reviewing entities, full administrative access (view-only) to all components of the EHR/EMR. This access must include:
  - 1. Ability to validate document creation date, time, and author;
  - 2. Time stamp of signatures;
  - 3. Dates, time stamps, and author(s) of any edits, amendments, or late entries;
  - 4. Ability to view the original content, prior to any editing or amendments, without deletions; and
  - 5. Dates and time stamps for documents uploaded to the EHR/EMR.

## 2. ASSESSMENT

Individualized services, supports, care and treatment determinations are made on the basis of an assessment of needs with the individual. The individual must be informed of the findings of the assessments in a language he or she can understand.

- A. Assessments include, but are not limited to, the following:
  - i. Summary of central themes of presenting symptoms/needs and precipitating factors;
  - ii. Individual strengths, needs, abilities, and preferences;
  - iii. Individual's hopes and dreams, or personal life goals;
  - iv. Individual's perception of the issue(s) of concern;
  - v. Prior treatment and rehabilitation services used and outcomes of these services;
  - vi. Preferences for treatment, individual choice and hopes for recovery;
  - vii. A current health status report, medical history, and medical screening;
  - viii. Suicide risk assessment;
  - ix. Appropriate diagnostic tools such as impairment indices, psychological testing, or laboratory tests;
  - x. Social and Family history;
  - xi. School records (for school age individuals);
  - xii. Collateral history from family or persons significant to the individual, if available.
  - xiii. Review of legal concerns including:
    - 1. Advance directives;
    - 2. Legal competence;
    - 3. Legal involvement of the courts;
    - 4. Legal status as it relates to Title 37; and
    - 5. Legal status as adjudicated by a court.

- xiv. How needs are to be prioritized and addressed;
- xv. What interventions are needed, when, how quickly, in what services and settings, length of stay, and with what provider(s);
- xvi. The step-down services;
- xvii. Biopsychosocial assessment;
- xviii. Integrated/interpretive summary;

### 3. DIAGNOSIS

- A. A verified diagnosis is defined as a behavioral health diagnosis that has been provided following a face-to-face (to include telemedicine) evaluation by a professional identified in O.C.G.A Practice Acts as qualified to provide a diagnosis. These include a Licensed Psychologist, a Licensed Clinical Social Worker, a Licensed Marriage and Family Therapist, a Licensed Professional Counselor, a Licensed Physician, or a Physician Assistant or APRN (NP and CNS-PMH) working in conjunction with a physician with an approved job description or protocol.
- B. Specific to Non-Intensive Outpatient services, for any individual newly presenting to a provider, a Diagnostic Impression is allowed for 30 days after the initial engagement with the individual in order to initiate timely provision of needed services. The initial engagement is defined as the first encounter with the individual for service. After 30 days, the individual must have a verified diagnosis in order to justify planned services against the diagnostic criteria and to continue services. [NOTE: Specialty Services generally require verified diagnoses prior to admission]. Diagnostic impressions may be provided by practitioners who are permitted by their scope of practice to do so.
- C. The diagnosing professional may rely on assessment information provided by other professionals and collateral informants (as permitted by the individual), but a face-to-face interaction between the diagnosing professional and the individual must also occur (to include telemedicine). A signature by such a person on documentation leading to or supporting a diagnostic impression does not meet this requirement for performing an assessment adequate to support assigning a behavioral health diagnosis.
- D. At a minimum, all diagnoses must be verified annually by one of the previously named qualified practitioners.
- E. When diagnosing individuals who are deaf, deaf-blind, or hard of hearing, the diagnosing professional must demonstrate training, supervision, and/or consultation with a qualified professional as approved by DBHDD Office of Deaf Services.
- F. When diagnosing children who are between the ages of four (4) and five (5) years old, providers may use the [DC:0-5™ Manual](#). After a clinician has appropriately used the tools in the DC:0-5 manual to assess and diagnose a young child, they should use the **Georgia Crosswalk of DC:0-5 Disorders with DSM-5 and ICD-10** found in the [Infant and Early Childhood Mental Health Toolkit: Georgia DC:0-5™ Crosswalk and Case Studies](#) guide to map the diagnosis to the Diagnostic and Statistical Manual of Mental Disorders (DSM-5) and/or to the International Statistical Classification of Diseases (ICD-10), which are commonly used classification systems for service billing and reimbursement purposes.
- G. Documentation of the initial and annually verified diagnosis(es) must:
  - i. Clearly indicate the diagnosis(es);

- ii. Include the following information about the diagnosing practitioner:
  - 1. The diagnosing practitioner's printed name as listed on their license(s); and
  - 2. The diagnosing practitioner's credential(s);
- iii. Include the signature of the diagnosing practitioner; and
- iv. Include the date of the diagnosis;

H. Additional Documentation Requirements:

- i. DBHDD providers approved to deliver the Diagnostic Assessment service (regardless of whether the service is actually billed in any individual case) must adhere to the requirements above, as well as to all Diagnostic Assessment Service Guidelines set forth in this Provider Manual, and in addition, must have documentation of:
  - 1. The factors considered, and justification used in determining the diagnosis(es);
  - 2. The necessary information (including a summary of findings) to support the diagnosis(es);
  - 3. A face-to-face clinical assessment of the individual provided as part of the diagnostic process (this requirement may be met via the use of telemedicine).
- ii. DBHDD specialty providers who have a diagnosing practitioner on staff who renders diagnoses for individuals served must adhere to the basic requirements above, as well as provide documentation of a face-to-face clinical assessment (telemedicine may be used); but are not required to provide documentation of the factors considered and justification used in determining the diagnosis(es), a summary of findings, or any other supporting documentation related to the diagnosis(es) or diagnostic assessment process.
- iii. DBHDD specialty providers who must obtain diagnoses from external providers (regardless of whether the external provider is a DBHDD provider) must adhere to the basic requirements above; but are not required to provide documentation of a face-to-face clinical assessment, the factors considered and justification used in determining the diagnosis(es), a summary of findings, or any other supporting documentation related to the diagnosis(es) or diagnostic assessment process.

- I. Any diagnostic documentation or procedures that do not conform to the above requirements and O.C.G.A. Practice Acts may result in revocation of authorization.
- J. While DBHDD generally sets its eligibility and medical necessity criteria and language herein in accordance with the most current version of the DSM, it is also acceptable to utilize an ICD diagnosis as an acceptable diagnosis in the medical record. A list of valid ICD-10 diagnosis codes for claim submission are outlined in Appendix C. Providers will note that there are additional codes that are acceptable for claims, but that are not valid codes for authorization purposes. This flexibility was included because providers may not know all possible diagnoses at the point in time of authorization. There may be diagnoses being treated that are appropriate for billing that are not on the authorization.
- K. For any diagnoses that are valid for less than one year, an assessment should be completed more often (as indicated in the current DSM). If this requirement is not met due to individual refusal or choice, documentation in the record should reflect this.

#### 4. ORDER/RECOMMENDATION FOR COURSE OF TREATMENT<sup>5</sup>

- A. All services must be recommended (“ordered”) by a licensed physician or other appropriately licensed practitioner. The practitioner(s) authorized to recommend/order specific services may be found within Part I, Section IV of this Provider Manual.
- B. Orders may exist across multiple authorizations.
- C. The recommendation/order for a course of treatment must specify each service to be provided and shall be reviewed and signed by the appropriately licensed practitioner(s) on or before the initial date of service.
- D. There are two formats that may be used for writing a recommendation/order:
  - i. An individualized recovery/resiliency plan (IRP) which fulfills the required components listed below, can be used as a recommendation/order for the applicable authorization period for services indicated within the plan.
  - ii. A stand-alone recommendation/order in the medical record which fulfills the required components listed below.
- E. Required Components of the recommendation/order include:
  - i. Individual name;
  - ii. All services recommended as a course of treatment/ordered as indicated by Service Description as listed in the current DBHDD Provider Manual (see C. above);
  - iii. Signature and credentials<sup>6</sup> of appropriately licensed practitioner(s);
  - iv. Printed or stamped name and credentials of appropriately licensed practitioner(s);
  - v. Date of signature(s). Dates written to indicate the date of a signature must only be dated by the signer; and
  - vi. Duration of the order for the particular service, not to exceed one year from the order date.
- F. Should the recommendation for course of treatment (order) cross multiple pages in a paper record, the provider is responsible for ensuring that it is clear that the additional pages are a continuation of the order. For example, in a 2-page order, page 2 must contain the name of the individual, a page number, and indication that the signature of the practitioner indicates authorization for services as noted on page 1.
- G. Recommendation for course of treatment (“orders”) may be made verbally. The required components of the verbal recommendation/order include:
  - i. The provider must have policies and procedures which govern procedures for verbal orders;
  - ii. Recommendations/Orders must be documented in the medical record and must include:
    - 1. Individual name;

---

<sup>5</sup> Note that the following requirements apply only to recommendation/orders for **services** as defined in Part I of this Provider Manual. Requirements regarding orders for medication and procedures can be found in Section I of these Community Service Requirements for All Providers.

<sup>6</sup> See Section II of the Community Service Standards for All Providers for additional information regarding credentials.

2. All services recommended as a course of treatment/ordered as indicated by official group name as indicated in the current DBHDD Provider Manual;
  3. Printed or stamped name and credentials of appropriately licensed practitioner(s) recommending service;
  4. Date of verbal order(s); and
  5. Printed or stamped name, credentials, original signature, and date signed by the staff member receiving the verbal order. Provider's policy must specify which staff can accept verbal orders for services.
- iii. Verbal orders must be authenticated by the ordering practitioner's signature within seven (7) calendar days of the issuance of orders. This may be an ink,-facsimile/photocopy, or electronic signature.
  - iv. Faxed/electronic orders signed by the ordering practitioner are acceptable and a preferred alternative to verbal orders. Faxed orders must be dated upon receipt and contain the Required Components (Items 4E, i through vi above).
- H. When more than one physician is involved in an individual's treatment, there should be evidence that an RN or MD has reviewed all relevant information to ensure there are no contradictions or inadvertent contraindications within the services and treatment orders or plan.

## 5. INDIVIDUALIZED RECOVERY/RESILIENCY PLANNING

Recovery/Resiliency planning documentation is included in the individual's Individualized Recovery/Resiliency Plan (IRP). *The IRP planning is intended to develop a plan that focuses on the individual's hopes, dreams and vision of a life well-lived.* Every record must contain an IRP in accordance with content set forth in this Manual. The IRP must be reviewed and updated at least annually, and more frequently as may be needed to reflect the individual's evolving needs and goals. This plan sets forth the course of services by integrating the information gathered from the current assessment, status, functioning, and past treatment history into a clinically sound plan.

- A. An individualized resiliency/recovery plan should be developed by the individual with the guidance of an appropriate professional. The individual should direct-decisions that impact their lives.
- B. Others who should assist in the development of the IRP are persons who are:
  - i. Significant in the life of the individual and from whom the individual gives consent for input;
  - ii. Involved in formal or informal support of the individual and from whom the individual gives consent for input; and
  - iii. Will deliver the specific services, supports, and treatment identified in the plan.
- C. For individuals with coexisting, complex and confounding needs, cross-disciplinary approaches to planning should be used.
- D. Individualized Recovery/Resiliency Planning should:
  - i. Identify and prioritize the needs of the individual;
  - ii. Be fully explained to the individual using language he or she can understand and agreed to by the individual;
  - iii. Be driven by the individual and focused on outcomes the individual wishes to achieve (based upon assessment of the individual's hopes, dreams, and goals);

- iv. State goals which will honor achievement of stated hopes, choice, preferences, and desired outcomes of the individual and/or family;
  - v. Be indicative of desired changes in levels of functioning and quality of life (as defined by the individual) to objectively measure progress.
  - vi. Define goals/objectives that are individualized, specific and measurable with achievable timeframes;
  - vii. Include a projected plan to modify or decrease the intensity of services, supports, and treatment as goals are achieved.
  - viii. Documents that may be relevant for incorporation by reference into an individualized plan could include but are not limited to:
    - 1. Medical updates as indicated by physician orders or notes;
    - 2. Addenda as required when a portion of the plan necessitates reassessment;
    - 3. A personal safety/crisis plan which directs in advance the individual's desires/wishes/plans/objectives in the event of a crisis;
    - 4. A Wellness Recovery Action Plan (WRAP), which should:
      - a. Be discussed with the individual, and assistance offered in its development should the individual desire it;
      - b. Be completely voluntary and include a written statement to that effect. If the individual declines assistance, this should be documented in a progress note. If assistance is desired by the individual, this should also be documented in a progress note (along with the start and stop time of development activities).
      - c. Be developed with fidelity to WRAP Values and Ethics ([www.mentalhealthrecovery.com](http://www.mentalhealthrecovery.com));
      - d. Belong to the individual, who chooses where it will be kept and with whom it will be shared (Is in the clinical record only if self-directed by the individual for inclusion). If a copy of the WRAP is not to be included in the clinical record, documentation of assistance to the individual with WRAP development and the fact that the individual chose to not include it in their record should be documented in a progress note.
      - e. Be devoid of clinical language (i.e., is in the person's own language);
- E. Individualized plans (or portions of the plan) must be reassessed as needed, in accordance with changing needs, circumstances, and responses of the individual, including but not limited to:
- i. Any life change that potentially impacts goals, objectives and/or interventions in the plan, or that would necessitate the addition of new goals, objectives and/or interventions;
  - ii. Any change in medical, behavioral, cognitive, and/or physical status that potentially impacts goals, objectives and/or interventions in the plan, or that would necessitate the addition of new goals, objectives and/or interventions;
  - iii. When either of the following events occur: (1) The provider refers an individual to an acute level of behavioral health care (e.g. ED for a psychiatric emergency, BHCC, Crisis Stabilization Unit, psychiatric inpatient hospital, PRTF, etc.), or (2) Within seven (7) business days of an individual's discharge from an acute level of behavioral health care service (regardless of whether or not the individual was enrolled with the provider prior to the acute care service episode, or the individual's length of stay in the acute care service), the provider must adhere to the following:
    - a. A licensed (independent or associate-level), or SUD-credentialed (certification level II or above) practitioner must conduct a **clinical review** of the individual's relevant clinical information:
      - 1. *For individuals being admitted/readmitted to the provider's services following discharge from an acute level of care*, this clinical review should include a review of the individual's clinical record (if the individual was previously enrolled with the provider), as well as documentation from the acute care provider (e.g. the discharge plan or summary, the treatment plan while in acute care, any risk assessments, the CSSRS, etc.), and any communications with the acute care provider in order to assess and address the

individual's current needs, challenges, strengths, progress, possible antecedents to the acute care episode, and post-discharge treatment recommendations.

2. *For individuals being referred by the provider to an acute level of care*, this clinical review should include a review of the individual's clinical record (e.g. progress notes, event notes, recent assessments, etc.), as well as communication with other practitioners or informal supports (such as family) involved in the individual's care in order to assess the individual's current needs, challenges, strengths, progress, possible antecedents to the acute care referral, and to develop recommendations for post-acute care services and supports.
    - b. Based upon this clinical review, the practitioner must document their findings and recommendations in the individual's clinical record as an administrative citation and should also specifically include any recommended modifications/additions to the IRP.
  - iv. Modifications/additions to the IRP must be made by a practitioner authorized to do so, as soon as possible following the clinical review and resulting recommendations. Justification for any recommendations not adopted should be documented in a progress note. When requested by the individual;
    - v. As required by a specific Service Definition;
    - vi. As required by a new or modified Order;
    - vii. At least annually; and/or
    - viii. When goals are not being met, this should be viewed as an indication that a reassessment is needed.
- F. When services are provided to youth during school hours, the IRP should indicate how the intervention has been coordinated among family system, school, and provider.
- G. Individualized Recovery/Resiliency Planning must:
- i. Support the individual to develop goals/objectives that are:
    1. Related to assessment/reassessment;
    2. Designed to ameliorate, rectify, correct, reduce or make symptoms manageable; and to support and utilize the individual's strengths.
  - ii. Detail interventions which will assist in achieving the outcomes noted in the goals/objectives;
  - iii. Identify services and interventions of the right frequency, intensity and duration to best accomplish plan objectives. The frequency of delivery, the intensity of the service/intervention, and the overall duration of the service/intervention should be based upon what is realistic for the individual and their circumstances, and what is predicted to be necessary for achieving progress toward defined goals/objectives within the treatment plan's limited timeframe.
    1. It is expected that the actual frequency, intensity, and duration of service delivery will closely approximate the levels of service delivery projected in the IRP, and that updates to the plan will be made should the individual's needs change.
      - a. Crisis Intervention is an exception to the requirements above, in that: The Individualized Recovery/Resiliency Plan may indicate that the Crisis Intervention service is provided **as needed**. If Crisis Intervention is a part of the services outlined in the IRP, it is expected that an initial and brief Crisis Plan be developed and in place in order to direct the crisis service. The Crisis Plan should conform to standards set forth in this manual.
  - iv. Identify staff responsible to deliver or provide the specific service, support, and treatment. Identification of staff can be broadly defined such as "physician," "therapist," "paraprofessional," "PSR team," etc.;
  - v. Assure there is a goal/objective that is consistent with the service intent; and

- vi. Document by individual signature and/or, when applicable, guardian signature that the individual served is an active participant in the planning and process of services (to the degree to which that is possible). Subsequent changes to the plan should also document individual and/or guardian signature via dated initials. If gaining signatures or initials (as applicable) is not possible, the record should document the attempt and reason.

## 6. DISCHARGE/TRANSITION PLANNING

- A. Discharge/transition planning should:
  - i. Document transition planning at the onset of service delivery and includes specific objectives to be met prior to decreasing the intensity of service or discharge.
  - ii. Define discharge criteria which objectively measures progress by aligning with documented goals/objectives, desired changes in levels of functioning, and quality of life;
  - iii. Define specific step-down service/activity/supports to meet individualized needs;
  - iv. Be measurable and include anticipated step-down/transition date.
  - v. When providing medication as part of a Medication Assisted Treatment model, discharge planning is not required unless the individual is leaving service due to a change of provider. For individuals who remain in service with their current provider, individualized transition planning is required and documented in the individualized recovery plan and progress notes, indicating the clinical phases of intensity of care demonstrated by an increase in take-home medication approved by the appropriate prescribing practitioner.
- B. Providers of community adult behavioral health services shall participate in the hospital recovery planning team meetings for individuals currently enrolled in or being referred to their community services by a DBHDD-operated or contracted psychiatric inpatient facility. The DBHDD contracted Comprehensive Community Providers (CCP) and/or DBHDD Specialty Providers are held responsible and accountable for the implementation of [Follow-up for Individuals Discharged from the State Hospital, 01-508](#).
- C. It is the provider's responsibility to discharge individuals in a timely manner once it has been determined they are no longer, or will no longer be receiving services:
  - i. This includes discharging individuals from the Higher Level of Care (HLOC) services (Community Inpatient, Crisis Stabilization, PRTF, and Residential Detox). When an individual leaves one of these HLOC services, providers are required to submit a discharge record in the Georgia Collaborative ASO system so that a date of discharge, clinical, and discharge information can be collected. Providers shall submit this documentation within the timeframe defined for the particular service in the DBHDD contract for the service or in this Provider Manual's Service Guidelines.
  - ii. For all other community-based services, it is the provider's responsibility to discharge individuals once the individual has left all services and will no longer be returning. An episode of care begins at the point the individual is first enrolled in services and continues for as long as there is a sequence of concurrent authorization requests. Once an individual is no longer receiving any services, the provider shall report a discharge notifying that the person is no longer being served by DBHDD.
  - iii. If at any point in time there is an authorization that has expired, and more than 90 days has passed without the provider entering a new request for services or properly discharging the individual, the Georgia Collaborative ASO will automatically generate an administrative discharge record for that individual.

## 7. DISCHARGE SUMMARY

- A. At the time of discharge, a summary should be provided to the individual which indicates:
  - i. Strengths, needs, preferences and abilities of the individual;
  - ii. Services, supports, and treatment provided; and
  - iii. Outcome of the goals and objectives made during the service provision period.
  - iv. Necessary plans for referral; and
  - v. Service or organization to which the individual was discharged, if applicable.
- B. A summary of the course of services, supports, treatment, the Discharge Summary, must be placed in the record within 30 days of discharge. Documentation must include/adhere to the items in the above section entitled, "Discharge/Transition Planning," and include:
  - i. Strengths, needs, preferences and abilities of the individual;
  - ii. Services, supports, and treatment provided;
  - iii. Outcome of the goals and objectives made during the service provision period;
  - iv. Document the reason for ending services;
  - v. Living situation at the time of discharge;
  - vi. Necessary plans for referral; and
  - vii. Service or organization to which the individual was discharged, if applicable.

## 8. PROGRESS NOTES

Progress Note documentation includes the actual implementation and outcome(s) of the designated services in an individual's IRP. There are clear requirements related to the content, components, required characteristics, and format of progress note documentation.

The content in progress note documentation provides all the necessary supporting evidence to justify the need for the services based on medical necessity criteria and support all requirements for billing and adjudication of the service claims. Review of sequential progress notes should provide a snapshot of the individual over a specified time frame.

Note: This section is applicable to progress notes for all billed services (e.g. face-to-face, telemedicine, collateral, etc.).

- A. Progress note documentation must reflect the following:
  - i. **Linkage** - Clear link between the Individualized Recovery/Resiliency Plan and intervention(s) provided.
  - ii. **Consumer profile** – Description of the current status of the individual. This may include individual statements, shared information and quotes; observations and description of individual affect; behaviors; symptoms; and level of functioning.
  - iii. **Justification** – Documentation must reflect justification for payment of services provided and utilization of resources as it relates to the Service Definition and the needs/desires of the individual.

- iv. **Specific services/intervention/modality provided** – Specific detail of all provided activity(ies) or modality(ies) including date, time, frequency, duration, and location (including whether telemedicine or telephonic intervention was utilized, and where the individual was physically located during the intervention).
- v. **Consumer response to intervention(s)** – Identification of how and in what manner the service, activity, and modality have impacted the individual; what was the effect; and how was this evidenced.
- vi. **Consumer's progress** – Identification of the individual's progress (or lack of progress) toward specific goals/objectives.

B. Progress note documentation should reflect the following:

- i. **Purpose or goal of the services/intervention/modality** – Clarification of the reasons the individual is participating in the above services, activities, and modalities and the demonstrated value of services.
- ii. **Monitoring** – Evidence that selected interventions and modalities are occurring and monitored for expected and desired outcomes.
- iii. **Next steps** – Targeted next steps in services and activities to support progress toward goals/objectives in the IRP.
- iv. **Reassessment and Adjustment to plan** – Review and acknowledgement as to whether there is a need to modify, amend or update the individualized service/recovery plan and if so, how.
- v. **Standardized format** – Providers are expected to follow best practices and select a format or create a prescribed narrative that can be used consistently throughout their organization. Specific details regarding actual practice should be described in providers' policies, procedures, training manuals and/or documentation instruction sheets. All formats require a clear link between the progress note, assessment and service and planning data.

C. Progress note documentation must address and adhere to the following<sup>7</sup>:

- i. **Presence of note** – For any claim or encounter submitted to DBHDD or DCH for these services herein, a note must be present justifying that specific intervention. In addition, other ancillary or non-billable services which are related to the well-being of the individual served must be included in the individual's official medical record.
- ii. **Service billed** – All progress notes must contain the corresponding HCPCS/CPT code, which must include any designated modifier. When documenting practitioner modifiers, the modifier must indicate the reimbursement level, which may differ from the practitioner level in certain cases. For example, if an RN provides CSI, the RN would include the modifier U4 to indicate the practitioner level even though an RN is generally a level 2 Practitioner.
- iii. **Timeliness** – All activities/services provided are documented (written and filed) within the current individual record within a pre-established time frame set by provider policy not to exceed seven (7) calendar days. Best practice standards require progress notes to be written within 24 hours of the clinical or therapeutic activity. Notes entered retroactively into the record after an event or a shift must be identified as a "late entry".
- iv. **Conciseness and clarity** – Clear language, grammar, syntax, and sentence structure is used to describe the activity and related information.
- v. **Activities dated** – Documentation specifies the date/time of service.
- vi. **Dated entries** – All progress note entries are dated to reflect the date of signature of the individual providing the service (this date may differ from the actual date of service). Dates written to indicate the date of a signature may only be dated by the signer. In electronic records, the date of entry must reflect the date that the secure electronic signature was entered. Back-dating and post-dating are not permitted.

<sup>7</sup> Any electronic records process shall meet all requirements set forth in this document.

- vii. **Duration of activities** – Documentation of the duration must be noted for all services to include the number of units, times, and dates. For those services in which the unit/rate is based on time (not per contact/encounter), documentation must include time-in and time-out. This requirement applies for both face-to-face and collateral contacts. Residential services are excluded from the daily notation of time-in/time-out and must follow the specific guidelines outlined in each specific residential code. Further instruction related to the Psychosocial Rehabilitation Program and Peer Supports Program services can be found in the respective Service Guidelines.
- viii. **Rounding of Units** –
  - 1. Time-based: Rounding of units is permitted when a service meeting the Service Definition is provided in less time than the unit increment requirement. Each provider must have an internal policy regarding rounding of units. Regarding “rounding” of units, a unit may be billed for a service when an activity meets the Service Definition of the service billed but does not meet the full time/unit requirement. In order to bill a unit of service, at least 50% of the time required per unit must be provided and documented by the “time-in, time-out” documentation. For example, a provider may bill a single 15-minute unit for a service greater or equal to 8 minutes and less than 23 minutes. If the duration of the service is greater than or equal to 23 minutes and less than 38 minutes, then 2 units may be billed. Providers must document rounding practices in internal policy.
  - 2. Cost-based: DBHDD has some services which are cost-based reimbursement. In this case, rounding of cents should follow standard mathematical rounding protocols (i.e., .49 and less round down to the dollar amount below, .50 and higher round to the next dollar amount). Provider documentation and policy shall define provider internal controls regarding this expectation.
- ix. **Location of intervention--**
  - 1. For those services that may be billed as occurring either In-Clinic or Out-of-Clinic, progress notes must reflect the location as either In-Clinic or Out-of-Clinic (unless otherwise noted in Service Guideline).
    - a. If the intervention is In-Clinic, no further specificity is required unless the intervention is delivered via telemedicine or telephonically; in which case, the specific delivery modality and the individual’s physical location at the time of the intervention must be clearly stated.
    - b. If an intervention is “Out-of-Clinic,” the note must reflect the specific location of the intervention; this indication must be specific enough that it can be generally understood where the service occurred (for example: “...at the individual’s home,” “...at the grocery store”, etc.). Documenting that the service occurred “in the community” is not sufficient to describe the location.
    - c. When services are provided to youth at or during school, documentation must indicate that the intervention is most effective when provided during school hours.
  - 2. Out-of-Clinic Justification and Documentation:
    - a. In some cases, an increased rate is allowed for Out-of-Clinic services. When a service is provided Out-of-Clinic and has an established U7 “Out-of-Clinic” modifier associated with it, then generally, that U7 modifier is utilized on the service claim/encounter submission.
    - b. While the location of the intervention is required for clinical record documentation as noted above, the use of the U7 modifier is expressly a financial billing mechanism. It allows additional reimbursement related to the loss of productivity which occurs when a practitioner travels from a clinic site to deliver community-based service interventions. “Out-of-Clinic” may only be billed when the following requirements and justifications exist:
      - i. Travel by the practitioner is to a non-contiguous location;
      - ii. Travel by the practitioner is to a facility not owned, leased, controlled, or named as a service site by the agency who is billing the service (excepting visits to Permanent Supportive Housing sites);

- iii. Travel is to a facility owned, leased, or controlled by the agency billing the service, but no more than 6 individuals are being served in the course of that day by a single practitioner in non-group services;
  - iv. Travel is to a facility owned, leased, controlled, or named as a service site by the agency, but no more than 24 individuals are being served in groups at that site in the course of a day.
  - v. One group and/or six individual sessions *per practitioner* could occur in a single day and be claimed as “Out-of-Clinic” via the use of the U7 modifier. However, if either of these productivity caps is exceeded (i.e. more than one group OR more than six individual sessions), then the “Out-of-Clinic” rate may not be billed. In that case, *none* of the services provided at that location by the practitioner for that day qualify for “Out-of-Clinic” billing.
- c. It should be noted: If volume or infrastructure indicates that a location or site is regularly operating as a service site (e.g. posted on websites as a clinic site, the site is a daily point of service for multiple practitioners, etc.) providers may need to do the due diligence of enrolling/licensing it as a site.
- d. If the service does not qualify to be billed as “Out-of-Clinic,” or if the U7 modifier utilization criteria above are not met, then the “In-Clinic” rate/modifier (U6) may still be billed.
- 3. The Place of Service code required on a progress note/claim may not always seem to intuitively align with the In-Clinic and Out-of-Clinic modifier use as defined above. The modifier must always reflect accurate accountability to the requirements above, whereas the Place of Service code is permitted to be generalized and is not used for auditing/accountability purposes.
- 4. **Claims** - In situations where multiple practitioners of the same U-level deliver a service (or services) for which the same procedure code and modifier(s) would be billed, *but service delivery occurs at two different times*, the time would need to be aggregated into one claim. If a different Place of Service code were applicable for each practitioner, only one should be selected and used on the aggregated claim.
- x. **Participation in intervention** – Progress notes should reflect all the participants in the treatment and/or support intervention (individual, family, other natural supports, multi-disciplinary team members, etc.). Progress notes should also reflect the specific interaction that occurred during the reported timeframe, and therefore, not a duplication of another note.
- xi. **Signature, Printed staff name, qualifications and/or title**<sup>8</sup> – The writer of the documentation is designated by name and credentials/qualifications and when required, degree and title. If an individual is a licensed practitioner, the printed name must be the name listed on his or her practitioner’s license on all medical record documentation<sup>9</sup>. An original signature is required. The printed name and qualifications and/or title may be recorded using a stamp or typed onto the document. Automated or electronic documentation must include a secure electronic signature<sup>10</sup>.
- xii. **Consistency** – Documentation must follow a consistent, uniform format. Should the progress note cross multiple pages in a paper record, the provider is responsible for ensuring that it is clear that the additional pages are a continuation of the progress note. For example, in a 2-page note, page 2 must contain the name of the individual, date of service, a page number, and indication that the signature of the practitioner or paraprofessional is related to the progress note on page 1.

<sup>8</sup> See Standards for All Behavioral Health Providers, Part II for additional information regarding credentials.

<sup>9</sup> It is acceptable that the initials can be used for first and middle names. The last name must be spelled out and each of these must correlate with the names on the license. This is an effort to ensure that a connection can be made between the printed/stamped name on the chart entry and a license.

<sup>10</sup> As defined in PART I POLICIES AND PROCEDURES FOR MEDICAID/PEACHCARE FOR KIDS, a Secure Electronic Signature means an electronic or digital signature, symbol, or process associated with a document which is created, transmitted, received, or stored by electronic means which (1) requires the application of a security procedure; (2) capable of verification/authentication; (3) adopted by a party with the intent to be bound or to authenticate a record; (4) signed under penalty of perjury; (5) unique to the person using it; (6) under the sole control of the person using it; and (7) linked to data in such a manner that if the data is changed the electronic signature is invalidated.

xiii. **Diversiónary and non-billable activities:**

- a. Providers may not bill for multiple services which are direct interventions with the individual during the same time period. If multiple services are determined to have been billed at the same or overlapping time period, billing for those services are subject to recoupment. Allowable exceptions include an individual receiving a service during the same time period or overlapping time period as:
  1. A service provided without client present as indicated with the modifier "HS"; or
  2. A collateral contact service as indicated by the modifier "UK"; and
  3. For example, a provider may bill Individual Counseling with the individual while, simultaneously, CM is being billed for a collateral contact. This is only allowable when at least one of the services do not require that the individual be present and the progress note documents such.
- b. Non-billable activities are those activities or administrative work that do not fall within the Service Definition. For example, confirming appointments, observation/monitoring, tutoring, transportation, completing paperwork, communication/coordination between practitioners employed by the same agency, and other administrative duties not explicitly allowed within the Service Guidelines are non-billable activities. Billing for non-billable activities is subject to recoupment.
- c. Billing for services that do not fall within the respective Service Definition is subject to recoupment.
- d. Diversiónary activities are activities/time during which a therapeutic intervention tied to a goal on the IRP is not occurring. Diversiónary activities which are billed are subject to recoupment.

## 9. EVENT NOTES

In addition to progress notes that document the intervention(s), records must also include event notes documenting:

- A. Issues, situations or events occurring in the life of the individual;
- B. The individual's response to the issues, situations or events;
- C. Relationships and interactions with family and friends, if applicable;
- D. Missed appointments including:
  - i. Documentation and result of follow-up (e.g., date of rescheduled appt.),
  - ii. Strategies to avoid future missed appointments.

## PART III

### *General Policies and Procedures*

#### Provider Manual for Community Behavioral Health Providers

**DBHDD PolicyStat** enables community providers of mental health, developmental disabilities and/or addictive diseases services to have access to all DBHDD policies that are relevant for community services. DBHDD PolicyStat can be accessed online anytime at <https://gadbhdd.policystat.com/>. By virtue of their contract or agreement with DBHDD, providers are required to comply with DBHDD policies relevant to their contracted services and/or according to the applicability as defined in the policy itself.

Additional information about how to utilize DBHDD PolicyStat is included in the following policy: **ACCESS TO DBHDD POLICIES FOR COMMUNITY PROVIDERS, 04-100** which is posted at <https://gadbhdd.policystat.com/>.

**Georgia Department of Behavioral Health  
and Developmental Disabilities**

# **PART IV**

## ***Appendices***

**Provider Manual for Community Behavioral Health  
Providers**

**Fiscal Year 2026**

## APPENDIX A: GLOSSARY OF TERMS

**Administrative Services Organization (ASO):** An agency contracted by DBHDD to review provider applications, provide service authorizations, provide agency audits and data collection related to the Behavioral Health and Developmental Disabilities Provider Networks and services.

**Collateral Contact:** Collateral contacts are either 1) communication, on behalf of the individual, with a source of information that is knowledgeable about the individual's situation and serves to support, clarify, expound on, or corroborate information provided by the individual or 2) contacts which are not face-to-face with the individual. With appropriate releases and permissions from the individual, communication with a collateral contact may be made in person or over the telephone. Collateral contacts include, but are not limited to:

- Family members/close friends/natural supporters;
- Employers;
- School officials;
- Neighbors;
- Landlords;
- Medical professionals;
- Law Enforcement/Community Supervision Officers;
- Other agencies/community resources/treatment providers.

**DC 0-5™ Manual:** A diagnostic classification manual for mental health and developmental disorders of infancy and early childhood. The manual supports clinicians in the diagnosis of these disorders in young children through a systematic and multi-axial approach to diagnosis.

**Diagnostic & Statistical Manual of Mental Disorders:** The American Psychiatric Association's classification and diagnostic tool for behavioral health conditions. When the term DSM is referenced, it is specifically in reference to the current version of the manual.

**Evidence Based Practice (EBP):** A treatment or supportive approach/practice-protocol that is based upon the application of the best available research evidence for achieving desired consumer outcomes.

**GCAL:** Georgia Crisis and Access Line, an operational branch of the Administrative Services Organization.

**ICD:** International Statistical Classification of Diseases and Related Health Problems, a medical classification list by the World Health Organization (WHO).

**Independently Licensed Clinician/Practitioner:** An individual who by Georgia Code can practice independently without supervision. These individuals include physicians, psychologists, Licensed Clinical Social Workers, Licensed Professional Counselors, and Licensed Marriage and Family Therapists

**Physician Assessment and Care:** A term that is used in this manual interchangeably with Psychiatric Treatment.

**Place of Service:** Federally defined codes used on electronic transactions to specify the place where service(s) were rendered.

**Telemedicine:** The use of medical information exchanged from one site to another via electronic communications to improve a patient's health. Electronic communication means the use of interactive telecommunications equipment that includes, at a minimum, audio and video equipment permitting two-way, real time interactive communication between the patient, and the physician or practitioner at the distant site.

**U.S. Department of Housing & Urban Development's Housing Quality Standards (HQS)** - The U.S. Department of Housing and Urban Development's (HUD) Housing Choice Voucher (HCV) has program regulations at 24 CFR Part 982 which set forth basic housing quality standards (HQS) which all units must meet at least annually throughout the term of the assisted tenancy. HQS define "standard housing" and establish the minimum criteria for the health and safety of program participants. Current HQS regulations consist of 13 key aspects of housing quality, performance requirements, and acceptability criteria to meet each performance requirement (Sanitary facilities; Food preparation and refuse disposal; Space and security; Thermal environment; Illumination and electricity; Structure and materials; Interior air quality; Water supply; Lead-based paint; Access; Site and neighborhood; Sanitary condition; and Smoke Detectors). HQS includes requirements for all housing types, including single and multi-family dwelling units, as well as specific requirements for special housing types such as manufactured homes, congregate housing, single room occupancy, shared housing, and group residences.

## APPENDIX B: VALID AUTHORIZATION DIAGNOSES

The diagnoses listed here are organized into Mental Health (MH) and Substance Use (SU) categories. Services that are uniquely identified as being MH-only or SU-only will require an authorization diagnosis which is within that category of condition (e.g., Alcohol Intoxication with Use Disorder [F10.229] would be an acceptable diagnosis for requesting an authorization for Ambulatory Detox [SU]).

| DSM-5 Diagnostic Category                              | ICD-10 DX Code | Diagnostic Description ICD-10                                                                 | MH | SU |
|--------------------------------------------------------|----------------|-----------------------------------------------------------------------------------------------|----|----|
| Neurocognitive Disorders                               | F03.A18        | Unspecified dementia, mild, with other behavioral disturbance                                 | Y  | N  |
| Neurocognitive Disorders                               | F03.A2         | Unspecified dementia, mild, with psychotic disturbance                                        | Y  | N  |
| Neurocognitive Disorders                               | F03.A3         | Unspecified dementia, mild, with mood disturbance                                             | Y  | N  |
| Neurocognitive Disorders                               | F03.B18        | Unspecified dementia, moderate, with other behavioral disturbance                             | Y  | N  |
| Neurocognitive Disorders                               | F03.B2         | Unspecified dementia, moderate, with psychotic disturbance                                    | Y  | N  |
| Neurocognitive Disorders                               | F03.B3         | Unspecified dementia, moderate, with mood disturbance                                         | Y  | N  |

| Sleep-Wake Disorders                       | G47.21 | Circadian rhythm sleep disorder, delayed sleep phase type          | E | N |
| Sleep-Wake Disorders                       | G47.22 | Circadian rhythm sleep disorder, advanced sleep phase type         | E | N |
| Sleep-Wake Disorders                       | G47.23 | Circadian rhythm sleep disorder, irregular sleep wake type         | E | N |
| Sleep-Wake Disorders                       | G47.24 | Circadian rhythm sleep disorder, free running type                 | E | N |
| Sleep-Wake Disorders                       | G47.26 | Circadian rhythm sleep disorder, shift work type                   | E | N |
| Obsessive-Compulsive and Related Disorders | L98.1  | Factitial dermatitis                                               | Y | N |

## APPENDIX C: CLAIMS DIAGNOSIS

Specific to the claims that are submitted to the ASO, the following are allowable claims diagnoses. A list of valid ICD-10 diagnosis codes for claim submission are outlined below. Providers will note that there are additional codes that are acceptable for claims that are not valid codes for authorization purposes. This flexibility was included as providers may not know all possible diagnoses at the point in time of authorization. There may be diagnoses being treated that are appropriate for billing that are not on the authorization.

Additionally, this list is not all inclusive of diagnosis descriptions. For instance, F06.1 is listed here as *Catatonic disorder due to known physiological condition*. F06.1 also represents several other descriptions such as *Catatonic Disorder Due to Another Medical Condition*. The provider is allowed to submit claims for the gamut of descriptions associated with that single numerical ICD-CM-10 if it is listed here:

| ICD-CM-10 | Short Description                                            | Long Description                                                                      |
|-----------|--------------------------------------------------------------|---------------------------------------------------------------------------------------|
| F983      | Pica of infancy and childhood                                | Pica of infancy and childhood                                                         |
| F630      | Pathological gambling                                        | Pathological gambling                                                                 |
| F060      | Psychotic disorder w hallucin due to known physiol condition | Psychotic disorder with hallucinations due to known physiological condition           |
| F061      | Catatonic disorder due to known physiological condition      | Catatonic disorder due to known physiological condition                               |
| F062      | Psychotic disorder w delusions due to known physiol cond     | Psychotic disorder with delusions due to known physiological condition                |
| F0630     | Mood disorder due to known physiological condition, unsp     | Mood disorder due to known physiological condition, unspecified                       |
| F0631     | Mood disorder due to known physiol cond w depressv features  | Mood disorder due to known physiological condition with depressive features           |
| F0632     | Mood disord d/t physiol cond w major depressive-like epsd    | Mood disorder due to known physiological condition with major depressive-like episode |
| F0633     | Mood disorder due to known physiol cond w manic features     | Mood disorder due to known physiological condition with manic features                |
| F0634     | Mood disorder due to known physiol cond w mixed features     | Mood disorder due to known physiological condition with mixed features                |
| F064      | Anxiety disorder due to known physiological condition        | Anxiety disorder due to known physiological condition                                 |
| F070      | Personality change due to known physiological condition      | Personality change due to known physiological condition                               |
| F079      | Unsp personality & behavrl disord due to known physiol cond  | Unspecified personality and behavioral disorder due to known physiological condition  |
| F09       | Unsp mental disorder due to known physiological condition    | Unspecified mental disorder due to known physiological condition                      |
| F1010     | Alcohol abuse, uncomplicated                                 | Alcohol abuse, uncomplicated                                                          |
