The DBHDD *Office of Recovery Transformation* is working in partnership with the Georgia Council of Substance Abuse, The Georgia Mental Health Consumer Network, and The Georgia Parent Support Network to conduct Follow-Up Recovery Transformation “Community Based Recovery Initiative” Forums around the state. We are coming to all 6 DBHDD Regions in an effort to assist in building local Community Based Recovery Initiative groups and to continue working with you locally in the Georgia shifts of services from a deficit-based medical model toward a recovery-oriented, strengths-based system of care.

When it comes to supporting recovery, your voice matters! From previous input, you told us what **Recovery** is:

***Recovery** is a deeply personal, unique, and self-determined journey through which an individual strives to reach his/her full potential. Persons in recovery improve their health and wellness by taking responsibility in pursuing a fulfilling and contributing life while embracing the difficulties one has faced.*

***Recovery** is not a gift from any system. Recovery is nurtured by relationships and environments that provide hope, empowerment, choices and opportunities.*

***Recovery** belongs to the person. It is a right, and it is the responsibility of us all.*

Please join us for this follow-up “Community-Based Recovery Initiative” event and participate in the important recovery conversation. We need your voice!
