The Georgia Department of Behavioral Health and Developmental Disabilities and the Georgia Mental Health Consumer Network are happy to invite you to a training being held at the Central Georgia Convention Center on June 13, 2013. At this training we will explore the work that has been done with our most recent TTI Grant awarded by the National Association of State Mental Health Program Directors. Through the work of this grant we are promoting integrated Primary and Behavioral Health by fostering Peer Supported Whole and Wellness Coaching. We are developing Wellness Coaches by training Certified Peer Specialists (CPSs) in Whole Health Action Management (WHAM), supporting the provider system with delivering the Peer Supported Whole Health and Wellness Service through technical assistance and educating peers receiving services in the system regarding accessing peer supported whole health services.
